BAKERY WORKMAN CRUSHED BETWEEN ELEVATOR, CEILING

(Continued from Page One.)

ping machine in the bakery and lost eye-witness, said that he told Cash to get a truck and the two would take the elevator to the basement and procure some wrapping paper. He said that Cash left the wrapping machine and started for the elevator and that he (Braun) followed a few seconds later, only to witness the youth just as his body was caught between the floor of the elevator and the ceiling of the room. Braun could not explain why Cash had started the elevator upward toward the mixing room, nor the reason for the youth's apparent action in jumping from the moving elevator. Cash had worked as Brauns' assistant on the wrapping machine the past two weeks, and it was believed that perhaps Cash didn't understand the workings of the elevator and became frightened when he started it upwards instead of to the basement.

Pulled Wrong Cable Inside the elevator were two cables, one of which starts the lift up and one down. The theory was advanced that Cash, after pulling the wrong cable, may have become frightened that the elevator would crash thru the roof, and attempted to jump out. However, the elevator stops automatically at the mixing room, William H. Fluhrer, manager, explained.

Braun said that Cash's body was about half in and half out of the elevator when it was crushed. At the impact, the elevator stopped, and Braun said that he ran up the stairs to the mixing room and started the elevator back down, releasing Cash. The coroner's office was called immediately and Cash was taken to the hospital in the ambulance.

Swinging doors on the main floor of the elevator pit were open, Fluhrer said. Whether Cash had propped them open when he entered the cage was not known.

Gave No Cry Braun stated that Cash gave no cry that he heard before the accident. He said that just as Cash was pinned between the elevator and the ceiling, he groaned once. He was unconscious when taken from the elevator.

Cash was a regular member of the night shift at the bakery. He had worked there two weeks today and with several others, had gone to work at 4 p. m. yesterday. Braun, who lives next door to the Cash family, was instrumental in procuring employment for the victim, and had used him as a helper on the wrapping machine since he first was hired.

Put Truck On Lift Just before the accident happened, Braun said he asked Cash if he could manipulate the elevator, and that Cash replied that he never had but would try. Braun then told him to get a truck and put it on the lift, and that he would operate it. Disturbance from the wrapping machine, where both were working, to the elevator is about 30 feet. When Braun reached the elevator, he had no time to save Cash. Several other employes were scattered about the large oven room on the main floor, and knew nothing of the tragedy until Braun yelled.

Cash was born in Boone county, Arkansas, March 24, 1916, and moved with his mother and brother to Medford about seven months ago from Maude, Calif. He leaves his mother, Mrs. Maude Cash and brother, Clyde, both of 714 West Palm street, and one sister, Mrs. Ava Thomas of Belfonte, Ark. He was unmarried.

The body is at Per's funeral home, and will probably be shipped to Arkansas for burial. Definite arrangements will be announced later.

Noted Geologist To Explore Cave EUGENE, Sept. 9.—(AP)—An examination of famous Catlow cave in southeastern Oregon will be made next week by Dr. Ernst Antevs, noted glacial geologist of Sweden. Dr. Antevs will come west on a commission from the Carnegie Institute of Washington. He will be accompanied by the department of anthropology of the University of Oregon and probably the best-informed scientist in Oregon on the cave.

On Roxy Bill

Fred MacMurray swings it and Carole Lombard sings it in their latest co-starring hit, "Swing High, Swing Low," which plays at the Roxy theater today and tomorrow only.

'Broadway Melody' Delights Audience Craterian Showing

"Broadway Melody of 1938," of its title indicates, is a year ahead of its time. The scintillating musical from Metro-Goldwyn-Mayer opened at the Craterian theater last night, co-starring Robert Taylor and Eleanor Powell, with a cast that is virtually an all-star aggregation.

It includes Eugene Murphy, Binnie Barnes, Buddy Ebsen, Sophie Tucker, Roy Garland, Charles Igor Gorin, Raymond Walburn, Robert Benchley, Willie Howard, Charles Grapewin, Robert Wildhack and a chorus of lovely girls.

Roy Del Ruth directed and the producer was Jack Cummings. Dave Gould directed the dance numbers and Nacio Herb Brown and Arthur Freed collaborated on the musical score. The songs are sure-fire hits.

The audience left the theatre in rare good mood, whistling and humming such numbers from the score as "I'm Feeling Like a Million," "Sun Showers," "Yours and Mine," "Pair of New Shoes," "Follow in My Footsteps," "Your Broadway and My Broadway" and Sophie Tucker's remembered, "Some of These Days."

Eleanor Powell outdoes her finest performances as a tap dancer extraordinary. Robert Taylor proves again his versatility as an actor and he also sings very well. Without exception the players are uniformly excellent.

An amusing story supports the lavish sets. Miss Powell, loyal to her horse-raising father, backs one of his runners. In order to keep the feed box full she dances in a night club. Taylor, as an earnest young playwright, buys the animal at an auction to save it for her and sure enough, the horse romps home a winner at the big race.

STATE TO OBSERVE CONSTITUTION DAY

Jackson county courthouse, Medford city hall and banks will be closed on Friday, September 17 in observance of Constitution Day, a legal holiday in Oregon.

Federal agencies will remain open unless meanwhile the day is declared a legal holiday by presidential proclamation. While no official poll has yet been taken, it is thought likely that the stores also will remain open.

September 17 this year marks the 150th anniversary of the adoption of the constitution. In observance of the occasion a special Constitution Day program will be held by the Eke Lodge on the opening day of its state convention here, September 24. Attorney Don Newbury will give the principal address on the special program, scheduled for city park.

A mixture of one teaspoon of glycerine with an equal amount of castor oil and a tablespoonful of olive oil may be used for an at-home-glycerine hot oil treatment.

TAKE ON PILOT FOR FIFTIES

When a man reaches his fiftieth birthday he wants to anchor himself to what he likes best. For some men it may be continued work. Others find pleasure in more time for their families. Still other men look forward to freedom, leisure, travel. Whatever a man hopes for in the years after fifty, he's better able to get it now than ever before... if he takes advantage of the right kind of guidance.

The hidden dangers of his age are heart disease, diabetes, high blood pressure, kidney trouble. But with a wise pilot—his doctor—he can often steer clear of them. Physicians today have many new methods which detect the beginnings of these troubles long before they become serious. Taken in hand immediately, they can often be prevented.

The important element is time. Any man who is fifty years old should observe this simple precaution—to see his doctor at once, even if he feels perfectly well.

Chances are, there may be nothing wrong. But if there is something slight, the doctor may be able to help prevent a more serious development.

For the man not yet fifty, but approaching that age, it's a good idea to act in advance of trouble. If he takes his doctor into his confidence now, they can together chart a course for full enjoyment of the years ahead. Inulin 10 c.c. U 40 is \$1.15. We give S. & H. Green Stamp.
