Diesel Training—Diesel engineering is now taught in two schools maintained by the United States navy. It was pointed out today by Ernest M. West, navy recruiter here, in announcing he was still receiving applications for enlistment at his office in the federal building. The schools, he explained, were established because of the increasing use made of Diesel power by the navy which now is one of the nation's largest operators of Diesel equipment. Many navy ships have Diesel engines for auxiliary electric power, ship's boats are having their gasoline engines replaced with Diesels and boats of all new ships are being Diesel-powered to start with, Mr. West stated. Main drive engines and auxiliaries of submarines also are Diesels, he added. Qualified recruits, Mr. West stated, may be assigned to the schools of Diesel engineering if they so desire.

Wail St. Report

NEW YORK, Nov. 30.—(AP) Stocks brushed up a sizeable rally on relatively light buying, in today's market.

Leading issues pushed up one to three points at the best with a few volatile performers executing wider swings.

Steels were well out in front throughout, and copper, rails, farm implements, electrical equipments, chemicals and building stocks had their moment in the limelight.

Profit selling was well absorbed the greater part of the time, but offerings were not so well taken in the final hour, and closing prices were down from their tops in most cases.

The ticker tape leaped from the start, transfers approximating 1,300,000 shares.

There was little speculation in spot news, but trading contingents were inclined to interpret signs from Washington and elsewhere as indicating a turn-about in the downward trade slant was not far away.

GRIFFITH PLEDGES CONTINUED AID IN RELIEF PROBLEMS

Mr. Griffith pointed to the Medford municipal airport as one of the worthy WPA projects in this county. He said it was a major airport and "we want to help in its development in the future as we have in the past."

Mr. Griffith said, an effort is being made to find a way to allot funds for materials needed to widen the airport runway to standard requirements. He prophesied also that Medford would receive a "substantial" allotment if the present session of congress passes a bill providing for a separate fund for materials and equipment for airport developments. Regardless of the outcome of the bill, however, Medford "can count upon our hearty cooperation," he said.

Mr. Griffith cited statistics showing the useful and permanent work accomplished under the WPA. One incident he stressed was the reduction of illiteracy in the United States by 18 per cent, he termed this an astonishing accomplishment.

Mr. Griffith was accompanied by several aides who were introduced by Father Bartlan. They were Ivan E. Oakes, his deputy administrator, Kenneth A. Berry, senior engineer, Frank E. Thompson, Medford resident engineer, and Victor E. Baird, supervising timekeeper for this area.

Mr. Griffith announced that he and his assistants would inspect several local projects this afternoon, including the airport.

Others introduced were Mayor C. C. Furnas, H. S. Deuel, vice mayor, George W. Porter, former mayor, Glen Arnsperger, chamber president, E. P. Leavitt, superintendent of water lake, Kenneth A. Berry, senior engineer, Ben Harder, former chamber president, Fred W. Scheffel, city superintendent, Thomas A. Culbertson, Jr., president of Medford chapter of the National Aeronautic association, Max Peirce, former president, and Mr. Heath.

TRANSIENT IS HELD IN BRUTAL KILLING OF UMATILLA GIRL

OGDEN, Utah, Nov. 30.—(AP)—Charged with the brutal killing of an Oregon young woman during a drinking party, a 26-year-old transient was lodged in Ogden city jail today.

The man gave the name Eddie Todd, but Chief of Police Dewey F. Hawkins said two men arrested with him declared he was Wilson Young. Young is charged in an Oregon warrant with killing Mrs. Katherine Thomas, 24-year-old Umatilla Indian, in a rooming house at La Grande, Ore.

LA GRANDE, Ore., Nov. 30.—(AP)—Wilson Young was gamed here November 3 by a coroner's jury as having inflicted injuries to Mrs. Katherine Thomas, 24-year-old Indian woman, that caused her death. The injury, testimony at the inquest conducted by Coroner L. L. Snodgrass brought out, occurred in a local rooming house October 17. Mrs. Thomas dying the morning of November 2.

Testimony at the inquest was that Young, his brother, Norman Young, and Jack Schofer, all white men, were in the rooming house in which Mrs. Thomas and an Indian companion, Lillian Allen, were staying. Mrs. Allen testified that all members of the group had been drinking and that Wilson Young struck her and that when she regained consciousness Mrs. Thomas told her Wilson "trampled on me."

The three men, according to Roy Johnson, manager of the rooming house, were last seen here a short time after the injuring of Mrs. Thomas.
