DOES ELECTRIC COOKING COST TOO MUCH?
YOU ARE PAYING FOR ELECTRIC COOKING WHETHER YOU USE IT OR NOT... WHY CONTINUE TO "GET ALONG" WITH AN OLD FASHIONED, INCONVENIENT FUEL STOVE?
YOU PAY
—from \$2 to \$4 for wood for cooking.
—the highest rate for lights and small appliances.
—you carry wood and ashes, scrub and clean... and roast over the cook stove all summer.
—you boil away food values that can be saved if cooked electrically.
IF YOU USE AN ELECTRIC RANGE
—you receive electric service on the combination electric rate which averages much less than 1/2 the lighting rate per kwh.
—electric cooking costs the average family of four less than 10 cents a day. (Wood alone costs nearly as much.)
—no wood to split or carry in.
—no ashes to dispose of.
—no soot to scour from stove, walls or pots and pans.
—save as much as 1/2 the precious health giving vitamins and minerals in food boiled away by old-fashioned cooking methods.
TO SAY NOTHING OF THE ADDED CONVENIENCE
The California Oregon Power Company
