## Wall St. Report

NEW YORK, Nov. 3.—(AP)—The stock market saw prices crumble 1 to around 6 points in quiet trading today and close around the lows for the season.

Steels showed the way to lower levels most of the time. Droopiness in this group was attributed by brokers to the low ebb of steel buying. At the steel industry's present pace of operations under 50 per cent of capacity, it was argued, most companies cannot turn a profit.

Transactions approximated 1,900,000 shares.
