Circus Brings Variety of Entertainment

A newspaper or magazine is able to give a great volume of reading matter for a few cents because of its vast circulation. On the same principle, a circus provides a maximum of entertainment at small cost because of the great number of people it is able to show each day. This will be amply demonstrated Tuesday, July 27, when Russell Bros. Circus comes to Medford for two performances.

The manager of Russell Bros. Circus has arranged his performance in much the same way the editor of a newspaper plans the contents of its columns. Corresponding to the daily column of telegraph and local news are certain standard acts of the circus, for example, fine performing horses, elephants, acrobats and aerialists.

Analogous to regular departments—the weather reports, market quotations, box scores, and the like—are the menagerie, side-shows and refreshment stands. And, just as a newspaper has distinctive features such as its editorials and special columns, the circus has special acts and attractions not to be found on any other show. The exciting events which take place in the circus with the past spring and winter to automobile travel, attracting many winter visitors.

Inskip, city physician, gave him medical attention last night, city police said. Today, Graham was nursing a black eye, a cut on his cheek and bruises on his body.

SAMS VALLEY BOASTS SINGLE SPECIMEN OF WHITE GUINEA FOWL

It seems there is a white guinea fowl in the Rogue River valley even though Hugo A. Froehrich has never seen any from Portland to San Francisco during his six years in the poultry business.

At least C. F. Case of Central Point says there is one in the valley. It is a hen and is owned by Art Foote of Sams Valley and Mr. Case avers he saw it only last week. Doubtless, Mr. Case states, Mr. Foote could be induced to part with it.

The white guinea fowl question was brought up by Hans Hansen of Brookings, who wrote to Postmaster Frank DeCuir in search of some. Whether Mr. Hansen would be satisfied with one is not known; he ordered three, two hens and a cock.

No one has come forward to fill Mr. Hansen's order. Mr. Froehrich, saying there were no white guinea fowls in Oregon, wrote Saturday to Yankton, South Dakota, for some.

The battle is on—Erl Roman, famous sportsman, vs. 600 lbs. of savage, fighting, blue marlin! How would your nerves stand up to two hours of this?

AQUAPLANE EXPERT Miss Gloria Wheeden is a typical American outdoor girl. "Yes, I smoke," she says. "Like all my crowd, I enjoy Camels—especially at meal-times."

AS the Miami, Florida, "Herald" said of Erl Roman's struggle with the big fish (above): "The battle was tough. Erl had his hands full staying in the fishing chair." But a sporting spirit and healthy nerves kept Roman going. After a 2-hour fight, he landed the second-largest blue marlin ever taken on rod and reel. "Healthy nerves are necessary for keeping on top. Camels don't get on my nerves," Erl says. Above, right, Mr. Roman enjoys good digestion and a Camel after his tense fight. "I make it a point," he says, "to smoke Camels with my meals and after 'for digestion's sake.'"

HOW LONG CAN A THREE-QUARTER WIFE HOLD HER HUSBAND?

YOU have to work at marriage to make a success of it. Men may be selfish, ungrateful, but that's the way they're made and you might as well realize it. When your back aches and your nerves scream, don't take it out on your husband. He can't possibly know how you feel. For three generations one woman has told another how to "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three or four of life. 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

WHEN I'M TIRED AFTER A MATCH OR NEED EXTRA ENERGY, CAMELS GIVE ME A "LIFT" IN ENERGY.

FOREST RANGER has smoked Camels for 24 years. "If it weren't for Camels' mildness, I couldn't enjoy smoking so much," declares C. E. Dare. He likes Camels after his favorite meal. "Camels smooth things out for my digestion," he says.
