V.F.W. ORGANIZED FOR QUICK MOVE IN TIME OF NEED

A nationwide relief organization, comprising more than 3,600 individual local units and approximately 200,000 members, will be prepared to go into immediate and coordinated action in the event of disaster in any section of the country, as a result of action taken by the delegates to the recent 38th annual national encampment of the Veterans of Foreign Wars of the United States, at Buffalo, N. Y. The organization will be a permanent one, according to Commander Etha W. Wall, post 1833 of this city, who last night addressed the members of his unit concerning the 1937-1938 objectives and program of the overseas veterans' organization. One of the resolutions adopted by the encampment provided for the election or appointment of a national disaster relief committee to act directly with the various units of the organization and with other relief agencies when deemed necessary. Thus would be unified the work of thousands of individual posts in cities and towns throughout the country, while state chairmen would, in each case, supervise the respective activities of the units in their own areas.

Inspiration for the plan, according to Commander Wall, was found by the officers and members of the Veterans of Foreign Wars of the United States in the Ohio river valley floods of last spring and the previous year. In both emergencies, V. F. W. posts and members instantly mobilized in their communities and states for relief work. Those in the afflicted districts participated personally in the rescue and relief work. Commander Wall said. In addition, V. F. W. post homes were opened as relief stations and food and lodging were furnished to thousands of flood victims through the V. F. W. units.

The V. F. W., recognizing the time and money that would be saved, in the event of another emergency, by the maintenance of a permanent disaster relief committee, plans to organize the relief group so that all the resources of the V. F. W. can immediately be mobilized for relief purposes in time of need. Rescue work, commissary departments, housing, medical care and first aid, transportation and other divisions of activity in such emergency will be divided among committees in each V. F. W. community. Each committee will be responsible to its local disaster relief chairman, who, in turn, will report to a county or state chairman. The latter will work directly under the supervision of the national chairman of that particular department.

GAME FEES SUIT HITS LEGAL ROCK

BEND, Oct. 16.—(AP)—Legal snags in the way of the state game commission's attempts to secure a writ of mandamus against Henry T. Merritt, Bend justice of the peace, "to enforce the performance of public duty," appeared yesterday when Merritt filed a demurrer to the suit. Authority of the commission to file such a suit was questioned and the demurrer stated the complaint against Merritt does not state facts sufficient to constitute a cause of action. District Attorney Bert C. Boylan filed application for the writ October 2 at the request of F. Carroll Baker, controller of the state commission. Baker indicated the DeSchmitts county case was the first of a series which the commission planned to force collection of more than \$18,000 in unpaid game law fines in Oregon. Fines of \$1,515 imposed by Merritt but not collected were listed. The application pointed out that one of the duties of the justice is to commit to jail persons failing to pay fines. It took Columbus 70 days to cross the Atlantic ocean in his sailing ship.
