OVERCOME ALL PERSPIRATION

Do you know that the normal perspiration excretes two pounds of perspiration in each twenty-four hours? This startling revelation shows the need for the constant use of perspiration checks and deodorants, especially during hot weather.

Perspiration under the arms must be checked to protect fragile summer clothing and the unpleasant odor left after its evaporation on other surfaces of the body must be overcome with suitable deodorants. Many persons encounter painful irritations from accumulations of perspiration under the arms and they must use liquids, creams or loas by necessity as well as by choice.

We invite you to see our complete line of anti-perspiration products—and don't forget that they are just as important for men as for women.

MOODY DECLARES PINBALL ACTION MORE THAN HOPED

SALEM, Aug. 14.—(P)—The response of district attorneys in riding the state of pinball machines and marbleboards is more spontaneous than he had anticipated. Assistant Attorney-General Ralph E. Moody announced today.

"My reports indicate that several district attorneys already have acted and that others expect to file charges against the owners of these devices next week."

The clean-up started in a number of counties after Moody had sent the district attorneys copies of the proceedings resulting in the dismissal of marbleboard and pinball machine injunction cases in Marion county.

Moody said district attorneys have full power to act under a recent decision of Circuit Judge James Crawford of Multnomah county, who held that marbleboards and pinball machines were lotteries and in violation of the state gambling statutes.

"I expect to have a report from Multnomah county early next week," Moody continued.

Most of the counties yet to be heard from are located on the coast and in the extreme eastern part of the state.

LOANING WARSHIP TO BRAZIL PLAN HELD NOT SO HOT

WASHINGTON, Aug. 14.—(P)—The administration's "good neighbor" proposal to lease out-of-date warships to Latin American republics met with reaction which some senators said today might delay it indefinitely.

On request of Argentina's Ambassador Expi. Secretary Hull agreed yesterday to hold back the department's proposal to lease six outmoded destroyers to Brazil.

Opposition also was developing in the senate foreign relations committee, where a resolution authorizing leases to the Latin Americas is pending.

Egill said his conversations with the state department yesterday was not to be considered a protest. Hull described the visit as "thoroughly neighborly and friendly."

A previous report from Argentine, however, said a vigorous formal objection was being drafted.

Committee Chairman Pittman (D-Nev.) said yesterday the committee would be called soon to consider the question.

Senator Borah (R-Ida.), ranking minority member, said he, as "presently informed," opposed the idea. Senator Chavez (D-N.M.) called it suicidal and the "height of folly and inconsistency."

QUEEN OF STRIP TEASERS A BRIDE

HOLLYWOOD, Aug. 14.—(P)—Gypsy Rose Lee, most famous of the burlesque strip teasers, who became Lou-
ise Hovic for the movies, now has another name.

She was married yesterday, at sea, to Robert Mizzy of New York. 20th Century-Fox studio announced today.

The ceremony was performed in a water taxi, by the skipper of that boat, James Williams, 20 miles offshore from Long Beach, the studio said.

The studio announced that they would be married again, next Tuesday, in nearby Santa Ana, Calif. They cited notice of intention to wed there yesterday, before they went motor-boating.

The Mizzy's were reported honeymooning "somewhere around here," but the spokesman said they'd be back in time to be married again Tuesday.

SINKING CANYON ALARMS FARMERS

BUHL, Idaho, Aug. 14.—(P)—Harried farmers of this southern Idaho agricultural region were actually alarmed tonight over a strange geological quirk that may turn their productive land into useless canyon-bottoms.

That the subterranean disturbance which is causing land to sink eight miles northwest of here is far from finished was shown when a new "sinking canyon" formed within the last 24 hours. An area 20 yards wide and 70 yards long sank 75 feet in a day.

H. A. Robertson farmer, on whose land the sinking is occurring, said the new canyon gives every evidence of spreading.

The new depression, which started from a single crack in the ground, is separated from the original "sinking canyon" by a 25-foot wall. The first depression, covering five acres, already has sunk to 200 feet, and is still settling. Land cracks have spread in all directions.

Cat Likes Corn-on-Cob
SPRINGFIELD, O. (UP)—A three-eared cat which at times evinces a fondness for corn-on-the-cob is the pet of H. C. Bohn, a farmer. The cat, whose origin is veiled in mystery, has an ordinary tail complemented by two smaller tails arising from its shoulder-blades.

VETERAN KLAMATH ATTORNEY PASSES

KLAMATH FALLS, Aug. 14.—(P)—Ernest Lee Elliott, 69, long-time Klamath Falls attorney, died at his home here today following a lingering illness.

Elliott moved to this city from Idaho in 1909. In the course of his legal career here he served as city attorney and district attorney and was active in Republican party affairs.

Among his survivors is a daughter, Mrs. O. Pete Motesbacher of Roseburg. Funeral services will be held Monday.

Woman Is Lifeguard

ROCKLAND, Mass. (UP)—This town has its first lifeguard—a woman. Miss Irene Crechan, collector of 350 medals for victories in aquatic contests, was appointed to guard Reed's pond after WPA transformed the pond into a beach and park.

VICTORY WON BY POWER PLANT IN FIGHT WITH TVA

NASHVILLE, Tenn., Aug. 14.—(P)—Tennessee's public utilities commission announced tonight it had decided to let the Tennessee Electric Power company, over the protest of TVA protagonists, build a \$2,000,000 steam generating plant here in an area all but encircled by TVA's hydro-electric lines.

The decision was by a two-to-one vote.

Commissioner Leon Jouralmon, Jr., writing a dissenting opinion opposing the proposed construction as uneconomic, imprudent and sure to result in higher electric rates than if the company purchased power from the TVA.

Chairman Porter Dunlap and W. H. Turner, the other commissioner, signed the majority opinion holding that electricity can be produced cheaper at the steam plant than by buying it under a proposed purchase contract with the TVA.

The two opinions clashed sharply over comparative costs under the three proposals under consideration—steam generation, purchase of power delivered here by the TVA and purchase from the TVA at Columbia, approximately 50 miles away.

MYSTERY REVIVED BY SKELETON FIND

HILLSBORO, Aug. 14.—(P)—A three-year-old mystery was revived today with the discovery of a human skeleton in the woods near the former residence of Sven Oscar Lundstrom, who disappeared in August, 1934.

Lundstrom lived alone in the mountains near Scapoose. Neighbors who noted his disappearance found his car in his garage, his tools in the woods and his personal possessions apparently in place. Working on the theory he either had been injured or met with foul play, officers made a thorough search in the vicinity of his home without result.

Jim Hefferies and Howard Edmondson discovered the skeleton today while making a road through the woods.

Coroner Fred Sewell said he would endeavor to determine if the victim had met with foul play.
