Ye Smudge Pot
By Arthur Perry.
At Albany, Ore., two agents charged with defrauding pin-ball machines

However painful it may be, savants and learned men, who generally know what they are talking about, predict prohibition will be the 1940 campaign issue.

An Eastern Oregon editor proposes simplification of the gold situation, by the government purchasing alleged gold bearing land

Explorer Wilkins proposes to reach the North Pole, by traveling under the polar ice, in a submarine.

PROBLEM OF PROPRIETY.
(Intend Bulletin)
"Probably people not visibly intoxicated have a right to drink on Pilot butte, under the Oregon laws."

Uncle John Griffin, 87, the pioneer bear killer, journeyed over the Beaver Crk. road Sun. and was so impressed by the scenic majesty, he threatened a poem about it.

THE SCRAMBLED PICTURE.
"Is one day's reading we encounter: Highest wages in seven years fall to attract farm workers in some middle western states."

Editorial Correspondence

PORTLAND, Ore., Aug. 1.—(en route east)—August strikes us as the least interesting month of the year. It isn't summer, it isn't fall, it's not winter or spring, but a kind of hodge-podge of all seasons, with no definite character of its own.

Thanks to some—not all—of the Dr. Hayes children, the Pullman was well filled. We have a vague idea we have never taken the Cannonball to Portland without SOME of the Hayes children being aboard.

Special editions are just pains in the neck for most newspaper editors,—except those responsible for them. Before leaving Medford we received the special Diamond Jubilee issue of the Corvallis Gazette Times—a huge mass of newsprint so huge it couldn't be pasted in a regular wrapper but had to be tied with rope.

Those who have followed this column's travelogues—which if placed end to end would reach from the Golden Gate to Sandy Hook and return—know that there have been frequent aspersions cast against the long-suffering S. P. and particularly the cattle-car propensities of its so-called passenger service—that is the pull-and-jerk technique of the locomotive engineers.

NEW YORK, Aug. 3.—(AP)—Rudy Vallee, for years America's No. 1 Heart Throb, is the despair of his valet, his girl friends, business associates and

lives with practically no contact with criminals or the art of tracking them. The real trick in the mystery story is not so much plot as suspense. Once a writer has made a reader feel that emotion of suspense he need worry little about the weakness or absurdity of plot.

Heard of a private home on upper Park avenue the other day that is staffed with 19 servants for a family of five. A housekeeper does all the employing and for keeping things running smoothly is paid \$10,000 a year and given her own apartment with a secretary-maid.

DR. SHARP IS ELECTED AERO BOARD PRESIDENT
PORTLAND, Aug. 3.—(AP)—The state aeronautics board elected Dr. Paul Sharp of Klamath Falls chairman yesterday.

Only one woman, Silena Gilmore, a Negro, has died in Alabama's electric chair since the state changed its method of execution from hanging to electrocution 10 years ago.

Personal Health Service

By William Brady, M. D.
Signed letters pertaining to personal health and hygiene not to disease diagnosis or treatment, will be answered by Dr. Brady if a stamped self-addressed envelope is enclosed.

HOME IS WHERE YOU SAY TELL WITH THE JONESSES
One of our readers who was trying to make her home a pleasant place to live in had sent a load of gewdags to the S. A. and knocked the footboards of the beds without greatly disturbing her nineteen-year-old daughter.

Fire! Mother's Gone Batty! Girls like that should keep a supply of camphor, catnip or smelling salts handy, and a rug to swoon on. In such a situation the mother should not abate one jot or tittle. If she proposes to have a flying trapeze in the library, and her daughter manifests symptoms of shock, mother must go thru with her at all costs else the education of her daughter is a tragic failure.

Now, girls, we'll never get anywhere with this belated movement for home reform unless we intend to do it and then do it all hazards. Naturally it is hard for the children, after eighteen or thirty years of what-not and overstudied crime, to preserve their equanimity at first, but if you've chopped up the foot-boards and screwed firmly into the rafter the hooks for your swing settee before the young'uns get home you are in a position to withstand the first storm of indignation.

Comment on the Day's News
By FRANK JENKINS
BIG news—not now, but several years hence—
The senate of the United States passes the administration's bill for federal regulation of hours and wages by a vote of 56 to 38.

supreme court bill. Of course, it didn't matter much, for the supreme court part of the measure was already cooked. But his act was taken as a friendly gesture toward the administration.

THE wages and hours bill should be known as a bill to:
1. Reduce employment.
2. Concentrate industry in the hands of BIG BUSINESS.
3. Promote dictatorship in this country.

Small businesses, unable to adapt their operations to the new conditions and new and higher costs, will be unable to compete.

DR. SHARP IS ELECTED AERO BOARD PRESIDENT
PORTLAND, Aug. 3.—(AP)—The state aeronautics board elected Dr. Paul Sharp of Klamath Falls chairman yesterday.

Livestock

Portland, Aug. 3.—(AP-USA)—Hogs 200, market active; steady with Monday's close, bulk and top good—choice 165-210 lb. drivens.
