**PRESIDENT SHAPES POLICIES WITH CABINET**  
**RELIED ON PRIVATE ADVICE FOR TAX SPEECH**  
**LEFT WING INFLUENCE SPREADS TO NEW FIELDS**  
**NOW INCLUDES POLITICS' FINANCE AND JUSTICE**

WASHINGTON, June 3.—(AP)—More and more, the major policies of the New Deal are shaped and perfected in the back rooms of the White House. In periods of uncertainty, the president charts his course after general consultation with other high officials. At the moment, however, in spite of deepening economic depression, the president is self-confident. And in periods of self-confidence he withdraws into his circle of private advisers.

This was strikingly illustrated by the president's lecture to the school children of Arthurdale. Before Arthurdale high school's goggle-eyed graduating class, the president sharply criticized the new tax bill. He gave his reasons for letting the bill become law without his signature. He described the kind of substitute he would demand next year. And he drove the last and largest nail into the coffin of government-business reconciliation.

Since tax revision was first contemplated, the president has made no more important pronouncement on this vitally important topic. Yet the proposed tenor of the Arthurdale ad-

## AERIAL RAIDING IS REGARDED AS BARBAROUS ACT

Death Of Hundreds In Spain And China In Recent Days Basis Of Statement State Department.

WASHINGTON, June 3.—(AP)—The United States government expressed today its "emphatic repudiation" of bombings of civilian populations in China and Spain.

Undersecretary of State Sumner Welles, after a conference with President Roosevelt, issued a stern statement on behalf of the state department.

The statement said American public opinion "regards such methods as barbarous."

It recalled that in recent days aerial bombings have caused the death of many hundreds of persons in Spain and China.

He mentioned the fact that the United States government has on numerous occasions expressed its disapproval of such action, particularly through statements by Secretary Hull, September 23 and March 31.

Welles said today's statement was not taken in conjunction with Great Britain and was not being communicated diplomatically to General Franco or the Japanese government.

HONGKONG, June 3.—(AP)—Japanese bombing planes killed 50 persons in a Canton textile factory today and caused great loss of life among houseboat dwellers along the Canton river.

The factory was crowded with workers when two bombs struck the building.

The attackers also bombed the vicinity of Talsu railway station, where many refugees were encamped.

The station was not hit, however, and the raiders departed after 55 minutes.

(The raid was another of the series that began Saturday in which a total of 1,000 civilians were estimated to have been killed and 1,500 wounded.)

## Posses Begin Hunt for Kidnaped Boy

Despairing of the safe return of five-year-old James Cash, Jr. (lower left), authorities at Princeton, Fla., organized posses to scout the countryside for the child, snatched from his crib by kidnapers who got \$10,000 in ransom from the boy's father. Farmers and former service men are shown above gathered for instructions for the search. Below at right is M. F. Braxton, 30-year-old unemployed carpenter, taken into custody at Princeton by federal agents for questioning in the case.—(A. P. Photos.)

## SEARCHERS EXPLORE WATER IN ROCK PIT FOR KIDNAP VICTIM

PRINCETON, Fla., June 3.—(AP)—Divers groped in a rock pit 40 miles south of here today for the body of kidnaped James Bailey Cash, Jr. after federal agents received a clue indicating the search there might prove productive.

A local resident whose identity the G-men shielded turned in the clue. Unverified reports said it was a piece of cloth stained with blood.

The divers covered every inch of the pit floor, but found no trace of the body.

While the divers worked the federal men flung a cordon around the scene—a swamp between the Overseas highway and the shore of the ocean—and kept a throng of bystanders several hundred feet away.

The hunt for the boy, missing since last Saturday, was extended southward by searchers on foot and in a fleet of boats while J. Edgar Hoover, director of the federal bureau of investigation, augmented his staff of 14 agents rushed in by plane.

## ROOSEVELT PLANS STUDY OF BRITISH TRADE UNION ACT

Will Send Special Commission To England—Aims To Clear Up Misinformation Held In United States

WASHINGTON, June 3.—(AP)—President Roosevelt announced today that a special presidential commission would be sent to England this summer to clear up what he considered to be misinformation in this country about the workings of the British trade union act.

This act has sometimes been held up by business interests and others as a model of legislation the United States might write in order to define the proper activities of unions. Whether Mr. Roosevelt intends to apply the findings of his commission in any positive way was not brought out.

In discussing the purpose of the study with reporters at his press conference, he said simply that it would have nothing to do with the Wagner labor relations act. He explained that the purpose would be to end misunderstandings of the law, but that these were he did not relate.

CIO Represented

Mr. Roosevelt withheld the names of the commission members he has already selected, but a letter written by John L. Lewis and released simultaneously with the conference disclosed that the Commission for Industrial Organization had been invited to have representation.

Lewis, the letter disclosed, first agreed to participate, but objected strenuously today after he had read published reports that one purpose of the study would be to get information to be used in modifying the Wagner labor act.

"The Commission for Industrial Organization cannot sanction such an enterprise," Lewis wrote, "nor permit its representatives to serve on such a commission. It will oppose amendment or modification of the Wagner act."

Aides said Lewis would stand by his letter, which was addressed to Secretary of Labor Frances Perkins, despite Mr. Roosevelt's outright press conference denial that the inquiry was designed to produce changes in the Wagner act.

Written in 1927

The British act was written in 1927, after England's upheavals of 1926 resulted in a great general strike. Labor department experts explained the law has four purposes:

1. To make "sympathetic" strikes and lock-outs illegal although it legalizes other strikes and lock-outs.
2. To restrict the use of trade union treasuries for political purposes.
3. To limit strictly the affiliation of civil servants with trade union organizations.
4. To limit strictly the affiliation of civil servants with trade union organizations.

These experts also explained that the act does not require any registration of unions or fix any financial responsibility for their acts. Those objectives were covered in much older British statutes which, with some modification, are on the books today.

List Not Completed

Mr. Roosevelt said he could not say who would serve on the commission because the membership was incomplete.

The names of Gerard Swope and

## TWO SPECTATORS KILLED BY BOLT ON GOLF COURSE

Two Others Injured During First Round of Kansas City Tournament—Lightning Hits Near 9th Green

KANSAS CITY, June 3.—(AP)—Two spectators were struck dead, a third was severely injured and a caddy was seriously hurt today when a lightning storm stopped play in the first round of Kansas City's \$5,000 open golf tournament. More than a score of the nation's first flight golfers were among the 120 entrants.

Those killed were William Boyle, about 40, a widely known contractor and Thomas Critchfield, a member of a road construction firm.

The lightning flashes struck near the ninth green of the Hillcrest course. Horton Smith, Leonard Dodson and Leland Gibson, nationally known players, were on the ninth tee when the lightning struck.

Thomas J. Cunningham, a board of trade employe, was seriously injured and a caddy was knocked to earth.

Joseph Alce, a radio engineer assisting in a broadcast from the course Lester Allen, a federal reserve bank employe and O. I. Fitzgerald suffered from the shock of the lightning flashes.

## COMMITTEE FOR MINE MORATORIUM

WASHINGTON, June 3.—(AP)—Overriding interior department objections, the senate mining committee recommended today congress suspend for the current fiscal year the annual assessment work requirement on mining claims held by location in the United States.

Secretary takes and the bureau of mines opposed the committee's action contending a moratorium would further retard recovery of the mining industry. Similar moratoriums have been voted by congress during each of the past several years.

The committee-approved bill, by Senator Johnson (R-Calif.), would suspend the assessment work requirement for the period ending at midnight July 1, 1938.

The moratorium would not apply, however, to more than six lode-mining claims held by the same person, nor to more than 12 held by the same partnership, association or corporation.

## GRADUATE NURSES SELECT OFFICERS

KLAMATH FALLS, June 3.—(AP)—Delegates to the Oregon Graduate Nurses association's thirty-first annual convention chose Portland as their 1939 convention city and elected Johanna Freeland of Portland and their president before adjourning today.

Linda Eichman of Portland was named first vice president, Robin Jones of Eugene, second vice president; Rufus McDonald of Portland, secretary; and Winifred McPartland of Portland, treasurer.

## 20 MINERAL CLAIMS FILED ON LANDS IN PROSPECT SECTION

Records of the county clerk's office show that in the past six months a group of local and California men filed 20 mineral claims of 160 acres each in the Woodruff Meadows section near Prospect.

Filings for the most part have been made by P. L. Yarborough, Sacramento. Others are L. D. Yarborough, George Ross, David Baker, Ed Pence, and M. G. (Mica) Womack, the latter a figure in local mining activities for a score of years. The wives of the Yarboroughs also filed claims.

Directors of the Jackson County Chamber of Commerce, and the Jackson County Planning board, recently adopted motions opposing operations on the Upper Rogue which might impair scenic and recreational values and timber adjoining the Crater Lake highway, recently acquired by the forest service at a cost of \$300,000. The timber was purchased, it was pointed out, to retain the natural beauty of the highway.

The directors also urged co-operation with Curry county, and other coastal communities, to save Rogue River from pollution.

## DIFFERENCE MAY DELAY WAGE, HOUR AGREEMENT

WASHINGTON, June 3.—(AP)—Sharp differences of opinion over wage and hour standards developed today among members of a joint congressional committee, pointing to delay in final agreement on the legislation.

Although most committeemen appeared inclined to accept 25 cents an hour as the rock-bottom minimum wage, there was disagreement over how the ultimate goal of 40 cents an hour and a 40-hour week should be reached.

## MEDFORD YOUTH SMASHUP VICTIM

SACRAMENTO, June 3.—(AP)—Frank H. Ingram, 20, Medford, Ore., was killed early today when his car overturned a few miles from here.

Coroner Jack Garibaldi said friends of the dead youth informed him Ingram was a student at Sacramento Junior college and was on his way to Medford to visit his mother.

His car, the coroner said, plunged over a 35-foot levee on the Garden highway. C. Morrison, near-by farmer, attracted to the scene by the barking of his dogs, found Ingram's body beside the overturned automobile.

Frank H. Ingram, reported killed today in an auto accident near Sacramento, was born in Grants Pass and graduated from the Grants Pass high school last year, where he played football. His mother, Mrs. Edith Ingram, could not be reached before press time. A sister, Mrs. Bob Nash, lives in Glendale.

It rejected by a vote of 45 to 29 a proposal by Senator Copeland (D-N.Y.) to set aside for flood control and river and harbor projects, \$325,000,000 of the proposed PWA allocation.

The vote was a victory for administration forces. Anti-administration leaders had pinned their chief hope of earmarking on the Copeland amendment.

## Ford Remains Convinced Prosperous Times Ahead

By DAVID WILKIE

DETROIT, June 3.—(AP)—In his first statement on public affairs since he returned home from a recent eastern trip that took him to Washington as a White House visitor, Henry Ford said in an interview today that nothing has happened in recent weeks to change his conviction that "we are going to have the greatest era of prosperity and happiness we have ever known."

Ford sat astride a bench in the moss-hat of a boy's farm camp, not far from his home in Dearborn, and pointing toward the partly 300 acres under cultivation by the young farmers, said:

"And it will come through a back-to-the-land movement."

Ford reiterated his criticism of certain financial interests which, he said, would like to bring about another war.

"Somebody once said that 60 families have directed the destinies of the nation," Ford said. "It might well be said that if somebody would handle the nation's finances, the world's real war makers would be brought into held relief."

The motor manufacturer said veterans of the world war would have
