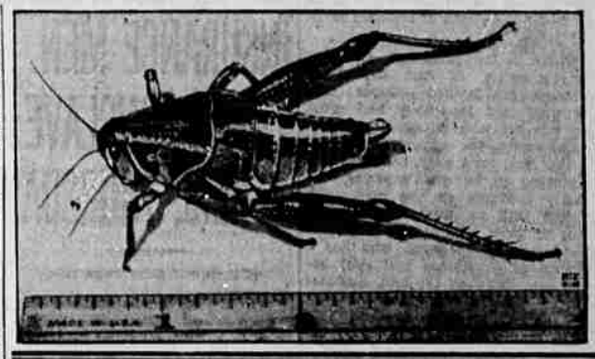
Grasshopper Plague Visits Farmers



It's not the boll weevil that's plaguing cotton farmers now, but the grasshopper. Planters near Hughes, Ark., used airplanes to dust their fields with poison in an effort to halt the armies of the pests. Below is a granddaddy of the hopper family, measuring four inches from tip to tip. He was found among the millions devouring a Nebraska cornfield.—(A. P. Photos.)

250 ENJOY PICNIC OF 4-H CLUBBERS

More than 250 4-H club members, parents and friends attended the county-wide 4-H picnic at Jackson Hot Springs last Saturday.

Practically every club in the county was represented and several clubs were there 100 percent. C. D. Conrad, county club agent, was very much impressed by the good turnout and support shown by local leaders and parents of the club members.

Baseball games, swimming and tether-tennis during the forenoon gave the boys and girls an appetite which soon showed its effect on the large covered-dish lunch and the 12½ gallons of ice cream furnished the clubs by Snider's and Grover's creamery and the Ashland creamery.

H. C. Seymour, state 4-H club leader, was present and at the general assembly following lunch congratulated Jackson county's local leaders and club members on the work they are doing and emphasized the fact that "the voluntary work of our local leaders is responsible for the high rank of Oregon among national winners in 4-H circles."
