

CAMPBOR DOSES FOUND TO HELP MENTAL CASES

BUFFALO, N. Y. (UP)—A new treatment for schizophrenia, or dementia praecox, one of the most common and serious of mental diseases, has been announced by the Buffalo City hospital.

The treatment, introduced in this country by the Buffalo institution, consists of injection into the blood stream of large doses of a specially prepared camphor solution.

Treatments under the new method were started here a year ago and hospital officials reported improvements in 80 percent of the cases.

Based on little known research of Dr. L. V. Meduna, superintendent of the Royal State hospital in Budapest, Hungary, the therapy here has been carried on by Dr. Emerick Friedman, internist psychiatrist at the hospital, under the direction of Dr. Samuel W. Hartwell, chief attending psychiatrist.

Hartwell said 40 patients have been treated in the institution and that the success shown by the method was "well-nigh revolutionary," because until the last few years "no form of drug seemed to have any effect in dementia praecox cases."

He said the camphor method was regarded as more successful, less dangerous and more economical than the insulin method which has been used recently in the treatment of the disease.

Thirty-two of the 40 patients treated improved so "remarkably" that they were sent home, Dr. Hartwell revealed.

He explained that administration of the camphor preparation brings

18-Year Old Dog Thrives On Ice Cream and Candy

CINCINNATI, O. (P)—Patrick Henry, it seems, cares not for death, but is concerned only with liberty—and ice cream.

Patrick Henry is only a German shepherd, but at 18, says Harry Lahke, his druggist owner, is "just about the best hold-up insurance I've got."

Pat wears 16 annual license tags on his shoulder harness. Others, Lahke explains, have been lost. Registration papers "that long"—with Lahke extending his arms as if telling a fish yarn—further attest to the dog's antiquity.

Besides possessing a child-like fond-

ness for ice cream and candy, the dog is almost human, Lahke boasts, in his fastidious "demand" for cleanliness.

"He has to have his face washed every morning and dried with a clean towel," the owner says.

"As regularly as I go to the bathroom to shave, in comes Pat, to be washed. He'll sit and watch until the last bit of lather scrapes off. Then it's his turn. If I get a used towel—nothing doing. If I start out without drying his face, I feel a tug at my wrist, and I've got to go back and finish the job."

Honolulu Children Welcome Shirley

HONOLULU, Aug. 6.—(AP)—Thousands of children and grownups of all racial strains lined downtown streets here Thursday to shout Aloha to Shirley Temple on arrival of the child actress from Hollywood.

She made a triumphant ride in an open car from dock to hotel. Children pelted the automobile with leis and bouquets.

Bouncing Baby Boy

SAN DIEGO, Cal. (AP)—Playing on a second story porch at his home, Wayne Buco, 17 months, fell over the side and landed on a concrete pavement 17 feet below. Doctors could find neither a scratch nor a bruise on Wayne.

MORALE RESTORED IN PHONE SYSTEM OF LITTLE TIRANA

WASHINGTON (UP)—The commerce department has brought reassuring word of the temporarily critical telephone situation in Tirana, capital of Albania.

Tirana's phone system, 300 paid-up subscribers, has weathered the first major crisis in its history, the department divulged, and has returned to its status as the most efficient telephone exchange for its size in the world.

Tirana not only has the smallest telephone exchange in Europe, but a unique one. Its subscribers have no directories because they have no telephone numbers. And so, it follows, wrong numbers are rare. The three operators know the subscribers—all 300 of them—and members of their households by their voices. And they know them all by name.

DEMO SOLICITING HIT BY WHEELER

WASHINGTON, Aug. 6.—(AP)—Senator Wheeler (D., Mont.) denounced the democratic national committee today for soliciting campaign contributions from Robert R. Young, New York railway magnate.

Wheeler, chairman of the senate railroad investigating committee, said the solicitation was a "deplorable practice," and added:

"It might give the impression that people had to give money in order to get proper treatment, or that they might get some kind of favor."

Young testified yesterday he bought \$15,000 worth of democratic national convention books early this spring, but that the solicitors had "positively never discussed" his dealings with federal agencies.

50 MILLIONAIRES WILL BE MADE BY ROCKEFELLER COIN

NEW YORK, Aug. 6.—(AP)—Some time after 1950 a man now dead will create approximately 50 millionaires.

He is William Rockefeller, brother of the late John D., who died in 1922 and left the principal of a \$50,000,000 estate to be distributed among his great-grandchildren.

SPEED LAW REVISION SEEN NEED IN OREGON

SALEM, Aug. 6.—(AP)—Recommendations of speed law revisions and rigid law enforcement to curb "the alarming increase in fatal motor vehicle accidents" came today from R. H. Baldoock, state highway engineer.

He pleaded to the public to support police in enforcing laws, asserting that the major portion of the accidents is caused by the reckless, careless and drunken.

"The Oregon basic speed law is very hard to define—nebulous in character—and it is extremely difficult to secure convictions for infractions," he said.

"It would seem that this law should be clarified and definite speed limits determined, the exceeding of which would be evidence of guilt."

Taber Opposes
WASHINGTON, Aug. 6.—(AP)—Louis J. Taber, master of the national grange, expressed opposition today to legislation which he said might result in transfer of land-use activities from the agriculture to the interior department. He testified at senate committee hearings on the Robinson reorganization bill, which would give the president broad power to consolidate governmental agencies.

RAMPAGING AUTO INVADES KITCHEN

ROSEBURG, Ore. Aug. 6.—(AP)—Crashing through the side of the J. T. Sullivan home at Drain and into the kitchen, a rampaging automobile hurled the Sullivan baby boy from his high-chair against the cook stove, bruising him badly, and smashing furniture according to a report to the sheriff's office.

The automobile, bearing a Washington state license, was occupied by two women and a boy, and one of the former, Daisy Trout, was reported to have been at the wheel. None of the trio was injured.

50 MILLIONAIRES WILL BE MADE BY ROCKEFELLER COIN

NEW YORK, Aug. 6.—(AP)—Some time after 1950 a man now dead will create approximately 50 millionaires.

He is William Rockefeller, brother of the late John D., who died in 1922 and left the principal of a \$50,000,000 estate to be distributed among his great-grandchildren.

SPEED LAW REVISION SEEN NEED IN OREGON

SALEM, Aug. 6.—(AP)—Recommendations of speed law revisions and rigid law enforcement to curb "the alarming increase in fatal motor vehicle accidents" came today from R. H. Baldoock, state highway engineer.

He pleaded to the public to support police in enforcing laws, asserting that the major portion of the accidents is caused by the reckless, careless and drunken.

"The Oregon basic speed law is very hard to define—nebulous in character—and it is extremely difficult to secure convictions for infractions," he said.

"It would seem that this law should be clarified and definite speed limits determined, the exceeding of which would be evidence of guilt."

In the dash toward the Sullivan home, the car, after leaving the highway at a sharp turn, crossed back and smashed through a fence. No charges have been filed.
