Wall St. Report

NEW YORK, May 17. (AP) - Rallying signs appeared here and there in today's stock market, but buying support was feeble at the best. Volume stepped up a bit over yesterday's diminutive aggregate, although the pace never attained any real speed. Transfers approximated 500,000 shares.

Early nibbling at the aircraft was followed by improvement in selected steels, motors, gold mines, utilities and specialties. Most leaders swung in a minor fractional range through out and gains or losses of more than a point were scarce.

OSTEOPATHS HEAR PAPER BY HOWARD

Regular monthly meeting of the Southern Oregon Osteopathic association was held at the home of Drs. Eva and Frank Carroll Monday night. Dr. W. W. Howard was principal speaker, presenting a paper dealing with diagnosis and treatment of "minor psychoses." He brought out during his talk the importance of neck injuries as the causative factor in psychoses.

Manipulative therapy, according to Dr. Howard, in many instances corrects this condition. Following presentation of his paper a number of case histories were discussed relative to the subject of the meeting.

Next monthly meeting will be at the home of Dr. Crandall in Ashland, at which time delegates who will have attended the convention of the Oregon Osteopathic association in La Grande, June 13-14, will give a resume of the convention program.

Following the meeting refreshments were served by the hostess.

KUBLI QUESTIONS LEGALITY OF FISH SCREENING ORDER

Constitutionality of the Oregon law, providing for the installation of fish screens in irrigation ditches for the protection of fish life, is attacked in the answer of E. W. Kubli, Appellate district farmer, to the suit of the Oregon state game commission against him for failure to maintain a fish screen in the "Kubli Ditch," constructed in 1887, and still providing irrigation water for the Maude Kubli, and four other adjoining farms. Kubli asserts in the answer the game commission order directing him to install a fish screen is "discriminatory, capricious, inequitable and unjust," and contrary to both the federal and state constitutions. Kubli further claims the Jackson county watermaster ordered removal of the fish screen, because it became clogged by debris from the Applegate river, and prevented a proper flow of irrigation water; that the Big Applegate river has insufficient fish to be designated as a fishing stream, and placing milling operations cause the river to be filled with silt, and unless care is used, will damage the irrigation ditch. It is also asserted the use of fish screens is impractical on his place. Kubli also asks that the game commission be "forever enjoined" from ordering the installing of a fish screen in the "Kubli Ditch."

Fourteen Stars Rialto Wednesday

Opposite him are Penny Singleton, Bert Gordon (the mad Russian of Eddie Cantor's radio program) and Ruth Coleman. NEW DEAL LIBERALS MOST INTOLERANT IS LANDON'S ASSERTION

CHICAGO, May 17. (AP) - Alf M. Landon, Republican presidential candidate in 1936, asserted in a prepared speech today that "none of us, of this generation, has seen a group so intolerant of the views and beliefs of others as are the so-called New Deal liberals." "Only a few weeks ago," he told the Inland Daily Press association, "Senator Minton (D-Ind.) introduced a measure which is a dire threat to the press. Mr. Minton, it seems, would set up a censorship of newspapers and other publications. A great many people are apt to be misled by the apparent fairness of the proposal. The senator has pointed his bill at those who knowingly publish as fact anything which they know to be false. It would, nevertheless, provide a censorship. "A press, operating under such a law, would cease to be free. Certainly, it could not fairly give both sides of a question if one side happens to represent the views of the federal government or government officials." "I cannot believe," he averred, "that congress will even take the Minton bill seriously. The dangerous thing about the measure is that it reflects an attitude now prevalent. Apparently it reflects the New Deal attitude toward the press of the country, and I'm afraid it may reflect the president's attitude. The president's views, have, no doubt, encouraged Senator Minton and others."

VATICAN FORMALLY RECOGNIZES FRANCO

VATICAN CITY, May 17. (UP) - The Vatican today formally recognized Generalissimo Francisco Franco's nationalist regime as the legal government of Spain when Pope Pius XI, from his summer residence at Castel Gandolfo, raised to the rank of nuncio his apostolic delegate to Franco's headquarters at Burgos. Simultaneously the Burgos regime announced appointment of Don Jose De Yanguas y Messia, viscount of Santa Clara and Avedillo, as Franco's ambassador to the Holy See. The new apostolic nuncio to Burgos is Monsignor Gaetano Ciccognani, the pontiff's former nuncio to Austria. De facto recognition was established several months ago.
