MERCER WINS PLACE WITH OSC STARTERS

CORVALLIS, Or., Oct. 6.—(AP)—Stellar blocking performances this week by Jay Mercer was believed to have virtually assured him a place in the starting lineup when Oregon State college football men tackle the University of Washington in Seattle Saturday.

—you'll breeze right over cross-town traffic
By 1960 express traffic will speed along at 50 miles an hour over Main Streets, predicts Norman Bel Geddes, authority on future trends. "No stoplights... no intersections to delay you."
Local traffic will travel on one-way Local Streets made wider by the elevation of sidewalks and elimination of parked cars. Parking and truck loading will be inside buildings.
Pedestrians will use elevated sidewalks... shopping at the second-story level, crossing streets on bridges...

but TODAY, 4 miles in 5 are Stop and Go

STOP for a streetcar... stop for a traffic light... 30 stops a day is the nation-wide average. And one stop can waste enough gasoline to drive you a third of a mile!
While traffic authorities are planning "the City of Tomorrow," Shell engineers have developed a fuel, Super-Shell, to meet today's driving problem TODAY.
They have found a way to rearrange the chemical structure of gasoline, actually to balance it.
Automotive engineers use the term "motor-digestible" to describe Super-Shell because at all motor speeds it is converted so QUICKLY, so COMPLETELY into power.
The regular use of Super-Shell will reduce your driving costs. There's a Shell dealer near you.
