JUSTICE M'REYNOLDS DROPS COURT DUTIES FOR EUROPEAN JAUNT

NEW YORK, Aug. 12.—(AP)—Associate Justice James Clark McReynolds, hale and hearty and in high good humor, put arduous supreme court duties aside until fall as he sailed today on the liner Queen Mary for a European vacation.

The justice, quick step belying his 75 years, brushed aside lightly all questions having to do with official problems and engaged, instead, in quick repartee with friends and reporters.

Nattily dressed in a gray suit, gray hat, and wearing a dark blue white-dotted bow tie, the justice was besieged by autograph hunters as he made his way to his stateroom. Hooking his cane over his left arm, he complied willingly with requests.

"What do I get out of all this?" he inquired, smiling broadly as pictures were snapped. He laughed heartily as one interviewer suggested Clark Gable, the movie star, never drew so much attention when he sailed.

"Has the constitution gone?" someone asked.

With a great smile, he returned the question quickly.

"What do you think?" he said.

Justice McReynolds, who was appointed to the court by President Woodrow Wilson just 23 years ago this month, returned only a few days ago from the Pacific coast. He was lavish in his praise of developmnts there and the beauty of the escenery.

LAND PLASTER ADDED TO AAA BENEFIT LIST

CORVALLIS, Aug. 12.—(AP)—Application of land plaster (gypsum) as a soil building practice in connection with the growing of legumes has been extended to Josephine, Jackson, Douglas and Hood River counties, the state office of the AAA announced today. These are in addition to other counties for which the practice had formerly been approved.

This change is one of a number recently approved for Oregon by the federal office on recommendation of the state committee. Another permits the use of poles or logs in the construction of range fences under the range improvement program.

One amendment to previous rules permits withholding payments in cases where a farmer adopts practices which indicate an intention to circumvent the conservation purposes of the AAA program.

LETTER CARRIERS TO BID FOR CONVENTION

PENDLETON, Aug. 12.—(AP)—Portland will be boosted for the 1938 national convention of the Rural Letter Carriers' association by a group which is leaving today for the 1937 national convention at New Orleans, D. F. Davis, Pendleton, president of the Oregon rural carries, said. Strong competition, however, is expected from Washington, D. C.

Planning to leave here tomorrow are Davis, Mrs. Davis, Lyman McDonald, Salem, second vice-president of the state association, Mrs. McDonald, and Phil Schweitzer, Monmouth, past president.

Torch song of the group will be the tune, "Way Out in Oregon," composed by Davis and voted the association's official song at the recent convention here.

K. F. SPUDS DAMAGED BY SUMMER FROSTS

KLAMATH FALLS, Aug. 12.—(AP)—Mid-summer frost damage to the Klamath basin potato crop was estimated today at 10 percent by County Agent C. A. Henderson, who has just completed a survey of the region affected.

"Loss will be greater in quality than in quantity," Henderson said.

The agriculturist found that growing grain suffered more severely from the cold than did potatoes. Growing barley was particularly hard hit, he said, with the result that much of it will have to be cut for hay.

Dynamite was invented in 1866 by Alfred Nobel, a Swedish engineer under whose will the Nobel prizes were established.

GOVERNMENT CONTROL DELAYING PROSPERITY SAYS FRANK GANNETT

BINGHAMPTON, N. Y., Aug. 12.—(AP)—Frank E. Gannett foresaw today an unprecedented "prosperity and happiness" for the nation "if we stop reckless spending and shake off federal power and control over our acts and lives."

The Rochester publisher, addressing farmers at a forestry field day near Sidney Center, said "we need to take off the brakes and give the signal to go ahead.

"If we only will use common sense, awaken the people to the importance of protecting our democratic form of government, stop reckless spending and shake off federal power and control over our acts and lives such as now curse the countries in Europe, there is no reason why we cannot enter upon a period of the greatest prosperity and happiness that our country has ever known."

Gannett termed federal control of industry and agriculture "contrary to the American ideal," opposing in particular the regulation of hours and wages.

"When you set out on this road of regulating hours and wages by the federal government," he said, "and say that no one shall work for more than 40 hours a week, you may next have a reduction to 35 hours, then 30 hours, then possibly 25 hours."

MORE PREPAREDNESS! SHOUTS MUSSOLINI IN ADDRESSING SICILIANS

CATANIA, Sicily, Aug. 12. — (AP) — Premier Mussolini told 100,000 Sicilians today "the corneratone of our doctrine and our spirit is an ever more intense preparation of the Italian people for military life."

Cheering crowds heard Il Duce declare on the eve of annual war games in Sicily:

"History shows us that when a people does not want to bear its own arms it is forced to bear the arms of someone else."

History also shows, Mussolini shouted, that the Italian people "are not warlike, but have no other alternative except misery and slavery."

Speaking from the city hall balcony, he urged Sicilians to "count on your soldiers and have faith in the future of your fatherland."

The enthusiasm of Sicily, he said, demonstrated that the island did not have to assume fascism because it already was fascist at heart.

The attention of the whole nation is concentrated on Sicily because it has shown Italy is unified, Il Duce continued.

COLUMBIA GARDENERS SEE RUINATION FROM BONNEVILLE BACK-UP

HOOD RIVER, Aug. 12.—(AP)—Cares of the builders of the big Bonneville dam project are by no means all engineering.

No sooner had Indian fishermen, who visioned the end of the annual salmon harvest, been appeased by the practical demonstration this year that the fish will continue their runs by means of water ladders over the barrier, than mid-Columbia lowland truck growers began presenting their stories of woe over probable loss of the district's most fertile soil.

The truck owners express as keen regrets as did the Indians, especially so since their ideas of land valuation and that of the appraisal and legal department of the United States engineers are at great variance.

Unless early compromises can be reached, extensive litigation looms.

Condemnation proceedings have already been started by the government in acquiring flowage rights over bottom lands around Bingen, Wash. John Koberg, who diked land just east of here, pioneering in development for truck farms, said the higher levels of the river resulting from Bonneville dam will take his spring asparagus from the market and end gardening operations altogether. A large pear orchard, he said, will be ruined, too.

INVITE ROOSEVELT START BONNEVILLE

WASHINGTON, Aug. 12. — (AP) — Senator Charles McNary of Oregon said after a White House visit today he had invited President Roosevelt to start power production at Bonneville dam on the Columbia river by throwing a switch either in Washington or at the dam site when the huge project is completed in December.

McNary, Republican floor leader, said his visit to the chief executive's offices otherwise was "purely social."

"Just a call to say goodby before I leave for Oregon tomorrow," he added.

McNary said he was taking no part in a controversy in his state over the appointment of an administrator for the Bonneville dam.

"That is something for the future," he said.
