COMMISSIONS AND BOARD NOT STATE OFFICERS; RULING

SALEM, July 24.—(P)—Members of state boards and commissions appointed for terms in excess of four years are not state officers under the constitutional provisions, Attorney General Van Winkle ruled in an opinion here today.

The opinion was requested by Governor Charles H. Martin. In another opinion Van Winkle held that the state board of control has authority to purchase the life estate of Marshal R. Armstrong in the Mulkey building in Portland.

Upon the death of Frank M. Mulkey the property was bequeathed to the state of Oregon subject to a life interest of Chester V. Dolph and Armstrong. Chester Dolph died subsequently to the time the will was probated.

The attorney general held that any contract made by the present board would be binding upon future boards.

The opinion was requested by State Treasurer Rufus C. Holman.

2 EXPERTS DOUBT BOY'S CONFESSION HE SLEW SISTER

MADISON, Wis., July 24.—(AP)—Two University of Wisconsin consultants said in an official report today they believe Harold Beat, 15-year-old Soldier Grove boy, who confessed killing his 11-year-old sister, Mildred, is innocent and attempting to shield someone.

Dr. William F. Lorenz, university psychiatrist, and Professor J. H. Mathews, criminologist, had been requested by the court to examine the boy.

Harold made confession which he later retracted, and then confessed a second time. In the first instance he said Mildred had teased him about a girl. In the second confession he said he attempted to have sex relations with her.

PROPERTY TAX IS HELD MOST VITAL

PORTLAND, July 24.—(P)—The property tax, eclipsed in the public eye by more modern forms of revenue, remains the most important unit in the American tax structure, Dr. Ronald B. Welch of Chicago told a civic club here.

The levy raises \$4,500,000,000 annually, compared to \$2,600,000,000 for the income tax, he said.

"I do not believe any of us will live to see the day that the property tax will play second fiddle to the sales tax, the income tax or any new special tax that may be devised," he added.

He asserted that the homestead tax exemption movement is "contrary to every principle of sound finance," and held that "government is better run when citizens are fully aware that it cannot be run on nothing."

Dr. Welch is research consultant for the National Association of Assessors.

UNION WILL VOTE ON HOTEL PEACE

SAN FRANCISCO, July 24.—(P)—Reopening of San Francisco's 19 strikes-bound hotels Tuesday—88 days after they closed their registers in acquiescence to 3500 A. F. of L. pickets—appeared possible today.

The six unions involved prepared to ballot Monday on a plan to arbitrate the last obstacles to peace, the 40-hour week and a new wage scale. The joint strike board last night said it would recommend that rank and file ratify the plan.

Hotelmen said they could reopen "almost immediately," provided the peace proposal were acceptable.

SAILORS VOTE ON C.I.O. HELD VOID

SAN FRANCISCO, July 24.—(P)—The referendum of the sailors union of the Pacific Marine and Firemen on affiliation with the Committee for Industrial Organization has been declared void, and the ballots recently cast by members of the two unions on the subject were ordered destroyed, it was learned today.

Sailors were said to have reached this decision here and at Seattle on grounds the SUP apparently would not receive a CIO charter on terms demanded.

The Marine Firemen ordered their ballots destroyed at a meeting here Thursday night.

DOES ELECTRIC COOKING COST TOO MUCH?

YOU ARE PAYING FOR ELECTRIC COOKING WHETHER YOU USE IT OR NOT... WHY CONTINUE TO "GET ALONG" WITH AN OLD FASHIONED, INCONVENIENT FUEL STOVE?

YOU PAY

- from \$2 to \$4 for wood for cooking.
- the highest rate for lights and small appliances.
- you carry wood and ashes, scrub and clean... and roast over the cook stove all summer.
- you ball away food values that can be saved if cooked electrically.

IF YOU USE AN ELECTRIC RANGE

- you receive electric service on the combination electric rate which averages much less than 1/2 the lighting rate per kwh.
- electric cooking costs the average family of four less than 10 cents a day. (Wood alone costs nearly as much.)
- no wood to split or carry in.
- no ashes to dispose of.
- no soot to scour from stove, walls or pots and pans.
- save as much as 1/2 the precious health giving vitamins and minerals in food boiled away by old-fashioned cooking methods.

TO SAY NOTHING OF THE ADDED CONVENIENCE
