

### JUDGE IS SPECIALIST IN TRAFFIC LECTURES

ST. LOUIS (P)—A ten-minute educational lecture goes with the fine assessed traffic violators by City Judge E. M. Ruddy.

First offenders often are released with just the lecture.

"Most humans are prone to lay the responsibility upon the other fellow," he tells the violators, "but bear in mind you are the other fellow to the other motorist."

Judge Ruddy estimates he will deliver 50,000 "lectures" the next year.

### Livestock

**A Muffin a Day Keeps Cathartics Away**

If you suffer from common constipation here's good news for you. One good-sized muffin every day, made with Kellogg's All-Bran will keep you "REGULAR."

All-Bran puts two of Nature's own laxatives back in your diet. Instead of over-stimulating your intestines, it gives them things they need. First, "bulk"—All-Bran absorbs water and softens like a sponge. This water-softened mass aids elimination. Second, vitamin "B"—the amazing vitamin that tones up your intestinal tract.

Kellogg's All-Bran is a crunchy, toasted cereal. Eat it with milk or cream and fruits—or in muffins. But however you eat it, use it REGULARLY: eat two table-spoons of All-Bran and drink plenty of water. If you do this every day you can avoid common constipation and cathartics. Too! Every grocer sells All-Bran. Made by Kellogg in Battle Creek.

READ WHAT PROFESSOR F. B. MORRISON, HEAD OF THE ANIMAL HUSBANDRY DEPARTMENT AT CORNELL UNIVERSITY, HAS TO SAY REGARDING COTTONSEED MEAL:

"The protein of cottonseed meal is of good quality to supplement the cereal grains in feeding cattle, sheep, swine and poultry."

"Cottonseed meal is one of the richest feeds in phosphorus and is therefore valuable for dairy cows, supplying needed phosphorus mineral."

"Cottonseed meal tends to produce hard body fat and also milk fat of a high-melting point. Cottonseed meal or cake is used more extensively for cattle than any of the other protein supplements. Cottonseed meal may also be used satisfactorily in a concentrate mixture for calves."

"Cottonseed meal is one of the most widely used protein supplements for dairy cows. When cottonseed meal is added to a ration deficient in protein, each 100 lbs. will usually equal in value 250 to 300 lbs. of corn or other grain, provided that no more cottonseed meal is fed than is needed to balance the ration."
