

THANKSGIVING DAY QUIETLY OBSERVED IN MEDFORD AREA

Reports from various quarters today showed that Thanksgiving was observed quietly and happily in Medford. No serious accidents marred the day and the public in general appeared to enjoy the holiday. The largest crowd in its history, about 500 couples, attended the annual firemen's charity ball in Oriental Gardens last night. A toy sum was realized for the fund used by the firemen in rebuilding and repairing old toys for distribution among poor children at Christmas. For the public's support, Chief Roy Elliott today expressed his appreciation. He said the large throng had a pleasant evening, the ball proving to be the most enjoyable ever held by the firemen. Senior high school football players and their partners, guests of the firemen, added to the festiveness of the occasion. At one time they gathered in the center of the ballroom floor and started a square dance which proved extremely popular, all the dancers falling into the spirit of the youthful celebrants. Roberta Hamilton, musician from Denver, Colo., was well received in a group of accordion numbers. Sixty persons took advantage of the holiday to see water lake in its winter regalia. The park attendance was about equally divided between Medford and Klamath Falls, headquarters here said. Of the park visitors 21 were primarily interested in skiing while the others were attracted by the scenery, rangers reported. The travelers were entertained by the antics of four bears which have been hanging around park headquarters, the rangers added.

SHE ALSO SKATES, but Sonja Henie, ice and movie artist, shows what the well-dressed woman skier will wear.

HARDY SNOWMEN WILL PLAY GOLF ON CRATER'S RIM

A weird game of golf will be played in the snow on the rim of Crater lake Sunday for a unusual reel of odd events. Members of the Rogue Snowmen will play the game on snowshoes, using balls painted black so that they can be seen against the white background. The lake itself, surrounded by trees traced in snow, will form the background for the unique setting. The game will be filmed by Paris Emory, Universal ace cameraman of Portland who frequently has brought national attention to Medford and the Rogue valley with his novel movies. Emory arrived here this morning, asked that something unusual be arranged for him to film at the lake Sunday, and departed out for Klamath Falls where he hoped to get some unusual pictures of ducks and geese. He will be back here Saturday night to pick up companions for the lake jaunt Sunday. A. H. Banwell, manager of the Jackson County Chamber of Commerce, got in touch immediately with Harold Larsen, president of the Rogue Snowmen. Together they cooked up the golf tourney. E. P. Leavitt, park superintendent, will accompany the group to the lake if he is in town. Mr. Banwell said if Mr. Leavitt is absent, John Doerr, Jr., park naturalist, will make the trip. It is expected that the freak game will attract many to the park.

GAY DECORATIONS MARK RETURN OF HOLIDAY SEASON

William Kennedy, 72, a bachelor living in a one-room weatherbeaten house on Stewart avenue about one-half mile south of Thomas road, was found dead at 11 o'clock this morning by a neighbor, A. D. Flannery, Deputy Coroner Herb Brown said death probably was caused by a heart attack, occurring probably late yesterday afternoon. He was lying, fully clothed in old overalls, near the bed in his cluttered cabin when Flannery discovered him. Flannery stated that he knocked at the door and when he received no answer, pushed it open. He then went across the road to the home of Ira M. Snyder, where he telephoned the state and city police. Flannery, who lives a short distance south of the Kennedy house, said he talked with the aged man yesterday afternoon about 4 o'clock and that he seemed perfectly well. The deputy coroner judged that, from the condition of the body, Kennedy had been dead since about 5 o'clock yesterday afternoon. Kennedy had lived alone for several years. According to records of the Jackson county relief committee, he has no known relatives. He was born in Clayton county, Iowa, June 19, 1865. The body is at the Peril funeral parlors. Louisiana's 48,000 square miles include 3,097 water and a greater mileage of navigable streams than any other state.

BACHELOR FOUND DEAD IN SHANTY ON STEWART AVE.

While Santa is at the chamber, the senior high school band and girls' glee club and drum corps will entertain the youngsters. Afterward the high school organizations will play at several downtown intersections. On December 15 the musical program will be repeated, with the junior high school band and girls' glee club and drum corps providing the music. On December 23 a program of Christmas carols will be broadcast over KMED from 4 to 4:30. The program is now being arranged by Mrs. Effie H. Kurtz. All merchants will be asked to cooperate by picking up the program on radios installed inside or just outside their stores, the chamber of commerce stated.

Thriller Publisher Murdered in Hotel

NEW YORK, Nov. 26.—(AP)—The death of Claude H. Kendall, who once published fictional "thrillers," furnished police with a real-life mystery today when medical examiners reported he had been slain. The editor, whose fully clothed body was found wrapped in a sheet on the floor of his 47-a-week hotel room yesterday morning, was beaten and kicked with such savagery, an autopsy showed, he suffered a hemorrhage which caused asphyxiation.

Ten Air Passengers Reported In Safety

HUDSON, Ont., Nov. 25.—(Canadian Press.)—The ten persons aboard a Starratt Airways plane, missing since Wednesday afternoon, were reported safe today at Dog Hole bay, south of Pickle lake.

UAW HEAD HINTS DRASTIC ACTION TO CLOSE PLANT

these days. We're going to go the limit in this strike. It makes no difference how far we have to go. Cost charged only about 200 of those now working were regular employees and said the others were "imported" and recruited by Ford dealers. The union planned to bring federal charges against Ford, under the Byrnes "anti-strike breaking law," if the practice were not discontinued, he added. Milton N. Johnson, plant manager, declared, however, all those working were regular employees of the company. "The only importations," he said, "are the union men out there on the picket line." His reference was to the members of other C. I. O. unions who helped swell the U. A. W. A.'s picket force.

U. S. COURT TERM HERE JANUARY 18

Term of United States district court here has been deferred from November 30 to January 18, Paul Hanlin, deputy marshal was notified today by Marshal J. T. Summerville of Portland. It was originally planned to hold a session here beginning next Tuesday. A grand jury will be impaneled to review pending cases when court convenes here January 18, Mr. Hanlin said. Several criminal cases in this jurisdiction, all from Klamath Falls, are awaiting grand jury action. Eight federal prisoners are now held in Jackson county jail here and their cases will be reviewed by the Medford grand jury, Mr. Hanlin stated.

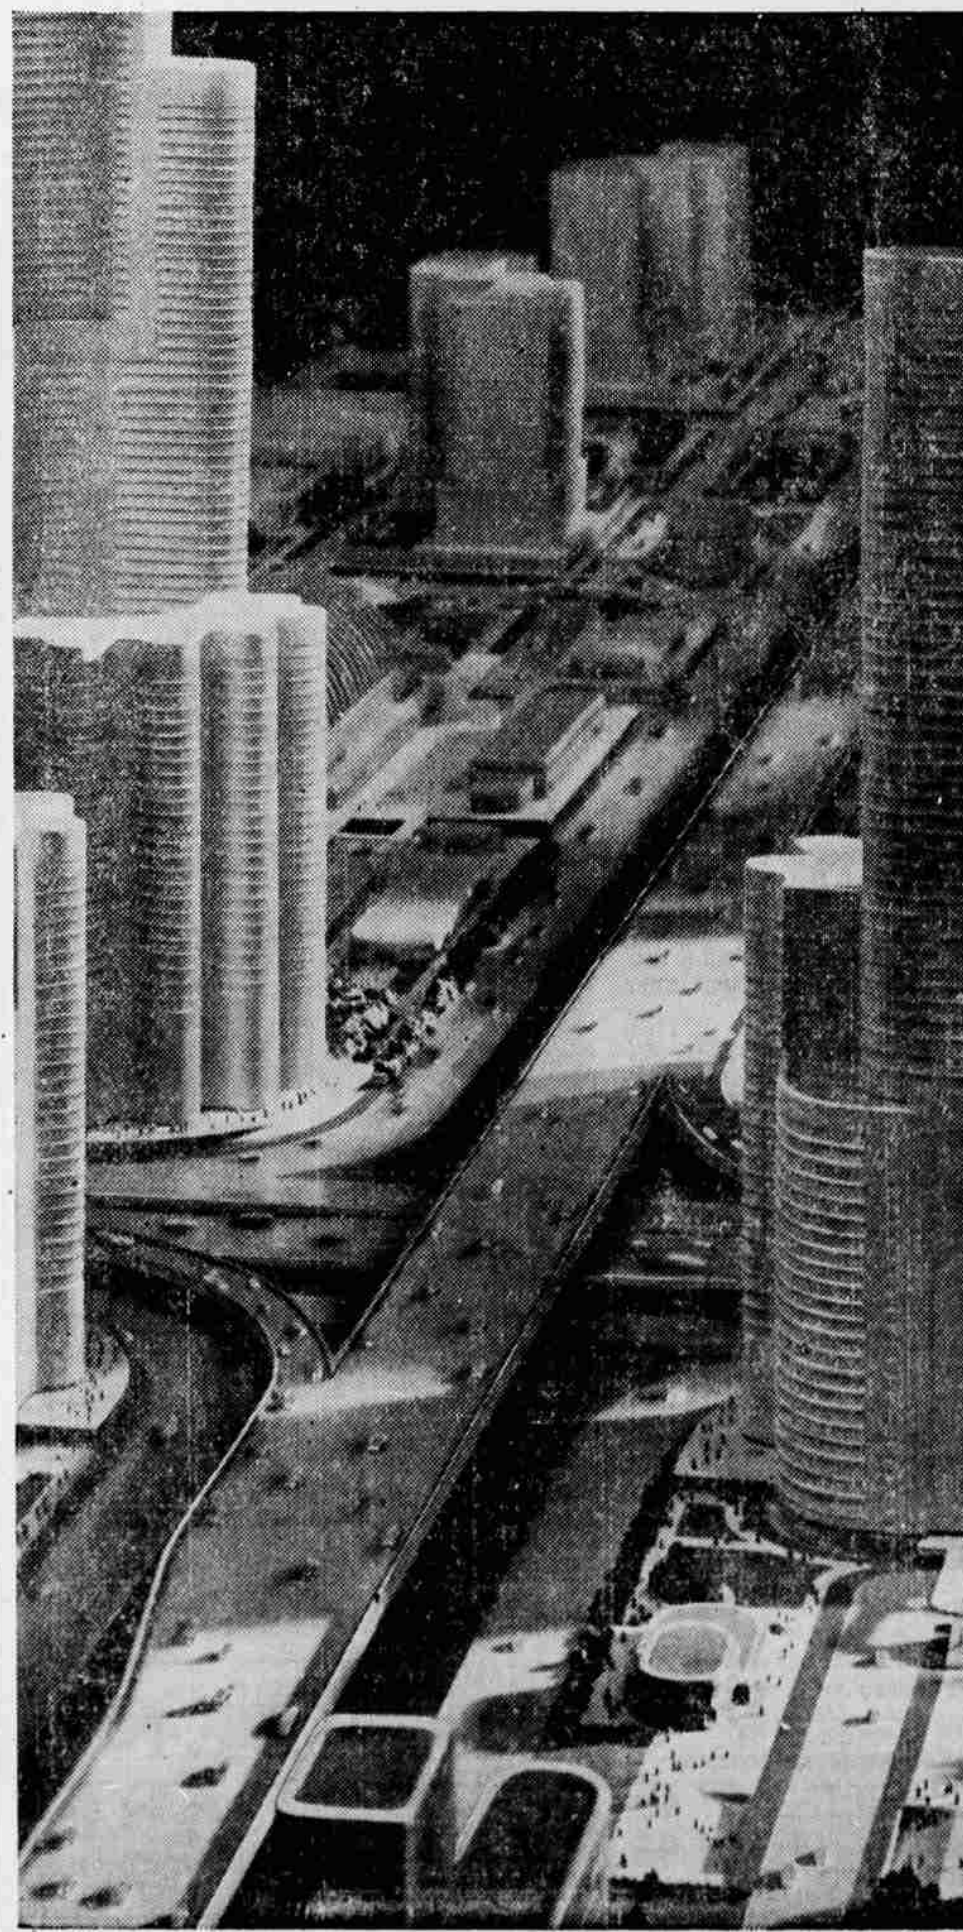

CLEAVER VICTIM ACCUSES WOMAN OF HACKING HIM

PORTLAND, Nov. 26.—(AP)—Severely chopped in 15 places about the head, hands and legs with a meat cleaver and left upon a bedroom floor for 10 hours, Frank Ellithorpe, 46, logging camp superintendent of Mason City, Wash., was found at dawn today by a neighbor who heard his moans. Detective Herman Horack, who questioned Ellithorpe before he lapsed into unconsciousness and was rushed to a hospital, said the man named a divorced woman whom he

Rain Halts War On Madrid Front

HENDAYE, Franco-Spanish frontier, Nov. 26.—(AP)—Cold, driving rain forestalled important operations today on Spain's Aragon and Madrid fronts. Communiqués of the embattled insurgent and government armies told of minor engagements in scattered sectors. Insurgents exploded another mine near the surgical building in University city, on the northwestern edge of Madrid, but failed to damage the government barricades. The greatest distance traveled by a ship on the south Atlantic coast was 300 miles, the journey being made in three months. Tagging of shrimp by the bureau of fisheries possible the calculation.

In the City of TOMORROW

you'll loaf along at 50-right through town

"Complete separation of traffic moving at three different speeds will end today's confusion in 'the City of Tomorrow,'" predicts Norman Bel Geddes, authority on future trends. "If you drive 10 blocks or more, you'll use Express Streets allowing speeds up to 50 miles an hour with no stoplights... no intersections... no pedestrians to slow you down. "For short trips, you'll use one-way Local Streets, made wider by the elevation of sidewalks... elimination of parked cars and loading trucks. Pedestrians will walk, shop and cross the streets at the second-story level. Trucking and parking facilities will be inside buildings..."

...but TODAY, 4 miles in 5 are Stop and Go

TRAFFIC STOPS are not only annoying... they waste money because they waste gasoline! The 30 stops you average every day, everywhere you drive, can waste enough gasoline to drive you ten miles! Today's stop and go is the COSTLIEST kind of driving! While traffic authorities are planning "the City of Tomorrow," Shell engineers have developed a fuel... Super-Shell, to meet today's driving problem TODAY. They have found a way to rearrange the chemical structure of gasoline... actually to balance it. Automotive engineers describe Super-Shell as "motor-digestible" because at all motor speeds, it is converted so QUICKLY, so COMPLETELY into power. Your regular use of Super-Shell will save on stop-and-go driving. There is a Shell dealer in your neighborhood.
