FOREIGN SELLING U. S. SECURITIES ALDRICH'S FEAR
CHASE BANK WARNS OF ANOTHER PRICE BREAK
BRITISH INVESTORS SEEN NERVOUS OVER U. S. PROSPECT
FEDERAL AGENCIES SEE NO FOREIGN DUMPING

WASHINGTON, Dec. 2.—Winthrop W. Aldrich, chairman of the board of the Chase National bank, is warning friends in Wall Street that the stock market may take another setback, this time from foreign selling. Foreign investors have hung on to their American securities thus far, but Mr. Aldrich fears that they may grow nervous and dump them.

According to those who have talked to him, he now reports that these men are showing the first signs of wavering in regard to their American holdings. Hitherto, British and other foreign business men have always considered American business men hysterical alarmists in their estimates of the future. But now, apparently, the British are beginning to change their minds, and are playing with the thought of pulling out of the American market. If they do, it will be pretty serious, since the holdings of the British tourists alone, as of today, amount to nearly \$500,000,000.

It must be added that the securities and exchange commission, the treasury, and the department of commerce here all fully disagree with Mr. Aldrich. They maintain very firmly that for the present, at least, the threat of foreign selling is a meaningless bogeyman.

At the SEC and the treasury, where the doings of foreign investors are minutely watched, the experts report that, since September, foreign buying has slightly exceeded selling. And they see no reason for a change in the trend. Representatives of the British investment trusts were here recently to find out how new American taxes would affect them. The treasury worked hard to get their plans in regard to their American holdings, and came out pretty well convinced there would be no dumping.

An interesting sign of the times is the denunciation of securities dealers to which the President has recently treated more than one business visitor. One of the great business minds who came to Washington to talk depression at the White

218TH SIGNATURE GOES ON PETITION TO FORCE BALLOT

Mansfield of Texas Completes Signing—McNary Seeks to Send Farm Bill Back to Senate Committee

WASHINGTON, Dec. 2.—(AP)—The house leadership broke the prolonged deadlock over wages and hours legislation today when the 218th member signed a petition to force a vote on the measure by mid-December.

Representative Mansfield (D. Tex.) rolled up on his wheeled chair to be final signer, amid a roar of cheers. Just before Mansfield put down his name, Representative Smith (D. W. Va.) had jotted down his signature—number 217.

They were preceded by Representative Conroy (D. Mass.), brother of the late William B. Conroy, co-author of the wage-hour bill; Kenneth Gambrell and Goldborough, all Maryland Democrats; and Champion, and Meeks, Illinois Democrats.

Investigation Demanded
Before the 218th signature went on the petition the house heard a Republican demand for investigation of statements by backers of the administration's wage and hours bill "swapped everything but the capitol" to insure a vote on the measure at the special session.

In the senate, Senator McNary, Oregon, the Republican leader, sought to send back to the agriculture committee the farm bill, now being debated.

He asked its revision in the light of letters from Secretary Wallace criticizing the bill's present form, and statements made by President Roosevelt.

ELEANOR'S ESCAPADES CITED BY HUSBAND IN DIVORCE APPLICATION

LOS ANGELES, Dec. 2.—(AP)—The marital difficulties of the Arthur L. Jarrett suddenly came to a head today when the orchestra leader filed suit for divorce from Eleanor Holm, former Olympic swimmer.

The complaint covered the entire picture of his actress wife's public activities from the time she was kicked out of the Olympic team after a champagne party en route to Berlin.

Billy Rose, theatrical manager and present third party in the case was not named.

The singer and orchestra leader charged his wife's conduct "with another man" has caused him to be "held up to public scorn and contempt" and that his professional standing also has been injured.

Jarrett charged his wife has been the constant companion of "the other man" and has permitted her name to be linked romantically with his.

Rose, husband of Pannik Brice, actress, recently announced he and Miss Holm would be married once their current marital ties were cut.

Evade Pursuers.
Japanese said the Chinese planes operated at a height of 10,000 feet, successfully evading pursuit craft.

They declare, however, that in an air battle near or over Nanking six Japanese planes shot down 13 of China's new soviet-built airplanes.

China was said to be massing a fleet of 300 Russian-built warplanes for a renewal of aerial attacks on Japan's advancing armies.

GANGSTERS USED IN LABOR STRIFE SAYS UNION HEAD

CIO Organizer Names Two in Coroner's Inquest Into Slaying of Minneapolis A.F.L. Union Chieftain

MINNEAPOLIS, Dec. 2.—(AP)—Testifying at the inquest into the death of Patrick J. Corcoran, union head, William Mauseth, organizer for the Committee for Industrial Organization, today named Joe Bellini and Al Froto, both formerly of Chicago, as the men who threatened to "rub out" him and a co-worker if they did not "play ball" with them.

Mauseth followed Bellini and Al Froto as witnesses on the stand. Mauseth, prior to the inquest, had charged "gangsterism" and "racketeering" in the Minneapolis labor movement.

Mauseth testified also Bellini and Froto had told him and Hilliard Smith, another CIO organizer they "had the inside track with police" and cautioned them not to report the incident.

Accused AFL
A charge that the American Federation of Labor had used gangsters in inter-union warfare led the coroner's jury along a new path in its inquest into the death of Corcoran, AFL leader who was slain two weeks ago.

Harold Bean, leader in the AFL carpenter's union, testified yesterday that "gunmen, thugs and gangsters" had men "employed" by AFL officials "for the purpose of smashing the general drivers union" or compelling it to affiliate with the AFL.

PORTLAND, Dec. 2.—(AP)—Edwin S. Booth, 35, of Roseburg pleaded guilty today before Federal Judge James A. Poe to charges of embezzling more than \$18,000 from the Douglas National bank.

Carl Donahugh, United States attorney, said the Roseburg man had been indicted on 21 counts charging embezzlement, falsification of records and false reports to government bank officials.

Dexter Rice, one of the ex-banker's attorneys, told Judge Poe Booth had a review of the circumstances.

EARL FEHL BALKS EXAMINATION BY ALIENIST STEINER

Dr. R. Lee Steiner, noted alienist and former superintendent of the Oregon state hospital, will be permitted to testify in the insanity proceedings against Earl H. Fehl, former Jackson county judge. A stipulation to this end was reached by counsel and court this noon, when Attorney E. E. Kelly, counsel for complainant, renewed his request that Dr. Steiner be permitted to examine Fehl. The request was declined by Fehl this morning.

It was agreed that Dr. Steiner could give testimony based on his observations while Fehl is on the witness stand, either late this afternoon or tomorrow morning.

Earl H. Fehl, former county judge of Jackson county, and defendant in insanity proceedings underway in circuit court, declined this morning to accede, as requested by counsel for complainant, to an examination into his mental condition by Dr. R. Lee Steiner of Salem, alienist and former superintendent of the Oregon state hospital.

At the opening of the session, the court was informed, Dr. Steiner had been called as an expert witness, but desired to "make personal observations of Fehl before testifying. The request was made by Attorney E. E. Kelly, counsel for his brother, Fred W. Kelly, who signed the insanity complaint against Fehl.

Attorney Porter J. Neff, counsel for Fehl advised the court: "It is a matter for Fehl to decide."

PORTLAND PEACE OUTLOOK GLOOMY

PORTLAND, Dec. 2.—(AP)—The A.F.L. policy committee declared today there was "nothing to warrant optimistic statements" in an attempt by David Robinson, one-man arbitration board, to end the jurisdictional struggle which has closed axmillas more than three months.

The statement "deplored" implications that a joint A.F.L. and C.I.O. committee, meeting with Robinson, had made definite progress. Robinson had said, "we have something on paper."

"It is our hope that acceptable terms of settlement may be devised by the committee," the statement said, more optimistically.

Robinson refused to comment.

STUDENTS SEEKING CALLISON'S SCALP FORM 'CCCC' CLUB

Organization Plans to Circulate Petitions—To Boycott Fee Collection if Head Coach Reappointed

EUGENE, Ore., Dec. 2.—(AP) Seeking to force the resignation of Prince G. Callison as head football coach at the University of Oregon, a group of students on the university campus today announced organization of the "CCCC" club—meaning "Can Coach Callison Club."

The club announced its purpose was to gain support of university students in a move to force Callison to relinquish his post. Preliminary plans are to circulate petitions on the campus and then—if Callison is reappointed coach for 1938-1939—seek to force action by boycotting collection of student body activity fees next fall.

Ed Luckey, Eugene, was said to be leader of the move.

As usual at this time of year there have been rumors that the "Wolves" were after Coach Callison. University alumni officials report, however, that there have been few complaints from the alumni.

The Oregon team had a mediocre season, winning two and losing five Pacific Coast conference games. The team was noted for its colorful and daring maneuvers, however, and scored on every team in the league except Washington and California. The Webfoots finished the season ahead of Southern California and UCLA in the conference standings.

The club announced it favored the retention of Gene Shinkle, line coach, and Mike Mikulak, backfield assistant.

CHAMPION STEER BRINGS \$2.35 LB.

CHICAGO, Dec. 2.—(AP)—Ashbourne Orange, grand champion steer, of the 38th International Livestock exposition, sold at auction today for \$235 a pound, 85 cents less than the price paid for the last three kings of cattle, Wilson and Co. bought it for the Palmer House, Chicago.

Oklahoma A. and M. college, which exhibited the grand champion, will receive \$2,608.50 for the steer, which weighed 1,110 pounds at the sale. He weighed 1,115 pounds when placed on the beef show Tuesday by Judge Alexander Ritchie, of Windsor, England.

The highest price ever paid for a steer was the \$525 a pound which Lucky Strike, the 1929 champion, brought.

War Togo Domino, reserve grand champ from the Wyoming Hereford ranch at Cheyenne, sold for 60 cents a pound, 10 cents below the price paid last year.

COMPROMISE ENDS BUS LINE STRIKE; GRANT PAY BOOST

CLEVELAND, Dec. 2.—(AP)—Nine Greyhound bus lines resumed normal operations in 16 states today—a compromise agreement negotiated by a federal labor conciliator, ending a strike of drivers called by the Brotherhood of Railroad Trainmen.

John L. Conner, the federal labor conciliator who flew here from Washington when the strike was called Thanksgiving day, announced the settlement reached last night was "satisfactory to both parties."

Conner said that under the terms of the agreement, the companies granted wage increases but refused B. R. T. demands for a closed shop.

All terms of the contract become effective immediately with the exception of an increase of one-fourth of a cent per mile wage increase for all drivers, which becomes effective July 1, 1938.

Ivan Bowen, counsel for the Greyhound companies, said the agreement to all intents and purposes, wiped out the company ultimatum that striking drivers must have returned to work by noon yesterday to be considered still in the employ of the companies.

"All drivers are recognized now as during and before the strike, as Greyhound employees," Bowen said. "That is tantamount to no discrimination."

Small Inexpensive Autos Hold Favor of Engineers

CAMBRIDGE, Mass., Dec. 2.—(AP)—Out of a Massachusetts Institute of Technology survey of engineers today came the opinion of one that "the small, inexpensive car outperforms the larger and more expensive model."

The technology review, published at M. I. T., printed this as one part of a canvass of opinions from 90 scientists and engineers in New England. The technicians were promised anonymity.

Their views on the economy, control, safety, comfort, style and engineering of modern automobiles, indicated a demand for cars with less frills, more engineering stamina and lower cost.

"The principal changes in automobiles in recent years" one of the engineers replied, "have been in cars of the lowest priced class, which in general have been supplied with motors giving them the highest horse-
