

SOCIETY AND CLUB NEWS OF THE WEEK

By JANET WRAY SMITH

Vacations Will Soon Be Over

Here it is the middle of August. Summer is half over at least, and there are so many things yet to do that there should be a few more days in the week, or anyway a couple of extra hours in the day so that all this gorgeous weather should not be spent quite so fast.

The young people who will be going back to school and college next month seem to be making the most of the time, at any rate. One sees them, getting browner and browner, doing the most strenuous things with the least visible effort or effect. They really amuse themselves, and each other, most admirably. And why shouldn't they? They probably realize that in less than a month, they will be trudging through corridors, from class to class, while the weather is still fit for summer sports.

SHIRLEY AWKWARD NOW; FILM HEADS MAKE NEW PLANS

HOLLYWOOD, Calif., Aug. 14.—(AP)—The nation's number one film box-office draw, Shirley Temple, is being carefully and expertly conducted along the path of painless precocity.

She is well into that usually disastrous period in the life of any child star, when cuteness gives way to awkwardness and needs an adequate substitute.

Cognizant of the fate of most juvenile actors who are forced into retirement during the stage between cuteness and mature ability, Darryl Zanuck, vice-president in charge of production at Twentieth Century-Fox, has mapped out a cautious program for his little star.

"The ever-widening appeal of Shirley Temple," he said today, "has made it necessary to outline a long-time program for starting vehicles."

Since Shirley has already undergone the type of story that she played at the first of her film career, only stories of proved worth will be chosen for her.

The problem of keeping Shirley in the hearts of her large public is greatly simplified by the fact that, historically, the eight-year-old child is pretty mature.

Her fate after she reaches her twelfth birthday can't be predicted. Children in their early 'teens aren't, as a rule, very entertaining.

"Whenever Shirley wants to quit pictures, she can," her mother has often said.

GOV. MARTIN WILL TAKE VACATION

DOUGLAS PINBALL REPRIEVE GIVEN

ROSEBURG, Aug. 14.—(AP)—A midnight deadline for the operation of pinball machines in Douglas county was blocked today by an injunction suit filed by Earl Bush, distributor operating about 50 machines in the county.

A temporary restraining order was issued by the county court.

COMET SEEN LAST WEEK TRAVELLED 400,000 M. P. H.

NEW YORK, Aug. 14.—(AP)—Perkins observatory of Ohio Wesleyan and Ohio State university reports that Finler's comet, which passed close to the big dipper this week, was clocked at 400,000 miles an hour. That is a speed of a little more than 660 miles a minute.

Dr. Ernest Cherrington, Jr., of the Perkins observatory, kept a camera on the comet for two hours the night of August 10.

"During the two hours in which the photograph was taken," the observatory reports, "the comet moved among the stars a distance equivalent to one and one-half times the apparent diameter of the full moon."

"Its actual motion through space during this short interval must have amounted to at least 800,000 miles—400,000 miles an hour."

The comet went so fast that it got ahead of the calculations for its position forecast earlier in the week by Popular Astronomy.

The comet's tail, when photographed by Dr. Cherrington, appeared to be four to five million miles long. This was twice the usual predictions of the tail length. Dr. Cherrington made this calculation from the fact that on the scale of his photographic plate the tail was about seven inches long.

KRAMER TO HEAD EUGENE SCHOOLS

EUGENE, Aug. 14.—(AP)—J. F. Kramer, The Dalles, received the superintendency of the Eugene city schools at a session of the school board today.

He succeeded Howard R. Gould, for nine years in that office, who was recently designated as head of the Tacoma school system. Kramer announced that he would return to The Dalles to secure the consent of the board there to accept the Eugene post.

Kramer, for seven years a visitor at the University of Oregon summer session, holds four degrees, his latest being a doctorate in education, which will be granted shortly from the University of Oregon.

A graduate of Willamette university in 1920, Kramer has served at McLoughlin high school of Milton-Freewater, Lagrange high school, principal of the Coquille school, and as superintendent at Bandon, Grants Pass, and The Dalles.
