218TH SIGNATURE GOES ON PETITION TO FORCE BALLOT

(Continued from Page One)

Resolution was read in the house. Majority Leader Rayburn (D. Tex.) asked that it be tabled but Representative Fish (R. N. Y.) objected and forced a roll call. The vote to table was 281 to 94.

Signer Congratulated
After the petition was completed, Chairman Norton (D. N. J.) of the labor committee and other backers of the bill pressed up to shake the hand of Mansfield, who for many years has been forced by illness to use a wheel chair.

It was minutes before the house calmed down.

Representative Healey (D. Mass.) chairman of an informal committee backing the petition, said it appeared certain the provisions for a five-man administration board in the pending bill would be eliminated by amendment on the floor.

He said the labor committee would request administration of the proposed law by a single administrator in the labor department.

"It is difficult to say whether mandatory wage and hour standards can be written into the measure," Healey added, "but we hope later that we'll reach the objective desired."

1000 CIVILIANS KILLED, WOUNDED IN JAP AIR RAID

(Continued from Page One)

Foreign naval officers said Chinese bombers raided the Japanese airfield at Wosung, down the Whangpoo river from Shanghai. Japanese declined to comment on the report.

Twenty new twin-engine bombers arrived at Hankow, 300 miles up the Yangtze river from Nanking, and were being tuned up by Chinese pilots, well informed and reliable foreigners reported. The remainder of the fleet of 300 soviet-built craft were said to be either at Sian, 400 miles north and west of Hankow, or on their way from Russia.

HANKOW, Dec. 2.—(AP)—It was authoritatively reported today that Germany had offered to negotiate Japanese-Chinese peace through Oscar P. Trautmann, her ambassador to China.

Trautmann was in Nanking conferring with Generalissimo Chiang Kai-Shek, head of the central Chinese government.

The terms of the German offer, it was said, included China's participation in the German-Italian-Japanese anti-communist pact, withdrawal of Japanese troops from China and assurance by Japan that she does not seek territory in North China, but only economic co-operation.

Wall St. Report

NEW YORK, Dec. 2.—(AP)—Buying in steel touched off a last-minute rally in today's stock market.

The related recovery reduced early losses running to more than 2 points and put many leaders, including a number of "blue chips" up 1 to 3 points. For a brief space the ticker tape fell behind floor transactions. The pace slowed at the finish.

While stimulating qualities market-wise, brokers said speculative forces stepped in during the final hour on the theory a rebound was in the cards because of the recent lengthy setback.

Steels were buoyed by the appearance of new orders from widely separated lines that have been holding back. Observers also voiced the opinion mill operations may now be around low levels with a probable upturn in the next month. Transfers approximated 1,000,000 shares.
