DRINK MIX CLUB VOICES PROTEST

KLAMATH FALLS, June 2.—(AP)—Claiming that the stipulated $1500 annual license fee was confiscatory and was intended as such, J. H. Carnahan, attorney for the Embassy, midtown "drink mixing" club, yesterday questioned the validity of a proposed city ordinance regulating establishments of that nature.

"An order that imposes a license tax so high that its main feature is to put a legitimate business out of running is void, and a court must issue an injunction against the ordinance," Carnahan stated. The attorney pointed out that the Eagles and Elks lodges, which serve drinks to members, pay no fees for that privilege."

James Pulver, owner of the Embassy, said his books would show a profit of only about $10 a day. He suggested $250 a year as a reasonable license fee.

AUTOIST SUFFERS INJURIES IN CRASH

Thomas Foster Armstrong, 20, of Marshfield is confined in Community hospital today with head and back injuries, sustained when the DeSoto roadster he was driving crashed into a machine parked in front of the Consolidated Freight Lines, Inc., office at 445 South Riverside avenue last night about 8:30, then jumped the curb and continued into a vacant lot for a distance of 126 feet. A passenger in the car, Louis Vance Stone, 24, who lives near Voorhies crossing on the South Pacific highway, escaped injury.

Armstrong's attending physician, Dr. W. G. Bishop, said this afternoon x-ray pictures would be taken to determine the extent and seriousness of his back injury. Armstrong also suffered a deep gash over his right eye and several body bruises and scratches. He was rushed to the hospital in the Perl ambulance.

State police, who were unable to immediately learn the cause of the accident, said Armstrong was driving north on South Riverside avenue and that he was thrown from the machine after it struck the parked car, owned by the freight company. Entire front end of the DeSoto was badly damaged where it hit the left rear wheel of the parked auto.

PRISON ROMANCE LEADS TO ALTAR

SALT LAKE CITY, June 2—(UP)—Honeymooning "somewhere in Idaho" today were a newlywed man and wife—each recently released from Utah state prison after serving sentences for mate-killing, the sheriff's office revealed.

The newlywed husband was paroled some time ago after serving five and a half years because he killed his wife in Ogden, Utah.

The newlywed wife completed May 1 a five-year term for killing her husband in Salt Lake City.

They were married here yesterday, the sheriff's office said. Deputies did not reveal the names of the couple.

"You can just say their romance budded behind bars," a deputy sheriff said.

ROOSEVELT'S DREAM AIDS AIRPORT PLAN FOR WASHINGTON, D. C.

Copyright 1938 by United Press

WASHINGTON, June 2.—(UP)—A dream by President Roosevelt of an impending airplane disaster at the old district airport has paved the way towards construction of a modern landing field for which capital residents have fought for 12 years, it was learned today.

Mr. Roosevelt related his vision to a group of high-ranking congressional leders during a White House conference and urged them to lose no time in assuring passage of a bill already approved by the senate to build a $10,000,000 airport at nearby Camp Springs, Md.

The chief executive told the conferees that one night—after the recent crash near Cleveland which took 10 lives—he dreamed that he got up from his bed and walked to a White House window and saw a terrible crash at the present airport.

After the conference, representatives of the house military affairs and public lands committee agreed to meet Friday to map plans for obtaining action on the bill during the present session.

WANT HARRISON AS CAMPAIGN LEADER

WASHINGTON, June 2.—(AP)—Several senate Democrats up for reelection are working quietly to put Senator Pat Harrison (D., Miss.) at the head of the party's senate campaign committee.

Harrison's selection for the chairmanship, these senators said today, would do much to promote party harmony for the November elections.

The tall, soft-spoken Mississippian is generally popular with both administration supporters and opponents. He has differed with President Roosevelt on some issues, however, and recently criticized the president's views of the 1938 revenue bill.

TWO GIVEN FINES IN JUSTICE COURT

Richard Edward Richmond, a farmer of the Central Point district entered a plea of guilty and paid a fine of $2.50 and costs in justice court yesterday for permitting a person having no driver's license to drive an auto on the Pacific highway. It was further claimed, the driver, William Benton Cook, had no special learner's license to operate an auto.

Lee Swope plead guilty to a charge preferred by Ruth Nelson of assault and battery, and was fined $5 and costs. The complainant is a waitress in a Pacific highway resort. A squabble arose among a group of men and in the excitement Miss Nelson alleged she was slapped. Swope denied this and said all he did was give her a light shove.

Albert A. Rogers and Wayne Olson, transient youths, entered pleas of guilty to vagrancy and will be sentenced late today. The pair were arrested by the city police while loitering suspiciously at night in an alley.

MANY MINERS TO JOIN UNEMPLOYED

SALT LAKE CITY, June 2.—(UP)—More than four thousand miners were notified today that they would be out of work within two weeks as the west's huge mining industry slowed to less than one-third its normal pace.

The announcement of Kennecott Copper corporation today that it will close its copper properties in Utah, Arizona, Nevada and New Mexico, followed similar closings by Anaconda, Mountain City, Walker and numerous smaller operators to nearly complete the shutdown of western copper, lead and zinc producers.

Mining men estimate remaining operations in the base, non-ferrous metals at 20 per cent, with recovery not in prospect until general business conditions improve.

The average is boosted to 33½ per cent by gold and silver—only bright spots on the mining horizon.

There has been no noticeable letdown in gold production and silver has been curtailed only because byproduction from mines operated primarily for copper has been cut off. But the two precious metals account for only 15 per cent of the western mining industry.

3633 WRITE-INS FOR GOV. MARTIN

SALEM, June 2.—(AP)—County tabulations in the state department showed today that Gov. Charles H. Martin, defeated for renomination on the Democratic ticket, polled 3633 write-in Republican votes.

Multnomah county returns were unofficial and Clatsop and Klamath had not reported.

The Multnomah county total was set at 1526 and upstate votes at 2107. Eleven counties said there were no write-ins for the governor. Those having them were:

Benton 37, Columbia 90, Coos 86, Curry 25, Deschutes 57, Douglas 32, Gilliam 15, Grant 10, Harney 2, Hood River 123, Jackson 684, Josephine 206, Lincoln 36, Marion 362, Morrow 34, Polk 36, Tillamook 37, Umatilla 20, Union 73, Wasco 41, Washington 41, Yamhill 60.

Martin was defeated by Henry L. Hess, La Grande attorney.

NAZI ORGANIZER BUSY IN CANADA, IS CLAIM

OTTAWA, Ont., June 2.—(UP)—A man named Karl Gerhard is engaged in recruiting German residents in Canada for the National Socialist (Nozi) party of Germany, Tim Buck, Canadian Communist party leader, told the Rowell commission Dominion-Provincial relations today.

Buck made the charge while discussing alleged Fascist activities in Quebec province, and said he had evidence that the man he referred to was "the Canadian leader of the Nazi party."

CARELESS PICNICKERS CAUSE OF COMPLAINT FROM RANCH OWNERS

Disregard of the protection of the property of land owners, their cattle and other livestock, by unauthorized persons entering fenced farm lands for picnicking, fishing and other amusement this season, it was reported to the Jackson County Chamber of Commerce today, is causing property owners on Little Butte creek and Rogue river to lock their gates and post trespass notices forbidding entrance to the property.

One land owner on Little Butte reported that four cars of picnickers entered his field last week, leaving the gate open so that his cattle were released on the range, this resulting in two days of riding to round them up. Another farmer complained that parties entered his fields and permitted their dogs to stampede his cattle, the chamber said.

Land owners in Jackson county have been extremely considerate in permitting the public to cross their properties to streams and to picnic on private holdings, and the chamber points out that continued lack of consideration of the property owner on the part of the privileged public is threatening a general resentment that will close many properties to further use for pleasure.

LADY REALTY OPERATOR GUILTY MANSLAUGHTER

DETROIT, June 2.—(AP)—A jury of eight women and four men convicted Mrs. Julia M. Barker, once wealthy Detroit real estate operator, of manslaughter today for the fatal shooting January 15 of Mrs. Edith Mae Cummings, her business associate.

The jurors deliberated eight hours. Mrs. Barker heard their verdict without changing expression.

Maximum penalty for manslaughter is 15 years' imprisonment.

Mrs. Cummings was shot to death on the slope of a snow-covered ravine near Belleville, Mich. The state, indicting Mrs. Barker on a charge of first degree murder, sought to prove she feared Mrs. Cummings was about to make revelations concerning real estate deals for which both women faced fraud charges.
