**SEEK DISSOLUTION TREE PULLING BAN**

An answer to the amended complaint of Thomas L. Taylor against the state department of agriculture, County Agent Robert G. Fowler and Fruit Inspector Howard Warner, filed in circuit court, seeks dissolution of the temporary restraining order prohibiting the removal of asserted diseased or insect infested trees on the Taylor orchard.

The answer holds that the county agent and fruit inspector acted under their constituted authority last December when they removed a number of trees. It is also claimed that Taylor, given written notice "to abate the nuisance, neglected, felled and refused to do so."

Taylor procured a temporary restraining order last January against the county agent.

The state attorney general and District Attorney F. J. Newman are acting as counsel for the officials. Attorney Gus Newbury represents Taylor.

**HELP 15 MILES OF KIDNEY TUBES**

To Flush out Acids and Other Poisonous Waste

Doctors say your kidneys contain 15 miles of tiny tubes or filters which help to purify the blood and keep you healthy. Most people pass about 2 pints a day or about 3 pounds of waste.

Frequent or scanty passages with smarting and burning shows there may be something wrong with your kidneys or bladder.

An excess of acids or poisons in your blood, when due to functional kidney disorders, may be the beginning of nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nightly, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait! Ask your druggist for Deane's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Deane's Pills.
