Foreign Cars Interest Us

It would be nice if someone could stop all the cars with far-away state license plates, and ask the drivers about the interesting things they are undoubtedly doing. As it is, one can only note the number of out-of-state cars, and be glad of the fact that Medford has so many attractive spots to interest the people who own them. If there were only some hardy soul who would flag them down and ask them what they think of this great country, without appearing too much like a hitch-hiker. Jackson county might start some sort of guest book, with space for remarks. As it is, we all know that any number of interesting people are here, coming and going every day of the summer, and we're pleased and proud of our valley, but we'd like to know more of them, better.

Last night Kathleen Dillard entertained for Miss Scheffel at a slumber party at her home, inviting the same group of girls.

of whom were cut off by the Chinese advance. British forces numbered 930; and French, 900. A Russian volunteer company was summoned to duty. The American marines took up duty along the northern border of the international settlement.

Chinese contended that in 1932 the Japanese used their international settlement areas as a military base. Now, the Chinese indicated, they do not intend to recognize the neutrality of foreign settlements.

From the foreign standpoint, this creates the gravest phase of the crisis. Chinese said that if events "necessitate the move," they intended to enter the settlement to meet the Japanese on their own ground.

Foreign authorities saw grave danger from the incoming hordes of Chinese soldiers. They numbered many thousands, and the stream continued during the night. Meanwhile, munition-laden motor boats sped from the Japanese warships to their landing party base and shuttled back for new loads in an endless procession. Sailors cleared the vessels for action.

Governor On Car Found Gas Saver

SALEM, Aug. 12.—(AP)—Whether it is a safety factor remains to be seen but there is one thing positive about the 50-mile speed limit governor which Earl Snell, secretary of state, has installed on his automobile—it saves gasoline. "This alone should recommend the governor to all motorists," said Snell, who put the device on his automobile as part of a drive-safety campaign.

CLERGY ASKS RUM FOE TO TALK IN MEDFORD; LAUD PINBALL OUSTING

At a meeting of the Ministerial association yesterday, unanimous action was taken to sponsor the coming of the Rev. Sam Morris, known to millions of radio listeners as the "Voice of Temperance." He will speak Thursday, August 26, at the Methodist Episcopal church, Laurel and Main streets, at 8 p. m.

Mr. Morris is recognized as one of the most formidable national foes to liquor interests in America. A nation-wide speaking tour under the auspices of the temperance weekly newspaper, "The National Voice," is taking him into 32 states in his crusade against "the evils of liquid fire."

The local W. C. T. U., under direction of Mrs. Minnie Bryant, is uniting with the Ministerial association in bringing the famous speaker to Medford.

At their meeting yesterday, the ministers commended District Attorney P. J. Newman and Sheriff Syd L. Brown in their action to enforce the law enacted to oust or confiscate "all pinball gambling devices as well as punchboards."
