

1937 FRUIT CROP UNUSUALLY CLEAN

PORTLAND, Nov. 19. — (AP) — The northwest fruit crop, virtually harvested by November 1, under generally favorable conditions, was "much cleaner" than usual, although considerable late damage from moths was brought on by a warm September, the U. S. department of agriculture said today.

Size was below average but the winter crop exceeded expectations. Walnut tonnage fell off because of blight and the filbert crop fulfilled expectations.

Apple production was indicated at 3,763,000 bushels in Oregon, or 500,000 under 1936, pears at 3,621,000, a decline of 100,000, cherries at 12,400 tons, a decline of 3,000, fresh prunes at 15,500 tons, an increase of 1,000, canning prunes at 21,000, a decline of 3,000, drying prunes at 4,500, a decline of 18,000 tons, walnuts at 2,200, an increase of 800 tons, filberts at 2,230, an increase of 500 tons.

WASHINGTON, Nov. 19. — (AP) — The bureau of agricultural economics said today reports from Buena Aires indicated that recent frosts had caused a 30,000,000-bushel damage to the Argentina wheat crop. The bureau estimated the prospective crop at 200,000,000 bushels.

How to Be a "Reg'lar" Fellow—Without Pills

There's a better way to get on the "regular" side than by overstimulating your intestines with cathartics. Give up the vest-pocket cures and eat a natural laxative food—Kellogg's All-Bran.

Instead of abusing your intestines, All-Bran supplies TWO things they need. First, it's a good source of vitamin "B"—the vitamin that tones up your intestinal tract. Second, All-Bran provides "bulk"—it absorbs water and softens like a sponge. This water-softened mass aids elimination. Eat this crunchy, toasted cereal with milk or cream and fruits—or in cooking. But however you eat it, use it regularly: eat two tablespoons of All-Bran and drink plenty of water. If you do this every day you can avoid common constipation and cathartics, too! Made by Kellogg in Battle Creek. At every grocer's.
