Added Luxury in "Jubilee" Plymouth for 1938

Easier steering, safer vision and a score of new luxury features for the lowest price field are introduced by Plymouth for 1938. Here's the newest Plymouth model, that marks the company's tenth anniversary "Jubilee." A new hood sweeps farther forward to meet the top of the radiator grille, and deeper fenders curve around to a new steel apron across the front (upper right). This year's safety-

styled instrument panel (upper left) again offers special protection in case of sudden stops, with control buttons lined up in a special recess at the rounded base of the board. Note the bigger windshield for safer vision. This is another standard feature throughout Plymouth's 1938 line, which includes eight "deluxe" and three "business" body types. All measure 194 inches from bumper to bumper.

CARTER ACCUSED
AS HIT-RUNNER
COUNTY TAX LEVY
LESS NEXT YEAR

A warrant charging Francis Willard Carter with being the driver of the auto which struck and injured Clara Milkowski in a Jacksonville district accident the first of the week, has been issued out of Justice of the Peace W. R. Coleman's court, with Lewis Applebaker as complaining witness. The warrant formally charges Carter with failure to furnish his name and address at the time of an accident. Carter lives on Forest creek. The warrant was placed in the sheriff's hands for service today.

The complaint alleges that after striking the auto in which the injured woman was a passenger, the driver sped away. Applebaker, driver of the struck machine, was returning from an Applegate dance early Sunday morning when the accident occurred. Miss Milkowski sustained head injuries requiring eleven stitches.

The Jackson county tax levy for state and county purposes the coming year will be about 14.1 mills or seven or eight mills less than last year, Assessor J. B. Coleman predicts. The amount budgeted for county expenses is approximately \$20,000 less than last year the assessor says. City levies on the whole will be about the same as last year, the assessor said, with the Medford total levy, city, schools, county and state, running close to 56 mills.

Butte Falls, a few years ago widely known as possessing the highest school district levy in the state, will have no school levy according to a budget filed with the assessor.
