ROOSEVELT, LEWIS KEEP EYES ON CONGRESS
BOTH TO REPORT OVER AIR ON SAME DAY
LABORERS START FOR GOVERNOR DAVEY'S SCALP
BOURBONS OFFER ODDS ON SPECIAL SESSION

WASHINGTON, Aug. 20.—As Congress writes toward a close, it feels two pairs of angry eyes boring into the bended back.

One pair belongs to John Lewis. The other to Franklin Roosevelt.

No wonder the congressmen squirm, because both men are writing down with a few minutes in their downy notebooks, congressional sins of omission and commission.

Both men, by coincidence, go on the air on Constitution day in September, and then will start the accounting.

What Mr. Lewis has up his sleeve hasn't been revealed, but how nearby his theme will harmonize with the president's will be revealed shortly.

The president sounded his keynote in his speech on Wednesday, when he read from Lord Macaulay's letter flouting democracy and added:

"Almost, methinks, I am reading not from Macaulay—almost, methinks, I am quoting from a resolution of the United States Chamber of Commerce, the Liberty League, the National Association of Manufacturers or the editorials written at the behest of some well-known newspaper proprietors in 1936 and 1937."

Meanwhile, labor's Non-Partisan League is sewing wood, and one old pine tree it has sworn to cut down when the merry month of May dawns in Ohio—Governor Davey.

Labor asserts that it elected Davey. Now it swears it is going to replace him with its own candidate in the next primaries.

Some Democrats are offering odds that there will be a special session of congress. But they hedge by saying that it all depends on (a) what the final acts of congress are and (b) how the country reacts to the administration's story when the people hear it over the air and other ways.

Meticulous listeners to the president's Roanoke speech, who were fortunate enough to have before them the text released for the press, noted the usual interesting interpolations.

The president didn't make many changes. A word here, one of "my friends" inserted there, a "get that" and a hearty "I thank God for it" after the assertion that "under democratic government the poorest of our population are no longer necessarily the most ignorant part of our society."

But what marked the greatest difference between the written and the spoken word was the intonation. As the president read Macaulay's words, describing the necessity of curbing the majority, he put that half-line edge of irony into his tone so amusing to his friends, so annoying to his enemies.

If the British author of those phrases was tuned in on the celestial

SAILOR IS KILLED; EIGHTEEN INJURED ON AUGUSTA DECK

Missile of Undetermined Origin Strikes After Part of Vessel—Heavy Damage Seen in Fighting

WASHINGTON, Aug. 20.—(AP)—President Roosevelt said today that whatever action was deemed advisable in connection with the shelling of the cruiser Augusta off Shanghai would be determined by officials on the ground there.

The president told a press conference he had received only fragmentary unofficial dispatches on the shelling.

Asked what this would mean as far as any counter action was concerned, the president said such things were almost bound to happen in a situation such as that at Shanghai.

Asked what he was going to do about it, he said the people on the spot could tell more about that than officials in Washington.

In response to other questions, he said official Washington was talking about the advisability of invoking the neutrality act every day.

LONDON, Aug. 20.—(AP)—Great Britain will hold China and Japan responsible for loss of British lives or damage to British property in the Shanghai war zone.

Informed sources said tonight the two Oriental governments were told of Great Britain's position by government representatives at Nanking and Tokyo.

SHANGHAI, Aug. 20.—(AP)—One United States sailor was killed and 18 wounded tonight when an anti-aircraft shell of undetermined origin struck the after well deck of the cruiser Augusta, flagship of the United States Asiatic fleet.

The sailor killed was Freddie John Falgout of Raceland, La. None of the wounded was badly hurt.

A fourth of Shanghai was ablaze as Chinese air forces struck savagely at Japanese properties along the Whangpoo river and Chinese artillery blasted at Japanese defense lines.

The Augusta, flagship of Admiral Harry E. Yarnell, fleet commander, has been lying in the Whangpoo river a little downstream from the heart of the international settlement, covering the evacuation of American refugees from stricken Shanghai.

\$27.50 OFFERED FOR BARTLETT'S

Court Hall, local buyer for a California cannery, reported today he was still in the market for Bartlett's pears at \$27.50 per ton, for two and three-eighths sizes and larger, and \$25 for smaller sizes. The previous size was two and one-half inches and more. According to Hall, there are not as many large sized Bartlett's as predicted. Hall says that most of the smaller canneries have about purchased their quotas, but larger canneries seek more. He also estimated that about 6,000 tons of Bartlett's for canneries have been sold.

Practically all of the packing houses of the city and valley were in operation today. The Pinnacle Packing company opened its No. 2 and No. 3 plants this afternoon. Picking and packing of Bartlett's will be general throughout the valley the coming week.

Alabama Governor's Wife Succeeds Senator Black

WASHINGTON, Aug. 20.—(AP)—Mrs. Dixie Graves, wife of Governor Bibb Graves of Alabama, took her oath of office today as the successor in the senate of Senator Black, recently appointed to the supreme court.

She was sworn on the senate floor as the fourth woman to hold a seat in that body.

Her husband had explained he named her senator only until a special election could be held to fill Black's unexpired term of office.

Mrs. Graves was dressed in a du-bonnet print, and wore a bunch of gardenias on her shoulder.

She was escorted to the vice president's desk to take the oath by Senator Bankhead, senior senator from Alabama.

While her certificate of appointment was read to the senate, Mrs. Graves sat quietly in the rear row with Bankhead, her husband, and Representative Joe Starnes, of Guntersville, Ala.

Mrs. Caraway (D. Ark.) is the only other woman senator, sat in Black's old seat, in the center of the Democratic side of the chamber.

Mrs. Graves is going to let her governor-husband shift for himself while she sits in the senate.

"Always before," she said, "I have gone everywhere together—done everything together."

"When he became governor, I felt his job was more important. I did everything possible to help him, and limited the club activities which had been my principal interest outside my home."

The 35-year-old Alabama woman will serve until a Democratic primary next February 1 selects the party's candidate for the remainder of Black's term, which ends in January, 1939.

Quakes Rock Manila as War Refugees Arrive

THOMPSON CREEK, Aug. 20.—(Sp.)—Wiley Turnbaugh of Nine Mile owes his escape from a bad-tempered rattlesnake to a pine squirrel. The snake struck at Turnbaugh but was prevented from effective aim or result by the half-swallowed squirrel in its mouth. The reptile was quickly dispatched by Turnbaugh.

Another snake tale is told by Donald and Jim Turnbaugh, grandsons of Wiley Turnbaugh, who report seeing an angling rattler. The snake, they say, was partially submerged at the water's edge of a creek, catching fish. Their grandfather disposed of that one also, not impressed with the snake's unusual talents.

SALEM, Aug. 20.—(AP)—Assistant Attorney-General Ralph E. Moody, conducting a campaign against operators of pinball and marble games, declared war today on theater operators who sponsor "bank nights."

Moody filed a brief in Marion county court asking the court to dismiss the suit of Carl A. Porter, Salem theater operator, who asked the court to enjoin officers from prosecuting him for conducting a "bank night."

Moody said his brief would be a basis for similar suits throughout the state.

In most "bank nights" announcement is made in advance that the theater will give away a certain amount of money on one night each week. Anyone may register and the person holding the number drawn is the winner, whether he be inside or outside the theater.

Moody contended that the court does not have jurisdiction to prevent the officers from prosecuting, and held further that the scheme is a violation of gambling laws.

He said the case was similar to that in which pinball and marble games were ruled illegal.

Defendants in Porter's suit are Moody, Attorney-General I. H. Van Winkle, and Marion County Sheriff A. C. Burk.

"The 'bank night' scheme * * * is a lottery because the three elements which constitute a lottery—prize, chance and consideration—are present," Moody said in his brief.

"Lotteries offend the moral law. The gradual awakening of the conscience of the people that gambling or lottery in all forms were wrong, caused the adoption of constitutional provisions and the enactment of statutes prohibiting such wrong."

SALEM, Aug. 20.—(AP)—The last barrier to an immediate start on construction of a new state library, authorized by the legislature which also appropriated \$300,000 for the purchase of land on which to locate it, was removed today when President Roosevelt approved allocation of \$450,000 as a PWA grant for the project.

News of the president's action was contained in a telegram received by Senator Charles L. McNary from Harold Ickes, PWA administrator. It read:

"President has just approved project 1030-2-D for grant of \$450,000 for new library at Salem."

"I am very much gratified over the president's action, although I was confident that he would approve the project concerning which I talked to both him and Mr. Ickes just before leaving Washington," said Senator McNary.

Immediate effect of the president's action was to speed up negotiations by the capitol reconstruction commission for the purchase of a block across the street from the new capitol on which the library is to be located.

Work on the detailed plans for the structure, estimated total cost of which is \$1,000,000 along with a central heating plant for the entire group of state buildings, is already under way by Whitehouse & Church, Portland architects.

Under terms of an agreement with PWA officials, they are to be submitted for approval by November 1 and construction operations are scheduled to start within 60 days from that date.

Completion of the library is set for not later than June 30, 1939.

"There is no reason why the library project cannot proceed uninterruptedly now," said Ralph E. Moody, assistant attorney general and special counsel of the commission who recently spent several weeks in Washington ironing out details in connection with the grant application.

"We know what PWA requires of us and can shape our course to conform to their demands."

GOLFING GREATS COME SUNDAY TO HONOR CHAN EGAN

Four of today's brightest golfing stars and Bobby Jones, peer of them all, will gather at the Rogus Valley Golf club Sunday to pay homage to a friend and a brilliant golfer of yesterday—the late H. Chandler Egan.

Over the beautiful 18-hole golf layout that Egan, himself, designed and founded in 1911 for Medford, his home town, the game's greatest professional golfers will perform, starting at 9 a. m. It will be Harry Cooper and Lawson Little versus Jimmy Thomson and Horton Smith in an exhibition match that is expected to draw one of the largest gatherings ever to witness an athletic event in Medford.

Egan, who in his own right was one of the finest golfers who ever lived, will be officially eulogized at 1 p. m. From Bobby Jones, one of his closest friends during his life and one of the most grief-stricken at his death, he will receive the commendation and expressions of affection that all golfers now hold for him. Chan Egan, truly, was one of golf's "grand old men," and to his memory and to the man, himself, the dedication will be made. It will be

DEPUTIES TO PROTECT HOOD RIVER PRODUCE

HOOD RIVER, Ore., Aug. 20.—(AP)—Special deputy sheriffs will protect Hood River farmers from possible interference in hauling their produce to market. District Attorney John Baker said.

"With so much labor trouble occurring throughout the country, we are going to make certain that law and order are maintained in the Hood River valley," the official asserted.

BLACK GIVEN OATH SANS CEREMONIES

WASHINGTON, Aug. 20.—(AP)—Hugo L. Black's office disclosed today he had taken an oath of office as associate supreme court justice before Charles F. Pace, financial clerk of the senate.

Without ceremony, Pace administered the simple constitutional oath in the capitol last night after Black tendered formal resignation from the senate.

It was the same declaration required of all federal officers. It entitles Black to the \$20,000 annual pay of a justice.

But the new justice will not exercise the authority of his office until he takes the judicial oath from Charles E. Moore, clerk of the high court. This probably will not be administered until the October term of the court.

Riddle Tot Burned Seriously By Lye

ROSEBURG, Aug. 20.—(AP)—Lore Lou, 16 months old daughter of Mr. and Mrs. Darrell Carter of Riddle, was burned seriously Thursday when a bucket of lye was spilled over her leg and body.

She was playing with a brother on the porch of her grandmother's home when the boy accidentally tipped over the bucket of lye which was standing on a table. The liquid spilled down the front of the tiny girl's body, burning her from the nose to the thighs. She was rushed to Roseburg for treatment.

ROSEBURGERS AT WORK

ROSEBURG, Ore., Aug. 20.—(AP)—Registration at the local headquarters of the national reemployment service is at the lowest point in the history of the office, Frank Chase, manager, reported today. Only 743 names are on the active list as compared with a normal of approximately 2,000 for the same period of the year in past seasons.

\$450,000 GRANT FOR LIBRARY HAS ROOSEVELT OKEH

Last Barrier to Immediate Construction Removed—New Building to Cost Million—Plans in Making

SALEM, Aug. 20.—(AP)—The last barrier to an immediate start on construction of a new state library, authorized by the legislature which also appropriated \$300,000 for the purchase of land on which to locate it, was removed today when President Roosevelt approved allocation of \$450,000 as a PWA grant for the project.

CENTRAL LABOR UNION FOR MEDFORD FORMED WITH MORRIS AS HEAD

A central labor union for Medford and vicinity was organized at a meeting attended by members of nine unions in the Guild hall last night.

Officers elected were Pat Morris, president, Charles Powers, vice president, and Gordon Tidwell, secretary-treasurer.

Committees were named to draw up a constitution and by-laws and to procure a permanent meeting place for the central and component unions.

Organization of the central labor union will be perfected at another meeting in the Guild hall next Thursday night when the constitution and by-laws will be adopted.

Unions represented last night were the electrical workers, truck drivers, barbers, retail clerks, culinary alliance, machinists, typographers butchers and bakers.

Ben T. Osborne of Portland, executive secretary of the Oregon State Federation of Labor, conducted the meeting and installed the officers. Also present was A. L. Rice of Klamath Falls, official A.P.L. organizer for southern Oregon.

MOVIE BANK NIGHT IS NEW TARGET IN WAR ON GAMBLING

HOPE ABANDONED FOR SESSION END BEFORE SATURDAY

WASHINGTON, Aug. 20.—(AP)—Congressional leaders virtually abandoned hope of adjourning congress tonight when senate-house conference committees failed to reach an agreement on the important Wagner housing bill.

House Leader Rayburn told reporters a resolution for adjournment tonight definitely would not be brought before the house.

He said he had told Senate Majority Leader Barkley it would be impossible to adjourn before tomorrow and Barkley had agreed with him.

Before sundown "I want to adjourn the house tomorrow before sundown," Rayburn said. "I hope we won't have a night session for the last session."

He spoke of a possibility of winding up the work of the house somewhere between 2 and 5 o'clock tomorrow.

Both houses were ready for an unprecedented adjournment after a long, unproductive session begun in January.

All major bills on the pre-adjournment calendar have passed both houses, except for the third deficiency appropriation measure which the senate took up today. Its appropriations committee approved the inclusion of \$20,000,000 to start the farm tenancy program, funds which the house already had voted.

WASHINGTON, Aug. 20.—(AP)—The house passed the Robertson-Fittman bill today, authorizing federal aid to states in improvement and maintenance of wild-life restoration projects, including refuges and breeding grounds.

The measure, which returns to the senate, would authorize appropriation of an amount equal to the revenue derived from the 10 per cent excise tax on sporting arms and ammunition for distribution to the states on a basis similar to that used in allocation of federal highway aid funds.

ASTORIA, Ore., Aug. 20.—(AP)—The carcass of a 40-foot whale washed ashore near the decomposing remains of another ocean traveler, the wreck of the vessel Peter Iredale, near the south jetty of the Columbia river. The weight of the dead whale was estimated at 40 tons.

FIRES ADD TERROR WHILE RESIDENTS FLEE TO STREETS

Shocks Felt for 200 Miles—City Plunged Into Darkness by Prostration of Electric Power Wires

MANTILA, P. I., Aug. 20.—(AP)—Two sharp earthquakes threw Manila into darkness tonight in a supposed welcome to American refugees arriving from war-torn Shanghai.

Manila residents fled from homes and hotels into the darkened streets, on many of which light wires lay in a tangled mess. Many fires started by the shocks, the worst in 40 years, added to the panic.

Several large buildings and a number of churches were damaged. Other major structures away noticeably. Many injuries but no deaths were reported during the confusion following the first shock about 8 p. m. The second tremor added new terror 20 minutes later. The shocks were felt at least 200 miles away.

Proves Shaky Haven.

Most terrified by the rumbling and shaking of the earth were the 370 refugees arriving aboard the President Jefferson to a supposed haven after their terrifying experiences in Shanghai.

One girl among a score of screaming refugee women and children undergoing rigid inspection in the customs house, cried:

"Is that another war?"

The refugees had scarcely landed when the quake struck. Delayed more than an hour and a half at the breakwater, the eyes of many of the women refugees brimmed with tears of joy as the liner pulled into its pier.

"They had left a city of death behind and were greeted by the lively tunes of a United States army band and the blaring lights of Manila. Lights Go Out.

A score or more were still in the customs house when the very earth under the building swayed and cracked and the welcoming lights blinked out. Terror reigned.

The refugees had landed amid considerable confusion, some of their carrying babies in their arms and others nondescript baggage that they had hurriedly thrown together before fleeing from Shanghai.

Mrs. Theodore Roosevelt, Jr., and her son, Quentin, had hurried ashore under the escort of President Manuel Quezon's personal bodyguard and were whisked away by automobile.

Some of the refugees, with babies in arms, were forced to look for their sons supposed to greet them on their arrival. Others carried their own bundles, some wrapped only in papers and others with their own blankets over their arms.
