NUDISTS TO BUILD NATIONAL CENTER

SUNSHINE PARK, N. J., Aug. 24.—(AP)—Standing on the ground where a nudist group planned today to establish its national headquarters, Dr. Isley Boone said "the great taboo against the human body is beginning to give way."

When this "taboo" ends, he said, "nudism will become as commonplace in the United States as it is in Germany and the Scandinavian countries."

Dr. Boone, re-elected executive secretary of the American Sunbathers' association yesterday, estimated 40,000 Americans practice nudism and "about 3,000,000 others believe in it as a promoter of health and morals."

Concluding the association's sixth annual convention, the 300 delegates voted to build their national headquarters at this wooded settlement on Egg Harbor river in southern New Jersey.

Lumber Production Far Above Orders

WASHINGTON, Aug. 24.—(AP)—The National Lumber Manufacturers' association reported today that lumber production for the week ended August 14 was 25 per cent greater than new business booked and 15 per cent more than shipments.

The association said that 539 mills produced 279,791,000 feet, shipped 241,871,000 and booked orders of 221,897,000. Revised figures for the preceding week were: 538 mills, 281,302,000 feet production, 234,399,000 shipments and 228,865,000 orders.

FRANCO PREPARES FOR FINAL ATTACK UPON SANTANDER

Besieged City Is Thronged With Thousands of Thirsty Refugees — Capitulation Due by End of Week

HENDAYE Franco-Spanish Border, Aug. 24.—(AP)—Insurgent Generalissimo Franco linked six columns into a single line today for a concerted attack on Santander and announced the besieged city was thronged with tens of thousands of thirsty refugees.

Santander has been without a regular water supply since the insurgent troops captured the Arriva waterworks last Friday.

From Franco's headquarters came the declaration that continued insurgent advances made it apparent that "fighting in Santander province is virtually ended."

The insurgent chief's Salamanca headquarters proclaimed in a statement that the rate of his army's advance would permit capture of the provincial capital, Santander, "before the end of the week."

Government reports, admitting in part the insurgent claims, reported fierce infantry attacks supported by fleets of tanks and large masses of artillery and aviation on the tightening semi-circle centered on the Spanish government's last important Biscayan seaport.

Los Corrales, southwest of the beleaguered city, was heavily shelled by Franco's Palencia road column, the government communique said.

Government Resisting

Franco was driving that spearhead toward Torrelavega, seven miles north of Los Corrales, in an effort quickly to isolate Santander from Gijon, a considerably less important government stronghold on the Bay of Biscay about 90 miles to the west.

Government troops, the Madrid communique asserted, were resisting stiffly.

Torrelavega, heavily fortified for a last ditch battle by the government army of Basques, Asturians and Santander militiamen, lies only 11 miles from Santander. Insurgent advances insisted Franco's men were but three miles from Torrelavega.

TOKYO, Aug. 24.—(AP)—The navy department said today a Japanese pilot whose plane caught fire from Chinese bullets over Shanghai "deliberately plunged" into an enemy position, thus achieving a glorious death.

YELLOW JACKETS, MONTH-OLD BOLT CAUSE OF BLAZES

A nest of yellow jackets and a lightning bolt that struck a tree a month ago were today blamed for two timber fires that engaged personnel of the Rogue River national forest throughout the night. Each fire was confined to half an acre or less.

According to forest headquarters here, two men cutting timber on Jenny creek north of the Klamath Falls highway near Pinehurst set a fire yesterday to destroy a nest of yellow jackets that had been bothering them in their work.

When they quit for the day the men thought the blaze was out but they took the added precaution to cover the ashes with dirt, headquarters said. About 6 p. m., however, the fire flamed anew and spread over a half acre of timber.

District Ranger Hugh Ritter sent two firefighters from the Lake of the Woods district and they were augmented by 12 loggers of the Pinehurst area. Later 10 trained COC fighters and a pumper were sent from Lake of the Woods. They fought the fire all night and reported it out at 8:00 this morning.

The land where the fire occurred is owned by the Weyerhaeuser Timber company but is under the protection of the Rogue River national forest, headquarters said. H. C. Obye, assistant supervisor, went to Pinehurst this morning to confer with others regarding the fire.

On July 25 lightning struck a tree and started a fire near Russell peak 15 miles northeast of Butte Falls. The fire did not become apparent until August 20 when the Russell peak lookout noticed smoke. Because the smoke appeared only in intermittent puffs and came from behind a pinnacle, it was difficult to locate the fire, headquarters explained.

The blaze was not found until 8 p. m. yesterday. Although the fire was in an area covered with fallen trees that had been blown over by a strong wind in 1925, it was confined to a quarter acre.

A crew of five men brought the fire under control last night and this morning it was mopped up.

SINGAPORE CROWDED BY CHINA REFUGEES

SINGAPORE, Straits Settlements, Aug. 24.—(AP)—The Straits government today requisitioned town hall and other buildings in preparation for receiving several thousand refugees from China.

British authorities asked help because of overcrowding and an outbreak of cholera at Hongkong. Two thousand Chinese aboard the Dutch steamer Cremer were not permitted to land because of a cholera case aboard and because the quarantine island was full. They will disembark when 1,500 earlier arrivals are discharged from quarantine.

Why is it that people who could afford to pay much more for whiskey insist on OOP (short for Old Oscar Pepper)? Here's why: OOP is ALL whiskey—and ever since OOP was first made down in old Kentucky in 1838, it's been distilled by the slow old-fashioned method. Try it and see what a difference that makes in flavor and smoothness!

WINDSORS PLAY HOST TO COUNTRY FOLK AT FAREWELL RECEPTION

NOETSCH, Austria, Aug. 24.—(AP)—The Duke and Duchess of Windsor planned tentatively today to bid farewell to Castle Wasserleoneburg September 15 when they may go on a hunting trip to Hungary.

In something of a farewell reception, the former British monarch and his American-born duchess entertained 1600 residents of the community and countryside last night with music, beer, heart-shaped cakes and games on the castle grounds.

Into the night the visiting peasant folk chorused "Hoch Soll er Leben," a drinking song the title of which means approximately "may everything always go well with him." Hundreds managed to shake hands with the smiling couple.

The duke was in peasant costume and the duchess wore a white woolly coat, grey skirt and an embroidered peasant blouse. She personally congratulated the winner of a wild horse riding contest.

Mayor Karl Jost made a speech, proclaiming the fete Gail valley's most memorable occasion.

The duke responded in precise German: "The duchess and I have enjoyed living here and Gail Valley will always have a place in our memories."

REAL INDIAN PRINCESS WILL FEATURE PARADE AT YREKA'S GOLD RUSH

YREKA, Cal., Aug. 24.—(AP)—An Indian Princess, chosen from the tribes of the Klamath river, will ride in the big parade which will be an outstanding feature of the Yreka Miners' Gold Rush celebration here September 10, 11 and 12.

Selection of the Indian beauty is being made by the American Indian Federation of Happy Camp in a contest which will close August 27. Mrs. Sarah Hoxie, county president of the Indian federation, Mrs. Laura Wright and Melbourne Smith of Happy Camp are the members of the committee in charge of the plans for Indian participation in the parade.

Led by the float carrying the princess, the Indians are planning an Indian section which will include at least four floats and 30 Indians in costume.

Present plans call for the delegation to leave Happy Camp early Sunday morning, September 12. They will join in the county-wide religious services which will be held in the Yreka city park at 11 a. m. and at 2 p. m. will participate in the parade.

Reports from Happy Camp state that the entire membership of the Indian federation from that vicinity will attend the celebration, which commemorates the days when the Indians watched a tremendous influx of white miners absorb the hunting grounds which had been their since time began for the Indian tribes who dwell in the shadow of Mt. Shasta.

Closing time for Top Late to Classify Ads is 1:30 p. m.
