REPORTS OF POLITICS IN PENNSYLVANIA SUPPRESSED  
HOPKINS DENIES CHARGES AFTER CLEANUP DECISION  
WPA CHIEF'S REVERSAL LAID TO HIGH INFLUENCE  
SELF-EXCULPATION IS BEGUN IN KENTUCKY

WASHINGTON, June 2.—An honest admission of the disquieting political quality of Pennsylvania relief was suppressed, and an effort to correct the situation was prevented a few days before the Pennsylvania primary. Works Progress Administrator Harry L. Hopkins was personally determined to make a clean breast of it, but some higher influence prevailed.

The charge is ugly. Unfortunately, the facts cannot be wished away or ignored. They will be loudly denied, of course, both at the White House and the WPA, but the facts are:

Some time before the Pennsylvania voting, the anti-Guffeyite boss of Philadelphia, John B. Kelly, wired Hopkins protesting against political activity in the WPA. The WPA and Pennsylvania was and still is owned by Senator Joe Guffey, but before they quarreled with their satrap, the anti-Guffeyites had got a foothold in it. Guffey was therefore conducting a purge of the relief army.

Administrator Hopkins promised that he would investigate. The WPA's usual solemn hummer of self-inquisition was started. But, this time, it produced a new result. Either conditions previously unknown to Hopkins were discovered, or Hopkins simply decided to seize the op-

**SEATTLE FACES LOSS OF LINE TO ORIENT**

SEATTLE, June 2.—(UP)—Business and civic leaders will meet late tomorrow in an attempt to keep the Oriental line from the end of this month because the federal government has refused to extend the line's subsidy.

If the Oriental service is lost to the port, a payroll of a million dollars annually will be dissipated.

**PERMISSION GIVEN MISSIONARIES FOR RETURN TO POSTS**

Baptist Mission School in Chapei Returned Owners—Jap Committee Going To China For Study.

WASHINGTON, June 2.—(AP)—Japan agreed today to meet almost all demands for restitution of American property in China and for the right or unhindered return of Americans to their posts there.

The state department, on the basis of telegrams from the American consul general at Shanghai, announced that:

The Japanese restored to the American Southern Baptist mission yesterday their high school properties in the Chapei district of Shanghai.

The Japanese military authorities have agreed to the return of American missionaries to Nanking and have issued ten passes for this purpose.

Meanwhile Ambassador Grew at Tokyo was informed today by the Japanese foreign office that Japan was sending an "interdepartmental committee to visit the Japanese controlled area in central China not only to investigate the situation relating to the occupancy of American property but also to formulate means for satisfactory adjustment of the situation."

This announcement, said the state department, concerned the demand for restitution to the American owners of the University of Shanghai and of other American properties.

**MAYOR WIFE SLAIN BY STEP BROTHER**

THREE FORKS, Mont., June 2.—(UP)—The temporarily deranged step-brother of Mayor H. F. Kunze last night surrendered for the fatal shooting of the mayor and his wife. He was driven from his barricade home by an hour long barrage of tear gas.

The step-brother, John Kunze, about 50, shot the mayor and his wife last night as they stood in the front yard talking to a neighbor.

Ed Grose, the neighbor, said John Kunze walked by the mayor's home with the rifle and fired at Mrs. Kunze when the mayor asked him where he was going with the gun.

The bullet pierced Mrs. Kunze's heart and she fell. Meanwhile Mayor Kunze had ducked behind a tree, and the step-brother's next shot pierced his back, killing him instantly.

**HITLER'S GIRL FRIEND EXAMINED BY CZECHS**

PRAHA, Czechoslovakia, June 2.—(AP)—Czechoslovakia authorities explained today the five-hour detention of Miss Unity Freeman-Mitford, daughter of Lord Redesdale of England and a friend of Chancellor Adolf Hitler, was but a part of the routine inspection of all travelers passing through military defense zones.

Miss Freeman-Mitford was stopped yesterday when she drove through a military protection area en route to Karlebad.

Her companions were an American whose name was given as William F. Ruffin, of Chicago, a Sudeten German deputy in the Czechoslovak parliament named Wollner and an unnamed British journalist.

**MEDIATION IN SPAIN IS SEEN POSSIBILITY**

PARIS, June 2.—(AP)—The possibility of mediation by outside powers in the Spanish civil war was admitted today by Jose Aguirre, former president of the Basque republic, who arrived at Paris from Barcelona.

Aguirre, driven from his Basque homeland when the insurgents captured Bilbao and Santander last June and July, said he expected to have a statement on the matter "within five or six days."

**JAPANESE WAR PLANES SPREAD DESTRUCTION ON LUNGHAI RAILWAY**

SHANGHAI, June 2.—(AP)—Warplanes of the army of Nippon again spread a trail of destruction today through towns and villages along the Lunghai railway, and Japanese said this enabled their columns to make important gains.

The Japanese announced they had occupied a corner of Kihlsen, 20 miles north and east of Lanfeng, after an hour's fight. Chinese field gun positions north of Kihlsen were damaged heavily.

For two weeks the Japanese have been fighting for staunchly defended villages about Lanfeng, railway station on the Lunghai on the westward route to Chengchow, whence they hope to turn southward in a mass offensive against Hankow, China's provisional capital.

One Japanese detachment claimed occupation of Luyi, 15 miles west of Pohnsen, thereby helping to straighten the 75-mile crescent-shaped front running south from Lanfeng.

Supporting the land forces on this central China front, Japanese planes concentrated on towns back from the railway right of way about Lanfeng, where Chinese said they still were holding firm.

Capture by Chinese of three villages north and east of Lanfeng kept Japanese from lifting the siege of the division commanded by Lieutenant General Kenji Doihara, the defenders said.

**Klamath To Build New Grade School**

KLAMATH FALLS, June 2.—(AP)—The Klamath Falls city grade school board today completed negotiations for purchase of 12 acres of land at the southeast city limits with view to eventual construction of a new school building on the site.

Only school now serving the thickly populated residential district which the new property adjoins is the already crowded Mills school.

Purchase was made from Alfred Collier at a price of \$5000.

MARSHFIELD, June 2.—(AP)—L. A. Liljeqvist, 58, well-known Marshfield attorney, died of a heart attack today at a Palo Alto, Cal., hospital.

He was a member of the Associated Employers of Oregon and directed a Portland anti-vice campaign as a special prosecutor three years ago.

Liljeqvist, former member of the Calk & Calk law firm at Portland, was legal advisor to Gov. Charles H. Martin at the 1936 session of the legislature.

**BARKLEY STATES F. R. ATTITUDE ON UTILITY BUILDING**

Does Not Want To Construct Competing Plants Until Private Companies Given Sale Opportunity.

WASHINGTON, June 2.—(AP)—The senate killed today a proposal to prohibit PWA financing of municipal power systems which would compete with privately-owned plants. The action came shortly after the chamber had heard that President Roosevelt opposed writing the restriction into law.

The provision offered by the senate appropriations committee as an amendment to the three-billion-dollar relief bill, had been endorsed by spokesmen for private utilities.

NEW YORK, June 2.—(AP)—While they expressed a desire for clarification, utility circles generally looked with favor today on the declaration in the senate by Majority Leader Barkley that PWA power grants would not be made until municipalities had offered to buy existing private power facilities at a "fair and reasonable price."

WASHINGTON, June 2.—(AP)—Majority Leader Barkley told the senate today President Roosevelt did not want to use government funds for building public utility plants competing with privately-owned systems until private utilities have been given an opportunity to sell their holdings at "a reasonable price."

Barkley's statement came during senate debate on a proposal to forbid the use of PWA funds for constructing plants which would compete with privately-owned systems.

The restriction was recommended by the senate appropriations committee as an amendment to the administration's three-billion-dollar lending-spending measure.

If the restriction on PWA allotments is eliminated, Barkley asserted he was "authorized to say that the president would not allocate funds for building public systems unless municipalities have 'in good faith' made an offer to purchase the existing private plant."

Replying to a question by Senator Borah (R-Idaho), Barkley made it plain that the president would be the final judge of whether a municipality's offer to purchase a private plant was made in good faith and whether a reasonable price had been set.

**FRUIT INTERESTS WIN POINT IN NEW FOOD, DRUG BILL**

Section Permitting Producers To Seek Injunctions Against 'Unreasonable' Orders Is Retained.

WASHINGTON, June 2.—(AP)—A section of the food and drug bill permitting producers to seek injunctions against "unreasonable" orders of administrative officers was successfully defended yesterday by representatives of fruit growing areas, particularly apple districts.

The measure was passed by the house and returned to the senate for further action.

An amendment of Representative Mapes (R-Mich.) forcing relief through federal circuit courts of appeal instead of district courts was rejected.

Representative Leavy (D-Wash.) asserted such action would prevent a determination of facts, which would be possible in district courts. He said apple producers in Washington considered the present amount of arsenate of lead permitted to remain on fruit, 0.18 grain for each pound of apple, arbitrary and unreasonably low.

"Our contention," he declared, "is that nobody could possibly be injured by eating apples with even 10 to 15 times as much lead as that on them."

Leavy reiterated a previous assertion that administration of food and drug legislation should be transferred from the department of agriculture to the public health service "where they have a great staff of scientifically trained men."

**56 CCC CAMPS ON OREGON SCHEDULE**

WASHINGTON, June 2.—(AP)—Fifty-six CCC camps will operate in Oregon for the six months ending September 30. The assignments included:

Two camps will be located in Crater Lake park at Union Creek, and state park camps at Silverton, Glenora and Seaside.

**COLUMBIA FLOOD EBB IS PROMISED FARMERS**

PORTLAND, Ore., June 2.—(AP)—Southeast Island dairymen, seeking to stem the tide of the flood-swollen Columbia and Willamette rivers, are banking on the morning today placing sandbags and hay bale barricades to protect their safe dike.

Max M. Lyons, operator of a farm on the narrow 25-mile-long island said two sections of the dike fronting his place had been washed away until little more than six feet of soft mud held back the river.

Farmers found hope today in the government weather bureau's report the Columbia river at Vancouver and the Willamette river here would recede slowly during the next three days.

**Cardozo Will Quit In Autumn Is Claim**

NEW YORK, June 2.—(AP)—The New York Post says in a special dispatch from Washington that Supreme Court Justice Cardozo because of illness will not return to the court when it reconvenes in October after the summer recess.

Reached by telephone in Port Chester, N. Y., Justice Cardozo's secretary declined in his behalf to comment on the report, explaining that this silence was Mr. Cardozo's unfeeling custom.

**Infant Turkeys Learn To Eat By Pecking Marbles**

SALEM, Ore., June 2.—(AP)—Use of bright-colored marbles, in teaching baby turkeys to eat, is one of the latest successful experiments at Oregon State college. Dan J. Fry, state purchasing agent, announced here today.

Fry said the experiment had been tried at the Oregon State hospital here with satisfactory results. The original marble purchase for the hospital cost the state 10 cents.

The turkeys sight the marble, Fry said, their bill slips off the highly polished surface and they unconsciously pick up and swallow a small quantity of grain.

The grain, with a few of the highly colored marbles, is placed in a trough.

Prior to purchasing the marbles, Fry said a large number of baby turkeys died for want of food.

**Ex-Mayor Held In Jeweler's Murder**

TWIN FALLS, Idaho, June 2.—(AP)—Police Chief Howard Gillette said today that former Twin Falls Mayor Cudson M. Johnston was taken into custody for questioning in the slaying of jewelry salesman.

Olsen's body was found under a car in the rear seat of his automobile outside an exclusive Twin Falls hotel May 24.

"We arrested former Mayor Johnston this morning and are holding him for questioning in connection with the slaying of Olson," Chief Gillette said.

**Cardozo Will Quit In Autumn Is Claim**

ANNAPOLIS, Md., June 2.—(AP)—President Roosevelt, after causing waves of laughter to ripple through ranks of midshipmen, advised members of the 1938 naval academy graduating class today to know their country and its problems.

The president, speaking from the restaurant in Dahlgren hall, the academy armory, told the white-uniformed, brass-buttoned young officers that regardless of how they planned to spend their lives they should be "well rounded in your knowledge."

The president suggested this knowledge would come "by experiences of your daily life" and by "the opportunity constantly to widen your knowledge by your own individual efforts."

In telling a story about a difficult President Theodore Roosevelt with congress, the president quoted his predecessor as saying: "As every president has said at least once—first or last—I wish I could be just five minutes both president and congress, too."

**F. R. Advises Midshipmen To Know Their Country**

He brought laughter by telling how he went to sleep at another naval academy graduation when he was assistant secretary of the navy. After the president had told the graduates that "Your commander-in-chief is proud of you," he was presented with a quadrants—a nautical instrument—once owned by Commodore John Paul Jones, hero of the Revolutionary war.

The presentation was made by L. D. MacLaren, mayor of St. Johns, New Brunswick, who said the quadrants was a proud possession of his father.

The navy greeted its commander-in-chief with traditional military flourishes on his arrival to present diplomas to 435 graduating midshipmen.

Of the graduates, 385 became ensigns of the navy and 26 second lieutenants of the marine corps.

The class, which consisted of 605 midshipmen when it entered the academy in 1934, is the largest to graduate since 442 received their diplomas in 1934.

**C-C ON RECORD FOR PRESERVING UNDEFILED ROGUE**

Board of Directors Adopt Motion Stating Stand Against All Forms Of Pollution Scenic Stream.

Jackson County Chamber of Commerce was today definitely on record in favor of the protection of Rogue river from any form of pollution or discoloration as a means of conserving the area through which the stream flows, for its health, recreational and scenic values.

At a special meeting yesterday afternoon the board of directors, meeting with the fish and game committee, unanimously adopted a motion clearly stating its stand on conservation of the Rogue river territory.

It was indicated that the action was taken because of an assertedly proposed placer mining operation on the Rogue river in the Prospect-Woodruff Meadows area.

Destruction Seen  
A statement from the chamber of commerce today said such a mining venture "would destroy timber along the Crater Lake highway for which the United States forest service a short time ago paid more than \$300,000 in order to preserve scenic values." The chamber of commerce also foresees possibility of the destruction of the upper Rogue river as a recreational asset because of stream pollution from mud.

At its meeting yesterday the board of directors, after thorough discussion and without dissent, adopted the following motion:

"That the Jackson County Chamber of Commerce cooperate with the communities in Curry county and with Gold Beach and other communities interested in the protection of Rogue river from any form of pollution or stream discoloration to the end that the stream may be conserved in its natural and original condition of purity and clarity for the resulting recreational, scenic and healthful advantages to be so obtained; and that the Jackson County Chamber of Commerce so declare itself to other said interested communities, organizations and the press."

Motion Endorsed  
The motion was endorsed last night by the Jackson county planning commission.

The chamber of commerce did not elaborate on any knowledge it might have of proposed mining operations.

The fish and game committee reported to the board the results of two meetings held within the past fortnight, the first having been held at the request of mining interests to hear an address by J. E. Morrison, geologist of the state board of geology and mineral industry, on placer mining and its economic value on Rogue river and its tributaries.

The committee meeting, open to the public, was attended by mining operators and a delegation from Gold Beach, each group describing its problems. The Gold Beach group said that its city's principal asset, tourist trade, was being completely destroyed by a continual flow of mud from placer mines on the upper Rogue and its tributaries, according to the committee's report.

The second meeting reported by the committee yesterday was held to discuss the various arguments presented by the conflicting interests and to frame the committee's report to the directors.

The chamber's statement today said that "reports from health authorities that water in sections of Rogue river and other southern Oregon streams was unsafe, either for domestic use or for bathing, were stressed by the fish and game committee in its recommendation for a broad policy by the chamber of commerce for the future protection of the river from all detrimental causes."
