

### ALIENISTS NAMED FOR FEHL SURVEY SUBJECT TO OKEH

The names of Dr. D. C. Burkes, Portland, Dr. R. Lee Stiner, Salem, former head of the Oregon state hospital, and Dr. John Evans, present superintendent of the institution have been suggested, subject to approval of expenses, by the Jackson county court, as alienists to conduct an examination of Earl H. Fehl, former county judge, now held in the county jail, on a complaint, alleging Fehl is "an insane person and dangerous to be at large." All the alienists are of national repute, and were selected by Circuit Judge H. D. Norton, from a list submitted by attorneys for all parties concerned.

The insanity proceedings were automatically transferred from the county court when County Judge E. R. Day, disqualified himself. However, all costs will be borne by the county court budget. Telephonic approval of the selections from the county court, now in Portland, was expected this afternoon.

As soon as possible after the appointments are accepted and approved, an examination of Fehl will be conducted, within the next week or ten days, and the alienists will file their findings in circuit court. Then, if the report warrants a hearing will be called, and evidence submitted, oral and documentary.

Circuit Judge Norton has indicated he will select an advisory jury of physicians, to sit with him at the hearing.

The insanity complaint against Fehl was signed by Fred C. Kelly, Medford.

**STILL WATERS WILL RUN DEEPER** At Kettle Falls on the Columbia river, 110 miles above Grand Coulee dam when the mighty reservoir is completed, backing up an inland sea 151 miles to the Canadian border. Here is a plane table party surveying the reservoir basin. A continuous head of water will be supplied dam turbines generating power and water sufficient to irrigate 1,200,000 acres of desert will be available.

### TEN FIRE PERILS IN HOME LISTED; BED SMOKER FIRST

**CLEVELAND (UP)**—Next time you curl up in bed with a good book and light a cigaret, take note of the fact you're regarded as a menace to life and property.

The Cleveland fire prevention bureau lists 10 species of firebugs, following a survey of Greater Cleveland.

No. 1 is the smoker-in-bed, from whose fingers, all too frequently, a cigaret drops to the floor or rolls into bedclothing to start a serious blaze.

No. 2 is the woman who uses an electric curling iron, then lays it, still hot, on a wooden shelf and walks away carelessly while flames spread.

No. 3 is the free-style flicker of matches and ashes. This includes the fellow who builds a nest in the Sunday paper and reads, not ashes about him as he reads.

No. 4 is the handy man who installs yards and yards of extension cord in his home, runs frayed cord under rugs and carpets and bangs them over radiators.

No. 5 is the basement fire-bug, who absent-mindedly dumps hot ashes into baskets of rubbish and waste paper, then bounds upstairs with never a care in the world.

No. 6 is the woman who dumps rags saturated with cleaning fluid into the furnace.

No. 7 is the housewife who cleans clothing with naphtha and then uses a hot iron on it.

No. 8 on the list is the person who is always tearing apart electric power line plugs and household gadgets to see what's wrong with them. It's seldom he gets them together so that they're safe again.

No. 9 is the housewife who sweeps matches and other objects into warm air registers.

No. 10 is the man who provides his guests with matches that lose their heads and ash trays that won't keep a cigaret from rolling off on the floor.

The list is to be forwarded to the National Board of Fire Underwriters. Statistics distributed throughout the country show an average of 8,000 deaths each year from fire.

In 1935, insurance companies estimated \$250,000,000 worth of property was destroyed by fire.

### F. D. R.'S PROGRAM SIDETRACKED FOR ANTI-LYNCH BILL

House members began signing a petition to wrest the administration's wages and hours bill from the rules committee which blocked its consideration in the house last session.

**45 Sign Petition.**

Chairman Norton (D-N.J.) of the house labor committee, filed the petition and a long queue of representatives formed quickly at the speaker's rostrum to follow her in signing it.

When the house adjourned by a vote of 228 to 120, there were 45 signatures on the petition. Rules require 218 before the rules committee can be discharged from further consideration of whether the wage-hour bill will have right-of-way.

As this action proceeded, Chairman O'Connor of the rules committee expressed the opinion that the president's message yesterday, outlining his objectives for congress, "was not very enthusiastic" for the wage-hour bill.

Generally, the president's program was bogged down.

Failure of the agriculture committee to have farm bills ready for either chamber may cost the administration a full week out of the scheduled five-week session.

**Robin And CRT Pais**

**STONINGTON, Conn.**—(UP)—A robin and the house cat, eating out of the same dish is the unusual sight that is usual at the home of Mrs. Mary Gibbons. Her daughter, Betty, rescued the robin after it had fallen from a nest. It became tame.

### INVASION FOLLOWS KLAN INITIATION; \$360 CASH TAKEN

Estimated 200 persons, including some women, participated in the raid, burning a fiery cross opposite the place.

A delegation swarmed in while the orchestra was playing. The raiders ordered all the customers and employees to stand up and be searched for weapons and then ordered everybody out with a threat to burn the place. The threat was not carried out.

**Girls Choked**

Youst was away at the time and Hunter said the raiders choked three girl entertainers while questioning them as to his whereabouts. The waiters also were manhandled and some furniture was smashed, he said.

Youst returned after the raiders had departed and the club reopened in a few hours, but only a few patrons were present. Youst said he planned to "continue operation tonight."

### Ye Poets Corner

To Moorea  
Oh! beautiful, charming, adorable Moorea,  
Blessed tale of the deep blue sea,  
Your towering peaks pointing to the sky—  
Tell me you've grown quite dear to me.

The graceful palms that fringe your beaches,  
Kissed by the sunshine, they sway in the breeze,  
Casting their tall shadows on the grass,  
Most beautiful of all the South Sea trees.

So fascinating in your peaceful, primitive style  
The moon and stars seem to shine brighter,  
Come let's linger for a long, long time,  
Along the beaches where the sand is whiter.

There's Cooks bay so serene, so wonderfully calm  
Surrounded by mountains, gorgeous to see,  
That seem to reflect a shadowy sheen,  
I faint would say adieu, Moorea to thee.

—Eva B. Anderson

### SINCERITY MARKS PRESENTATION OF BUST TO MARTIN

"The ceremony in Governor Charles H. Martin's office yesterday was one of the most unusual and yet sincere meetings I have ever attended," stated A. H. Banwell, manager of the Jackson County Chamber of Commerce upon his return from Salem, where he was present as 50 citizens of Oregon presented their governor with a bust of himself in appreciation for his excellent service to the state.

The bust, presented by Henry F. Cabell, chairman of the state highway commission, will be placed in the new capitol building and will be owned by the state.

Cabell, who was an aide to General Martin during the world war, brought tears to many eyes as he eulogized the governor, Banwell stated.

"Governor Martin's response was beautifully worded and rang with sincerity," Banwell said. "He referred to the Ninetieth Infantry which he commanded during the world war, and to the reunion of the regiment held recently in Tulsa, Okla. The point he particularly brought out was that these men who served their country as soldiers in war were today still serving their country in times of peace along civic lines."

Banwell said that the governor urged for a pronounced spirit of Americanism which was needed to keep America on an even keel.

"A prayer climaxed the beautiful ceremony," Banwell said, "and those present felt a human touch which seemed to effect them all very deeply and sincerely."

### Recluse Planning To Furnish Deer With Radio Music

**WENATCHEE, Nov. 16.**—(P)—Arnie Sorlie is in the market for a loud speaker for his radio. He wants it to entertain his deer friends this winter on Lake Chelan.

Sorlie lives in a cabin on the lake shore about 12 miles from Chelan. Each winter, he says, deer have come down and hung around his cabin listening to his radio.

"They certainly do love music, and I'm going to get a loud speaker for them," he said today.

Sorlie said he had counted as many as 143 wild deer around his home in one evening and he expects them back again just as soon as it snows in the mountains.

### JOBLESS CENSUS FOR RELIEF DATA GETS UNDER WAY

To make the census effective, the cards must be filled out fully and accurately, Postmaster Frank DeSouza emphasized. Information provided on the cards is strictly confidential, government officials have promised.

**WASHINGTON, Nov. 16.**—(P)—The government began a whirlwind census of the unemployed today amid predictions that new millions must be spent for their relief.

A force of 150,000 regular and extra postmen distributed unemployment census questionnaires to every home, apartment house, hotel and tourist camp in the land in an attempt to find out how many people want jobs.

The 14 inquiries on the questionnaire are to be answered voluntarily by persons who want full or part time work. The cards must be mailed back to the government by Saturday night.

**Give Needed Data**

The information, officials said, will show not only the number of jobless who need relief but also the total number—many of whom do not need relief—desiring work.

Climaxing weeks of organization for the voluntary census of the unemployed, President Roosevelt appealed in his radio address for the support of all interested in finding a "permanent cure" for unemployment.

Results of the census probably will be known in late December after being checked by a special canvass on 1,800 scattered mail routes as an accuracy test. They will form the basis not only for future relief action by congress but also for efforts by government and business to create new work on a permanent basis.

**Mayors Study Costs**

The conference of mayors, meeting here, studied relief costs in the light of a forecast by Mayor Fiorello La Guardia of New York that "we will have to ask for a deficiency appropri-

### THIEVES RANSACK ROSE GROCERY IN HUNT FOR MONEY

Thieves some time last night broke into the Rose grocery store, 201 West Jackson boulevard, and made off with about \$30 in silver, a .38 calibre Colt automatic pistol, and two cartons of cigarettes. A fire-proof money box, containing all the store's credit accounts, was recovered this morning behind the Advent Christian church, its contents undisturbed. The church is across the street from the store.

Entrance to the store was gained, city police say, by use of a glass-cutter on the front door, after which the thieves reached in and unlocked the night latch and opened the door.

Shelves, stocked with canned goods, were ransacked in search of hidden money bags. One bag containing \$5.50 was discovered under the counter and another, holding about \$28.50, was stolen from a back room where it was hidden under some aprons, according to city police.

The robbery was discovered about 7 o'clock this morning by an unidentified man who found the door broken and called city police.

Charles Wortman, manager of the store, stated that the fire-proof money box had been opened but none of the credit accounts stolen. He said the shelves were considerably disarranged but believed that no canned goods had been stolen.

The robbers left no clues, city police said.

### SEA FOODS FEATURED AT NEW LUNCH ROOM

The Merchant's Lunch at 130 East Main Street has been opened under management of Jack Webber. It was formerly known as the 5 & 10 grill. The premises have been entirely redecorated, black and white being the attractive color scheme. Sea foods will be a specialty.

**First On Land, Too**

**OMAHA, Neb.**—(P)—President William M. Jeffers is proud of the Union Pacific's nurse-stewardess service. He boasted recently 54 children under two years traveled on one U. P. train at the same time. "We don't have hostesses," he commented. "We assume tired business men can find their own relaxation."

**Traffic Study Required**

**RACINE, Wis.**—High school students of Racine have a new required subject—traffic safety. One period a week is devoted to the study of physical and mental characteristics of the driver; driver and pedestrian responsibilities; sound driving practices; social and economic value of the automobile, and how to drive.

**Closing Time for Too Late to Classify** Ads is 1:30 p. m.

### APOSTOLIC FAITH

42 North Front St.

The Rev. R. H. Crawford and the Rev. J. G. Robbins from our headquarters 6th and Burnside streets, Portland, Ore. will be here at the local church at 7:45 tonight Nov. 16. Come and hear a real live gospel message expounding the whole truth. The 24-piece orchestra with the Hammond electric organ leads the song service. Special singing, personal testimonies.
