CIVIC CLUBS TO HEAR ARMY SERGEANT TALK ON PEACE-TIME WORK

"The United States Army In Time of Peace" is the subject of a talk to be given by Sgt. Norman F. Stradleigh before the weekly luncheon-meetings of the Kiwanis club Monday, Rotary club Tuesday and Lions club Wednesday.

The sergeant, on a recruiting mission, will tell of the army's traditions and describe the highlights of its peace-time record of achievements. He is rated as an eloquent speaker and is said to be in demand as a lecturer throughout the Portland recruiting district which embraces Oregon, the southern part of Washington and the northern part of California.

In coming to Medford Sgt. Stradleigh is in effect returning home, for he first enlisted in the army at the recruiting station here on December 3, 1928.

Prior to his enlistment Sgt. Stradleigh attended schools in Oregon and Stanford university at Palo Alto, Cal. He became prominent in athletics at Vancouver Barracks, Wash., where he served with the 7th infantry regiment. He was transferred to the recruiting service on July 1, 1936, with headquarters in Portland.

Cong. Pierce Blocks Electrical Project

WASHINGTON, Aug. 13.—(AP) The rural electrification administration advised the Portland General Electric company that Congressman Walter M. Pierce of La Grande, Ore., had blocked a $100,000 program of the company in six Oregon counties on the ground preference should be given public bodies and co-operatives.

The company was advised that all action on the project had been suspended "pending clarification of its relation to other power servics in the northwest."

ACCUSE FRENCH RADIO AIDING LOYAL SPANISH

HENDAYE, Franco-Spanish Frontier, Aug. 13.—(AP)—An official Spanish insurgent statement today accused French radio stations of broadcasting disguised directions to Spanish government supply ships to assist them in running insurgent blockade.

General Francisco Franco's general naval headquarters asserted several stations were regularly broadcasting the positions of insurgent warships in the mediterranean to vessels trying to slip into government ports.

MORE VANDALISM IN PORTLAND CAR LOTS

PORTLAND, Aug. 13. — (AP) — A search for vandals was redoubled today after a used car lot owner found nine batteries stolen and cables cut in machines on his lot. Earlier in the week, more than 160 automobiles were sprayed with a paint-removing acid and radiators punctured.

APPROVE PRESERVATION OF TIMBER ON HIGHWAY

KLAMATH FALLS, Aug. 13.—(AP)—Approval for the purchase of a million feet of timber lining the Klamath-Lakeview highway to preserve roadside beauty came today from the state highway commission.

Forest Transfer Hit

PORTLAND, Ore., Aug. 13.—(AP)—A suggested transfer of the U. S. forest service from the department of agriculture to the interior department drew a protest today from Mayor Joseph Carson in the form of a telegram to the Oregon congressional delegation.

INCREASE IS SEEN IN PLANE TRAVEL TO LAKE O' WOODS

The following recreational bulletin was issued today by Rogue River national forest headquarters:

"Work on the road around the west side of Lake of the Woods is progressing favorably with a crew of 15 men doing preliminary work with more equipment and men on the way. This much-needed road will be well on its way to completion by the end of the season.

"The landing field at Lake of the Woods is very popular this year. More planes have landed than probably in any previous year. The fact that a plane can land within one-fourth mile of the water's edge and that the runway is sufficiently long for the largest planes should mean that as the field becomes better known air traffic to the lake will be fairly heavy.

"In Four-mile lake fishing is still good. Very good results are reported at the south end of Lake of the Woods by fishing in deep water. Rainbow and silversides are being caught. About 50,000 silversides have been planted in Lake of the Woods this year.

"Fishing is generally not good in most streams of the Applegate district because of low water. The Alpine flowers are in full bloom on the higher parts of the Siskiyous and may be reached by the Siskiyou loop road. Swimming conditions are very good on the Applegate river and at Beaver-Sulphur campground. The roads in the district are all in good condition.

"Huckleberries are beginning to ripen in the Butte Falls district in the vicinity of Parker meadows and Blue Rock, although it will be two to three weeks before there will be any large amount of them.

"Fishing conditions in the middle fork and south fork of Rogue river have continued fair. Big Butte, Fourbit, Sam and Big Ben creeks and the Blue canyon lakes have afforded poor fishing. The larger lakes of the Seven lakes basin have continued to be above average with a minimum of moaquitoes.

"Fishing has been good in the Union Creek district during the last few days. Limit catches are being made in most of the tributaries to the Rogue and fair catches are being made in the river itself. Most of the anglers are using flies but some are using grasshoppers and cluster eggs.

"Huckleberries in the vicinity of Huckleberry City are reported to be ripening. It is expected that picking will not be good for at least another week. There is an excellent crop in some spots, while there are none in other places.

"The large fire which occurred on the Columbia national forest in Washington last week, burning approximately 1,000 acres of timberland and costing the government thousands of dollars to extinguish, is a striking example of what a forest fire may do at this season of the year. Burning conditions will continue to become more critical until we get general fall rains. The protection of our timber, forage, recreation, water supply and other forest resources will require the utmost care with fire by everyone using the forested areas."

Hop Picking Army Takes Field Soon

GRANTS PASS, Aug. 13.—(AP)—An army of 3000 hop pickers will move into Josephine county yards within the coming fortnight to pick more than 1000 acres of hops.

Only one yard reported its full quota of pickers had been signed, but Ben and George Hilton, large growers, said no shortage was expected with registration daily from midwest states and Lane, Douglas and Klamath counties.

Early pickers will start Monday, while most yards will get under way August 23.

COOS BAY RESTAURANT FIGHT SEEN AVERTED

MARSHFIELD, Aug. 13.—(AP)—A federal conciliator's suggestion of arbitration of the dispute between restaurant owners here and the Culinary Alliance ended immediate prospects of a bitter fight in which operators sought to cancel wage agreements.

FIFTEEN AUTOISTS HAILED TO COURT FOR LICENSE LACK

Fifteen autoists, charged in complaints filed by the state police with non-possession of driving licenses, were scheduled to appear in Justice of the Peace William R. Coleman's court today.

First to appear this morning was Charles Crawford Lemmon of this city, who entered a plea of guilty and was assessed $2.50 and costs, a total of $7.

The fine was in accordance with a warning of the court the first of the week that the penalty would be boosted from the previous $1 and costs for first offenders. The court held that the tardy motorists have had 50 days since June 30 to procure driver's licenses.

Second to appear and be assessed the new penalty was John Courtland Hall, horticulturist. Others who paid the same were Vilas Albert Puddy and Arthur Henry Petersen.

Glen Neel Hobbs, charged with permitting a person under the age limit for drivers to drive an auto, was also scheduled to appear.

Other Motorists charged with non-possession of a driver's license were: Guy Robert Shore, Henry Clifford Landers, Ellsworth William McCamman, Delmar Marshall, Bert Jessie Conner, Clifford Monroe White, Lafayette Kenneth Sunderland, Fred Roland Jones, Vernon Cox, Floyd Abraham Rogers, Frank Allen and Jesse Lee Grove.

The state police handed cards to the autoists on the Pacific highway, Crater Lake highway and the Jacksonville highway as part of a county wide campaign, to round up licenseless drivers.

MICKEY AND HIS MA . . By GEORGE B. HAWKINS

"It's no lie to say that Beck's Bread is even better than the kind that Grandma used to bake. Firm, even and rich in texture, its crust is just as crisp as you please."

BECK'S
Hawaiian Meringue Cake
59 each

Hawaiian Meringue Cake was created to meet the demand of housewives for a TYPICALLY SUMMER CAKE. Its fluffy, meringued topped layers are flavored with the refreshing tang of a creamy pineapple filling. No rich, sweet frosting here to cloy the appetite—no "heavy" flavors to dull the enthusiasm for eating. Rather—there is an airiness about this cake which stimulates interest in summer meals.

This summery cake consists of 2 eight inch layers. It will be attractively boxed for your convenience.

Special—Saturday, August 14, at Beck's Bakery or at your favorite grocer's.
