

SMALL SIZED SET LATEST THING IN PHOTO RECEPTION

Wirephoto Mechanism Size of Radio Cabinet Will Soon Be Put in Operation By the Associated Press

NEW YORK, Aug. 6.—(AP)—Development of a wire-photo receiving set 40 inches high—about the size of a radio cabinet—was announced today by Associated Press.

The newest technical step forward in the science of transmitting pictures by wire, it was conceived and built by Associated Press technicians under the direction of W. J. McCambridge, assistant general manager, and H. B. Biele, chief engineer.

The machine has been fully tested and will be put into operation immediately, McCambridge said.

Portables in Use.

He pictured the new receiver as a development comparable to the introduction more than a year ago, of the portable wire-photo transmitter, which doubled Associated Press picture coverage by wire at the time.

Like the portable transmitter, the receiver will operate on any telephone circuit and on any available electric current.

The radical design of the receiver makes possible its small size and the elimination of the control "key." McCambridge said that quality of pictures received in tests compares favorably with the regular wire-photos received on the large stationary machines—with certain advantages in favor of the smaller machine.

Makes Big Pictures.

Pictures as large as a full page or a double truck when needed may be delivered under the new setup to member papers participating. The time consumed in transmission of any picture when the rearrangement is effected will be eight minutes. Scanning lines are imperceptible to the eye in the largest double-page pictures.

The new receiver doubles the field of wire-photo, since it may be installed in cities connected with the wire-photo network through telephone call operation.

It took eight months of intensive experimentation to produce the novel picture receiver. Its creators said that the largest picture laboratory in the country made an examination of the pictures produced and pronounced them superior in tone quality and in tone numbers to the present system.

No Synchronization. No synchronization is necessary between stations, the individual driving mechanisms being sufficiently constant in speed to make that unnecessary. How constant that speed must be is understood when it is explained that in the transmission of a picture the tiny beam of light travels a total of 12,000 inches over the surface of the picture and ends up within a 4th of an inch or less of the pre-determined end point. This fine degree of accuracy is achieved by controlling the driving motor with a vibrating tuning fork which does not vary its frequency or pitch by more than one ten-millionth of the rate of speed desired.

More than 70 members of the Associated Press now use wire-photo and nearly every member benefits from the speed of moving pictures by wire through the teletext service, which services newspapers with news picture mats made from wire-photo pictures.

DRIVERS' LICENSES BRING IN \$195,150

SALEM, Ore., Aug. 6.—(AP)—Receipts from drivers' licenses this year were \$195,150, compared with \$181,810 two years ago, Secretary of State Earl Snell said today.

Portland receipts, however, dropped from \$66,604 in 1935 to \$47,551 this year. West Portland receipts this year were \$32,231 and East Portland \$15,319.

The drive by state, county and city police against drivers who failed to renew their licenses July 1 has caused a rush in applications in the past few days, Snell said.

The area south of Roseburg, including Klamath Falls, reported receipts of \$16,408, compared with \$20,677 two years ago. The region between Cascade Locks and Baker showed a gain of from \$2353 to \$3711. The Salem territory gained from \$13,808 to \$17,811, while the Bend area increased from \$1396 to \$4191.

The region including Oregon City, Dallas, St. Helens and Astoria increased from \$3825 to \$7920.

DRY HAIR

Whether due to Sun, Wind, Dust or bleaches or improper care of the hair is quickly corrected with the proper use of Mann's Hair Medicine (Vitamin "F"). Its nourishing, stimulating and healing action also corrects Dandruff, Itching scalp and Falling Hair. For sale and guaranteed by

Meteorological Report

August 6, 1937 Forecast Medford and vicinity: Fair tonight and Saturday. Not much change in temperature.

Oregon: Cloudy in north portion and on coast. Cooler in east portion Saturday. Moderate northwest wind off coast.

Temperature a 3/4 of 1/2 ago today Highest, 90; lowest, 59. Total monthly precipitation, none; excess for the season, none. Total precipitation since September 1, 1935, 16.85 inches; deficiency for the season, 0.99 inch.

Relative humidity at 5 p. m. yesterday, 74 per cent; 5 a. m. today, 70 per cent.

Sunrise tomorrow, 5:10 a. m. Sunset tomorrow, 7:23 p. m.

Observations taken at 5 a. m., 120 Meridian Time.

Table with columns: CITY, Precipitation, Wind, Clouds, Visibility, Barometer, Temperature, Humidity, etc.

DEEP CUT MADE IN WPA PAYROLL SINCE DEADLINE

WASHINGTON, Aug. 6.—(AP)—The works progress administration reported today that it employed 1,656,533 persons July 17, two days after the deadline set for cutting the rolls to 1,600,000.

On July 3 the figure was 1,776,239. On January 30 it was 2,138,059. The report showed a total of 2,281,184 on all federal relief agencies as of July 17. In addition to those on WPA, the following were listed:

Emergency conservation work, 321,378; bureau of public roads (excluding employment on federal aid and state highway projects not financed by emergency relief funds), 30,003; public works administration, 111,630; other agencies 141,643.

The report said 1,809,253, or 85.8 percent of the persons employed on WPA as of July 17 were "certified as in need of relief." In the emergency conservation work the percentage was 85.4 or 274,300 persons.

The report added that 89.3 percent of all persons employed in all relief agencies of the government on July 17 were needy persons. In the week ending July 17, it said WPA rolls were cut 55,052, while emergency conservation workers were reduced by 11,120, and the number in other agencies by 10,917. The total relief labor rolls of the government were reduced 77,089 in that week.

Wrong Pick DES MOINES (AP)—A 23-year old man attempted to pick the pocket of R. J. Vlach at a parade here, but suddenly was collared by the intended victim and held until police arrived. Vlach is chief of police at Cedar Rapids, Iowa.

Clym of the Clough, legendary English archer, is said to have lived one generation before Robin Hood.

The Grange

Members of Sams Valley Grange are urged to arrive early at the regular meeting Saturday, August 7. A very short meeting is scheduled in order to allow all who wish a chance to attend the benefit dance at Jacksonville the same evening.

The session will start at near 8 o'clock as possible, be on time.

LADY BADLY WORRIED BY DIVORCE QUESTION

RALEIGH, N. C. (AP)—County Clerk W. H. Sawyer got this letter

from a woman whose name he withheld: "Will you please let me know whether or not I am divorced, for if I am not divorced I am in a hell of a fix. I have just got married again."

Sawyer, after checking the records, eased the lady's mind.

MARTIN VICE ADMIRAL IN ASTORIA'S 'NAVY'

SALEM, Aug. 6.—(AP)—Governor Martin, a retired major-general in the regular army, became a vice-admiral today.

The commission came from Mayor Joseph E. Carson of Portland, admiral of the 26th annual Astoria regatta to be held early in September.

Vice-Admiral Martin will report for duty at Astoria September 2.

Laments Modern Tempo STANFORD UNIVERSITY, Cal. (UP)—Dean Grayson M. Kefauver has characterized modern society as a combination of noise, speed, vocational monotony and competitive drive for profits. He urges a new mode of life to relieve modern tension and emotional conflicts.

NAZI STUDENTS WILL BE TAUGHT TO HATE JEW GOD

German Teachers Told to Weave in Idea No Mercy Can Be Expected From Jehovah—Exhibit Planned

BERLIN, Aug. 6.—(AP)—German school teachers received instructions today to weave into boys' and girls' classwork on the three R's the idea that "we can expect no mercy" from any "Jewish god."

Opening the fall semester, teachers found in a new anti-Jewish handbook the suggestion that if they were alert they might find a chance to bring out "the truth about the Jews in history, biology, nature study and anthropology."

The handbook was written by Fritz Fink, a Nurnberg school counselor, and published with a foreword by Julius Streicher, Germany's chief anti-semitic.

Good Opportunity. Fink declared there is a good opportunity for "conscientious" teachers to stress the subject wherever the name "Jehovah" (Jahweh) appears in history, literature or current events.

He urged them to call upon individual pupils for brief summaries of the "attributes" of the Jewish god. Such a recitation, it was explained might follow these lines:

"Jahweh is unjust. He divides the peoples into chosen and rejected. He is ferocious. He demands the extermination of the non-Jewish peoples. He shows affection for only one nation, and that the worst and most degenerate of them all."

Teachers should cull from the Bible, Fink said, passages in which Jahweh commands his chosen people to "oppress and exterminate the non-Jews." The handbook explained these passages might be used effectively as blackboard exercises.

Teachers were advised to draw a sharp distinction between Christ and Jahweh, such as:

Cite Christ's Words. "We know Christ said, 'You cannot serve God and mammon.' But Jahweh is always speaking of power, domination, treasures and money. The God of the Jews is not our God. The assertion that the Jews are the chosen people from whom comes the salvation of the world is a Jewish impudience and a thousand-year-old insult to non-Jewish humanity."

The "truth about the Jews" is to be illustrated further in a political exhibition, "The Eternal Jew," to be opened at Munich this autumn. Advance notices say it will be on the scale of last year's "Public Enemy No. 1—Bolshevism" display.

"Exhaustive material from private and public sources, illustrating the damaging effects of Jewish influence in the whole world, with special emphasis on the Jewish problem in Germany" is to be included.

Members of Sams Valley Grange are urged to arrive early at the regular meeting Saturday, August 7. A very short meeting is scheduled in order to allow all who wish a chance to attend the benefit dance at Jacksonville the same evening.

The session will start at near 8 o'clock as possible, be on time.

MOODY LACKS AID IN PROSECUTION PINBALL OWNERS

District Attorneys Indicate Lukewarm Attitude in Crusade — Tax Returns Seen As Big Influence

SALEM, Aug. 6.—(AP)—District attorneys over the state indicated today that they may give Assistant Attorney-General Ralph L. Moody little support in his fight to wipe out pinball and marble games.

Moody said Chief Justice Henry J. Bean's dismissal of injunction proceedings brought by two Salem operators would be a virtual death blow to the devices. But other operators have indicated they would appeal to the supreme court for a ruling on whether the games are a violation of the lottery laws.

The district attorney's office in Portland said something would be done to confiscate the machines. The circuit court in Portland has held that they can be operated for amusement only.

The Lane county district attorney said he was uncertain as to what action he would take. The county has banned them for more than a year, but the Eugene city officials, happy over license fees which the machines net for them, place no action.

Moody said today that it would make no difference whether cities hold the machines legal so they can tax them, explaining that this would not hold water in a court fight.

County officials at Pendleton, La Grande and Roseburg indicated they plan no action for the present, while officials at Grants Pass admitted it looks like they may have to do something about it.

A Statement By the ASSOCIATED FARMERS of Jackson Co.

TO ALL FARMERS WHOSE INTEREST LIE IN LIVE STOCK DAIRY - BULBS - TRUCK CROPS - POULTRY - FRUIT or GRAIN AND TO EVERY CITIZEN RESIDING IN JACKSON COUNTY

The purpose of this statement is to clarify the policies, aims and reasons for existence of this organization. A thorough knowledge of the need for such an organization on the part of all farmers is important at this time. Likewise, the sympathetic understanding and cooperation of every citizen of Jackson County is sought as this county's prosperity and the success of agriculture activities of this area are identical!

- ASSOCIATED FARMERS IS NOT AGAINST LABOR UNIONS. The members of this organization recognize the right of labor to organize and the right to quit work if they so desire but we are definitely AGAINST INTERFERENCE WITH MEN WHO WANT TO WORK. Our efforts are NOT directed against reputable union officials but we will definitely oppose radical agitators seeking to exploit the cause of labor. We approve the principle of collective bargaining. We believe that employers should at all times be willing to meet with representative groups of employees—whether organized or not organized.
- ASSOCIATED FARMERS favor paying the highest wages consistent with sound operation of their business.
- ASSOCIATED FARMERS IS SINCERELY INTERESTED IN THE PRESERVATION OF LAW AND ORDER, especially as that law and order relates to the harvesting, processing and movement of crops along the highways of this County. This orderly handling and movement of crops affects the happiness and prosperity of every citizen of Jackson County.
- ASSOCIATED FARMERS IS NOT A RIVAL OF ANY OTHER FARMERS' ORGANIZATION but instead seeks to cooperate with all groups so long as their objectives be in accordance with the aims of this organization and for the welfare of the farmer and our community.
- ASSOCIATED FARMERS oppose the violation of law by any group, either vigilante or radical. We favor the protection of all interests by legal means.

GENERAL PURPOSE

Associated Farmers of Jackson County was brought into being as a result of disturbances caused by outside radicals that have tended to prevent the harvesting of crops and their movement to market. We believe that by organization and a continued campaign of education, the threats of communists and other radical agitators will be met and defeated; that a condition will be created and maintained under which men who want to work will be permitted to work; that workers will be protected in their right to employment under terms suitable to them; and that farmers will be protected under the law in the growing, harvesting and processing of their crops and their movement along the public highways to market.

With the above purpose in mind, a group of representative farmers met and decided to call an organization meeting on June 21st, 1937. The meeting was held with an attendance of over 100 farmers representing every district and line of agriculture in the county and with Colonel Walter E. Garrison, president of the Associated Farmers of California as principal speaker. The Jackson County organization was perfected at this and subsequent meetings.

STATE-WIDE MOVE

The entire state is facing radical activities intended to obstruct normal harvesting, processing and transportation of crops, and to create LOSSES for all concerned.
