Wall St. Report

NEW YORK, Nov. 1.—(AP)—Stocks managed to retrieve portions of early losses running to three or more points in today's market, but most leaders were in the losing column at the finish.

Steels led an early sell-off on a further drop in production. Rails were fairly resistant while coppers, farm implements, mail orders, motors and specialties failed to put up much opposition.

Part of the day's sluggish proceedings was attributed to the desire of speculative forces to lighten commitments because of the exchange closing tomorrow for the local elections.

Dealings were slow from the start, the transfers approximating 1,100,000 shares.

MILLION DOLLARS NOTHING UNUSUAL IN COST OF FILM

"Goldwyn Follies," Yet To Come, Will Cost Two Million—Birth Of Nation Was First Costly Film.

By Robbin Coons

HOLLYWOOD—Maybe you haven't realized it yet, but you're supposed to be saying "Thanks a million" to Hollywood—and saying it with coin.

If you don't, Hollywood will be in a sorry way. But Hollywood isn't worried about that, because it's pretty sure you'll do your part. Almost always, you have.

This town is turning out million-dollar pictures with the nonchalance of a veteran gambler tossing in another stack of blue chips. Nearly 40 films, current or budgeted, will cost in the neighborhood of a cool million. Some will cost more. One is down for $2,000,000 ("Goldwyn Follies.")

Costs Have Rocketed

Quite a few pictures have cost that much and more, but not intentionally. The silent "Ben Hur" piled up troubles and took years to get back its $3,000,000-odd nut. "Hell's Angels" cost $3,500,000, partly because of junking a silent version and microphoning it. The years have put the picture in the clear.

But only 23 years ago this village thought D. W. Griffith was cracked for sinking $105,000 into "The Birth of a Nation." That picture has grossed nearly $14,000,000. It was one of the first to show Hollywood that the more you spend the more you make. "It's gotta be big" is no mere wisecrack. It's gotta be big to get the kind of grosses and prestige Hollywood wants.

Griffith's picture, produced on comparable scale today, would cost approximately $1,100,000. Story, star, director, labor, materials costs have rocketed. Lillian Gish got $250 a week then—big money. Irene Dunne, today, gets more than $100,000 per picture.

Cast Gets a Fourth

Much of the cost of a modern million-dollar movie is "insurance." Spending that much, the producer wants to be sure he has the right director, stars, story. Successful play or novel is one form of insurance. He'll pay what he must to get it, even if it's that staggering $250,000 for the play "Room Service" or $200,000 for "You Can't Take It With You." Owning such a property, he won't trust a bright newcomer with it. He'll hand it to John Ford ($100,000 for "Hurricane") or Leo McCarey (who can write his own ticket after "The Awful Truth") or some other veteran. And he'll get stars, names that come high because the public will pay to see them. One-fourth of his cost will go to cast, exclusive of extras, bits, and characters, who take an additional one-twentieth.

And then there's "overhead"—studio operation, including executive salaries and everything down to drinking water. That item adds from 15 to 40 percent on the cost of the picture, which in the end pays all the bills—they hope—and returns a nice profit.

HE SEEKS PEACE and quiet life as a Londoner after a life in America which brought and lost him millions. Samuel Insull returns to the land of his birth to make his home.

ASHLAND YOUTH IDENTIFIES TRIO AS CRIME AIDES

(Continued from Page One.)

and the others assaulted him and then threw him in the ditch after taking his money.

"I had paid for the refreshments at the cafe and had difficulty in finding a one dollar bill in my billfold," he said. "I think the men saw my money then and thought I was carrying a good deal."

Rice apparently suffered no serious injuries other than a cut lip and bruises, but was badly shaken Sunday and after receiving hospital treatment, went to an Ashland hotel where he plans to remain for several days. Rice's clothes were smeared with blood.

In his statement, Rice said he had $41 in cash and $220 in Bank of America travellers checks. In his alleged confession, Messinger said that $31 was divided by Cagle between the three men.

Messinger is quoted by officers as saying he was looking under the hood of his car, used in the affair, when the alleged attack occurred.

Messinger is a former Oregon State College student and said he had known Cagle while a student there.

No deadly weapons were used in the assault, according to Chief of Police Talent.

Rialto Fans Like Fine Double Bill

Audiences witnessed yesterday the greatest star-studded, story-packed double bill program ever offered at the Rialto theatre. "As Good As Married" and "Back in Circulation" are the two features drawing current applause at the Rialto.

"As Good As Married" is a delightful comedy, a worthy successor to such hits as "My Man Godfrey," "Three Smart Girls" and "When Love Is Young." It sparkles from the first scene to the last.

The main situation is novel, intriguing and amusing. John Boles is a successful architect harrassed by the demands of gold-digging girls and income tax collectors, who threaten to strip him of all his earnings. So what does he do but propose marriage to his secretary, played by Doris Nolan, who takes him up on it because she happens to be in love with him.

"Back in Circulation," a fast runner-up for hilarity and entertainment, is an engrossing newspaper comedy-drama. Pat O'Brien and Joan Blondell — a great pair — are starred in this highly dramatic and exciting story of the power of the press.

The plot of the story revolves around the death of a millionaire, discovered by a tabloid newspaper editor (Pat) to have occurred under mysterious circumstances.

The editor, aided by his keen woman reporter (Joan) amasses a damning amount of circumstantial evidence against the widow, and through his printed stories she is brought to trial.

The two hits will show at the Rialto through Tuesday.

When a cold strikes . . . don't take needless risks

Treat Colds This PROVED Way

WHY experiment? Vicks VapoRub has been doubly proved for you . . . proved by everyday use in more homes than any other medication of its kind; further proved by the largest clinical tests ever made on colds. (See full details in each VapoRub package.)

Only Vicks gives you such proof.

VapoRub is the direct external treatment. No "dosing"—no risk of stomach upsets. Simply massage it on the throat, chest, and back (as illustrated).

Relief starts almost at once. You begin to feel warm and comfortable as VapoRub starts working direct through the skin like a poultice. At the same time, its medicated vapors—released by the warmth of the body—are carried direct to the irritated air-passages with every breath.

This double action loosens phlegm—relieves irritation and coughing—helps break local congestion.

Repeat treatment at bedtime. After restful sleep comes, VapoRub keeps right on working, hour after hour. Often, by morning the worst of the cold is over.
