DEFICIENCY BILL, WITH COTTON AID SIGNED BY F.D.R.

Construction of Public Buildings Also Authorized by Measure — Three Pocket Vetoes Are Announced

WASHINGTON, Aug. 26.—(AP)—President Roosevelt signed today the third deficiency bill, appropriating $81,662,000 for various government departments and agencies.

The measure also authorizes the use of $65,000,000 of tariff receipts for subsidies to cotton farmers in connection with a government effort to stabilize the price at 12 cents a pound.

These subsidies, to be paid next year on this year's crop to farmers who comply with surplus control legislation to be enacted next session, will be equivalent to the difference between the average price at ten spot markets and 12 cents.

Loan Amount Undecided

The president has not decided how much the government will lend on this year's crop to help in the price pegging effort. He has been requested by Secretary Wallace to make the loan nine cents a pound while state senators have urged 10 cents.

The largest item in the deficiency bill as far as new appropriations are concerned, is $25,000,000 for construction of public buildings. The bill also carries $10,000,000 to start the farm tenancy aid program and another $10,000,000 for retirement of submarginal lands.

Three Pocket Vetoes

It was one of 58 bills which the president approved, leaving 81 yet to be acted upon. He announced along with the bill approvals three pocket vetoes.

A $50,000,000 appropriation inserted in the deficiency bill by the senate carrying out a sugar control program was trimmed to $250,000 for administrative expense before congress finally approved the measure.

The act authorizes the United States maritime commission to enter into contracts up to $115,000,000 to carry out a program of building up the merchant marine through a system of subsidies.

DEPTH BOMB DISAGREES WITH SHARK'S STOMACH

LONG BEACH, Calif., Aug. 26.—(AP)—A tale of a shark whose appetite got the best of it was told by officers of the coast and geodetic survey vessel, Pioneer, upon their return to port.

The big fish swallowed a depth bomb, which is about the size of a cocoanut and fitted with a fuse which burns under water. A few seconds later a column of water shot upward.

Fragments of the shark came with it.

MT. McLAUGHLIN

There's something in your lofty height
That fills me full of awe;
There's something in your larger might
That makes me love thy law.

Thy snowy summit, whiter still
Than many mountains high;
Thy many streams they give me thrills
As they go tumbling by.

Yet there's something we cannot buy,
We get from this mountain;
So we spare time to feast our eyes
Upon Mount McLaughlin.

standard of living of all workers. He will end up by declaring that both farm and factory workers have the same goal, a decent living.

Incidentally, he will remind the more prosperous farmer that this high standard of living for all workers is the only solution for decent farm prices.

That's the first step.

The next will be a stirring get-together of farm organizations and labor's non-partisan league. The league will come right out and talk votes. It's got 'em and it's ready to trade, it says. The object of this new alliance will be a farm-labor legislative program with the usual quid pro quos.

A strong effort will be made to change the flavor of the south from that rich bourbon taste to something near chitt'lin' level. With his new agricultural union, Mr. Lewis hopes to cover Dixie like the dew. So far it's a pretty nebulous organization. However, you can't tell what some good whipper-uppers might do to mobilize a "majority" vote against the "Colonel" Macaulays.

The department of justice is hankering to do a little trust-busting, but it takes millions to fight millions, and the attorney-general's exchequer is running low.

The department of justice figures that it costs Uncle Sam about $100,000 per case per year and these trust-busting cases often drag out longer than that. Ten cases per year run through $1,000,000.

And at that, when the government goes to court with six or seven of its $5000-a-year lawyers, it frequently has to sit across the table from the corporation's $100,000-a-year man and his corps of six or seven assistants.

Important test cases against middle western oil companies are coming up this fall in Madison, Wis. Already hotel rooms are so scarce that government trial lawyers who get only $5 a day expenses find they must pay $6 a day for their rooms alone.

Relief Administrator Harry Hopkins doesn't seem to care for lawyers. He has a counsel, with some legal assistants, but there is no legal division in any way comparable to that found in other government agencies anywhere near the size of the WPA.

"Lawyers are meant to tell you what you can't do," is the way Mr. Hopkins looks at the situation. He wants to do and usually does.

The old gray squirrel got into the president's waste basket the other day. He found a piece of paper that was so hot he dropped it and ran. The notes on it were too torrid even to use as lining for his winter's nest.

It seems they were memoranda on the forthcoming speech at Antietam on September 17. Which would seem to indicate that it will be several degrees livelier than the Roanoke address.

"We have just begun to fight" is heard again in the White House corridors.

But Democrats started fighting long before that.

Wall St. Report

NEW YORK, Aug. 26.—(AP)—Fears of international complications as the result of the shooting of the British ambassador to China near Shanghai touched off a selling wave in the stock market today that swept leading issues down 1 to 5 points.

In addition to the wounding of the diplomat, Wall Street's pessimism was further aggravated by Japan's threats to include neutral shipping in the blockadeof the China coast, the breakdown of railway wage negotiations and a cloudier outlook for brisk pickup in business this fall.

At the peak of the downswing in the second hour the ticker tape fell a minute or so behind floor dealings for the first time in many weeks. The pace alowed later, however, and extreme losses were cut down moderately in most cases before the close.

Commission houses with foreign connections reported offerings of American stocks from abroad were much larger than in recent sessions.

Transfers climbed to around the 1,000,000-share mark.

The Grange

Phoenix Grange.

Grange met Tuesday with good attendance in spite of busy season and many engaged in the fruit harvest and packing.

During business meeting, obligation in the third and fourth degrees was given Mr. and Mrs. Lester Harris. Three names were presented for membership.

Mr. Dorn, overseer of Upper Applegate Grange, was a visitor, and brought a brief but interesting message to all present.

Following business session, refreshments were served by the committee in charge, Mr. and Mrs. Ray Ward, Mr. and Mrs. George Armstrong and Bert Stancliffe.

The library of congress was destroyed by fire in 1814, 14 years after its establishment.
