

### REVISION OF AAA GIVEN SENATE AS PRICE INSURANCE

New Bill Embodies Secretary Wallace's Ever Normal Granary Program — Serious Problems Cited

WASHINGTON, July 16.—(AP)—Senators Pope of Idaho and McGill of Kansas, both Democrats, submitted to the senate today a revised draft of the long-pending proposed "agricultural adjustment act of 1937." The bill embodies Secretary Wallace's ever normal granary program.

In a statement Pope declared that a 200,000,000-bushel wheat surplus was in prospect this year, and said the bill was "designed to deal with a problem which is likely to arise in serious form in 1938 and following years."

The new farm bill, endorsed in principle by Wallace at informal senate and house hearings prior to its actual introduction, is aimed at assuring "fairly" prices based chiefly on the 1909-14 level for producers of wheat, cotton, corn, rice and tobacco.

The ever normal granary feature provides for the storage and carry-over in years of heavy yield of a maximum of 10 per cent of these commodities.

Under contracts between the agriculture secretary and farmers, acreage division and marketing quotas would be used to preserve the balance between annual supply and demand.

Pope and McGill added a provision to the tentative draft on which hearings have been held calling for a referendum of producers before putting the quotas into effect. They contended this would make "democratic" the only mandatory section of the legislation.

The bill was introduced in the house by Representative Flannagan (D., Va.).

### INTERNAL REVENUE GROWS IN OREGON

PORTLAND, July 16.—(AP)—Internal revenue collections in Oregon for the fiscal year ending June 30, 1937, increased 54.6 per cent over the preceding year, totaling \$10,834,594.95, J. W. Mahoney, collector for the district, announced.

Individual taxes showed the largest gain, amounting to \$3,006,882.98 compared to \$1,623,615.30 in 1936. Excess profit taxes were approximately double last year's totaling \$143,200.10. Liquor taxes dropped from \$935,983.09 in 1936 to \$821,514.28, largely as the result of stiffer competition in the beer field, with outside companies increasing their sales, Mahoney said.

AAA taxes, which last year amounted to \$604,967.92 were not collected in 1937, but the new social security levy produced \$1,430,137.60.

### LABOR, GRANGERS FORM COMMITTEE

PORTLAND, July 16.—(AP)—The Oregon state federation of labor and the state grange completed formation of a farm-labor relations committee, as authorized at the federation labor convention at Marshfield, the Portland labor temple announced today.

The committee consists of three members appointed by each group for the purpose of keeping both groups informed in matters of common interest and preventing misunderstandings, the announcement said.

The federation of labor named Phil Brady, Kelly Lee and Paul E. Gurske, all of Portland. The grange is represented by Morton Tompkins, Dayton; Senator W. A. Johnson of Grants Pass and Luther J. Davis, Kent.

The committee was suggested at the labor convention by Ray W. Gill, master of the state grange, who said it should "meet from time to time to discuss any labor situations that may develop in the harvesting or processing of farm crops."

### JOSEPHINE MINERS AWAIT NEXT STEP FROM DOWN RIVER

GRANTS PASS, July 16.—(AP)—Josephine county mining men named in an injunction suit filed yesterday by the district attorney for Curry county in general awaited the next step—which it was indicated was a question of jurisdiction of the courts—before making detailed comment.

The desired injunction, according to news reports, would prevent 16 named gold miners from dumping into the Rogue, its tributaries or along its banks such rock, gravel and other tailings as result from mining operations of the Josephine county mines named.

Papers had not been served on the local men, as far as was learned, and details of the complaint were not available.

Miners' statements previous to filing of the suit said stringent prohibition would effectively halt all mining along the river in Curry, Josephine and Jackson counties in Oregon, and also in northern California where mining is also conducted on tributaries of the Rogue.

The question of jurisdiction of the Curry county court in this county and also in another state, and the difficulty in distinguishing mud from the 16 named mines from that of the scores of others not named were suggested as of technical interest by attorneys questioned.

In some quarters, among the miners and others, the suit was welcomed as bringing nearer requested surveys to prove if damage is done to fish life by mining, and its extent if shown.

Miss Sara Miller, in Boston for a nurses' convention, found 31 pearls in her first order of oysters.

SEED DEALERS WARNED TO GET STATE LICENSE

SALEM, July 16.—(AP)—All seed dealers in Oregon were ordered by the state department of agriculture today to file applications for licenses under the 1937 seed law. The licenses cost \$2.50.

The law provides all seeds shall be labeled properly and that no noxious weeds can be sold. Dealers have 30 days to apply for the licenses.
