Medford Club To Form Organization Of Young Artists

Formal installation of officers of the Medford Music club, recently organized and federated with the national group, is scheduled for next Monday evening. Mrs. Darrell Huson heads officers as president.

A new phase of the club's program, which centers around the encouragement of young artists, is the contemplated organization and federation of young musicians from the ages of 6 to 18 years. These groups are to be organized at next Monday's session.

Anyone in that classification playing any instrument or singing is eligible to membership. Club officers said. Two groups will be organized, juvenile, to include up to 12 years, and juniors, 13 to 18 years.

Membership in either of these groups includes eligibility for entrance in the state contest for 1938 conducted by the National Federation of Music Clubs.

Club officers urge teachers of the city to encourage young people of the community to join one of the groups and thus meet the standards of musicianship established by the national federation.

A meeting of young people interested is scheduled for 4:30 o'clock tomorrow afternoon at the Baldwin piano shop, when rules and courses of study will be explained and discussed.

AMERICA WILL SPEED BATTLESHIP BUILDING ACCOUNT WAR THREATS

WASHINGTON, Sept. 21.—(UP)—Construction of the super-battleships North Carolina and Washington—to be among the most powerful war vessels ever launched—will be pushed at top speed, it was learned today.

War in the far east and in Spain, with threats of hostilities spreading to other areas, has expedited America's biggest naval construction program since the World War. The "treaty navy" program will reach its climax in two or three months with the laying of keels for the new 35,000-ton dreadnaughts. From that point on, construction of the huge, streamlined vessels will continue on almost an emergency basis.

It is expected that in 1939 the navy department will ask congress for additional funds to construct two more battleships similar to, but even more powerful than the North Carolina and Washington.

REPUBLICANS SEE TREND FROM F.D.R. CLAIMS CHAIRMAN

WASHINGTON, Sept. 21.—(AP)—John Hamilton, chairman of the Republican national committee, asserted today his party workers were reporting "a trend away from Roosevelt."

He made the statement at a strategy conference of Republican leaders from 10 of the nation's biggest cities who met with Hamilton to plan a campaign for recapturing congressional seats in key urban areas next year.

Hamilton said the meeting was one of a series for the purpose of seeing that the Republicans "do not have an organization made up of a few men and women at the top, but a wide one coming up from the precincts and wards."

He forecast "the most intensive congressional campaign in the history of the party."

The meeting of chairmen from cities and counties with more than 500,000 population—the first of its kind—was a prelude to a conference Thursday of the executive committee and officers of the national Republican committee.

Just before they assembled, the leaders learned of the resignation of the veteran Charles D. Hillis as national committeeman from New York.

The election will be Thursday morning.

WHITE-FOOTED MICE FOUND ON SKY ISLE BY EXPLORING PARTY

NORTH RIM, GRAND CANYON, Ariz., Sept. 21.—(UP)—A letter chronicling the discovery of white-footed mice and other small game on a "sky island" nearly a mile above the floor of the Grand Canyon reached the "mainland" last night from the two-man expedition exploring the heretofore unexplored Shiva temple.

The note was written by Dr. Harold E. Anthony of the American Museum of Natural History, who with a youthful aide is encamped on the isolated plateau in search of rare flora and fauna. It was brought down to the expedition's main base by four porters who scaled the sheer walls of rock to take fire extinguishers full of drinking water to Anthony and George Andrews, 20-year-old son of Dr. Roy Chapman Andrews, famed explorer.

The note, written 1:30 p. m. Saturday and dated "Shiva Temple," described the results of a night's trapping with 49 traps. In addition to white-footed mice, Anthony reported that "we have one specimen of burly-tailed woodrat and one which looks like a round-tailed woodrat but may be immature form of the other rat."

WIDOW, 65, SLAIN BY SEX MANIAC

VICTORIA, Sept. 21.—(CP)—The battered body of Mrs. Helen Smith, 65-year-old widow, was found today in a vacant lot in the James bay residential area of Victoria. Around the dead woman's neck was a man's necktie.

Police said they had asked assistance from Inspector J. P. C. B. Vance of the Vancouver city police bureau of science. They expected he would arrive from the mainland city with two police dogs during the afternoon.

Investigating officers said the fact Mrs. Smith's clothing was disarranged led them to believe she had been criminally assaulted. Her face was crushed and smeared with blood.

The woman's walking stick, shopping bag, a bundle of papers, gloves and gloves were strewn over 50 feet, and officers said they thought she had been dragged that distance by her assailant.

Last Fish Of Year Departs On Wings

BEND, Sept. 21.—(AP)—Ben Whiteman, druggist, told friends today his final Eastern Brook trout of the season got away on wings.

He landed a 12-inch brookie yesterday evening, the last day of the season at East lake, and tossed it ashore. A moment later he heard his wife scream. He turned to see a huge owl grasp the "best trout of the year" in its talons and disappear over the tree tops.
