

HOME EXTENSION CALENDAR DRAWN FOR COMING YEAR

County-Wide Family Living Conference On Oct. 11 To Open Program—Vacation Camp Takes Interest

The Jackson county home extension committee met at the courthouse Wednesday, with Mrs. Mabel C. Mack, county home demonstration agent, to plan the county extension calendar for 1938-39.

The program was based on recommendations made by community leaders at the annual program planning meeting last week. Projects included in the calendar represent many phases of home economics. In parent education, the study of personality development will be continued. The study club series of six meetings will be on "family relationships" of living together in the family. Six evening meetings for parents will include discussions of various subjects on parent education and child development. The program will start with a county-wide family living conference on "how parent education has changed" scheduled for October 11.

Two Nutrition Meets. Nutrition studies include a series of two meetings on "food made the difference," and a food preparation demonstration entitled "the cook goes out."

In home furnishings a rug-making project and a special school for making slip covers is included.

In clothing, interest is centered on "good grooming" and a "better dress" dressmaking school.

In recreation and dramatics an intensive program is planned including three district recreation leader schools, and monthly leader training meetings. This program will start with a general organization meeting to which heads of all community organizations will be invited.

In dramatics a play loan service will be maintained to aid community groups in play selections. Following this, a dramatics school will be held for directors and casts and further assistance will be given by specialist on production of plays.

Camp Taken by Interest.

Interest is now being centered on the homemakers' vacation camp which is another annual feature of the recreation project. The camp to be held at Lake of the Woods, July 31 to August 6, is planned jointly by Jackson and Klamath counties. Miss Isola Jensen, extension specialist in recreation, will be camp director, assisted by the Klamath county home demonstration agent, Mrs. Mack will be on leave of absence at that time.

At the close of the program planning, Mrs. Rita Myers, county chairman, led the discussion on revision of the constitution for county committee, suggestions for administration, program planning in 1939 and election of officers for next year which were: Chairman, Mrs. G. E. Ousterhout, Eagle Point; vice-chairman, Mrs. Nora Straus, Sams Valley; secretary, Mrs. Walter Hicks, Howard; treasurer, Mrs. I. H. Williams, Talent; county project leader, recreation, Mrs. Olive Floyd; clothing, Mrs. Walter Hicks; dramatics, Mrs. Lee Port, Applegate.

At the close of the meeting Mrs. Myers, retiring chairman, gave the gavel to Mrs. G. E. Ousterhout, chairman-elect. Mrs. Myers retires from the committee after four years of outstanding service in county committee work, three years of which she served as chairman. She will become a member of the Alumni association and will retain membership in the state extension council.

Mrs. S. W. Hutchinson of Trail, the other retiring member of the committee who has served so efficiently the past four years, was absent Wednesday because of illness.

The committee will not meet again until September.

GRANTS PASS PIONEER SUMMONED BY DEATH

GRANTS PASS, June 3.—(AP)—Charles Burkhalter, 83, resident of Grants Pass when it was a stage-coach postoffice district a mile north of the present city, died here Wednesday night.

Mr. Burkhalter helped clear the right of way for the Oregon and California railroad (Southern Pacific) which brought the founding of the town. He constructed many of the business houses here. For 20 years he was a director of the bank which is now a branch of the U. S. National of Portland.

Funeral services will be held here Saturday at 2 o'clock.

Federal Grand Jury Finds 11 True Bills

PENDLETON, June 3.—(AP)—One not true bill and 11 true bills were returned by the federal grand jury here today as it closed its panel for the current session of court. The trial jury will be called Monday morning.

James J. Horton, one of those indicted, was sentenced to ten months in a federal road camp and fined \$100 by Federal Judge James Alger Fen on a charge of selling liquor to a Umatilla Indian.

Stanley Nadjwan, Warm Springs Indian, was released on a charge of rape in the lone not true bill.

Guffey Will Back Party's Nominee

WASHINGTON, June 3.—(AP)—Senator Guffey (D., Pa.), who supported the defeated C.I.O.-backed ticket in Pennsylvania's recent primary, affirmed today his support of the state democratic organization nominees in the fall campaign.

Guffey recalled in an interview he had announced three months ago he would be "in the front line trenches" fighting for the democratic ticket after the primary.

"That's what I said then," he added, "and that's what I mean now."

7 JACKSON COUNTY STUDENTS FINISH AT OREGON STATE

Receive Degrees As Largest Class Is Graduated—Five From Medford—Job Prospects Are Held Good.

CORVALLIS, June 3.—(Sp.)—By far the largest class ever to be graduated from Oregon State college received degrees at the 69th annual commencement, May 31, when officials of the college delivered diplomas to 590 seniors and graduate students and to three prominent men receiving honorary degrees.

Among the graduates this year were seven from Jackson county. They were, from Medford: Donald W. Nelson, science; Robert W. Root, agriculture; Leonard M. Klein, engineering; William H. Fisher, engineering; and Edward H. McLean, forestry; from Central Point, Katherine E. Lathrop, agriculture; and from Ashland, John H. Denton, pharmacy.

Honorary doctor's degrees were conferred upon Dr. E. J. Kraus, former head of the department of horticulture at Oregon State college and now with the University of Chicago and the federal bureau of plant industry; Thornton T. Munger, director of the Pacific northwest forest experiment station at Portland; and J. S. Stevens, noted consulting engineer of Portland and designer of many northwest hydro-electric and other engineering projects.

Five Get Ph.D.'s
Of the students graduating this year, five received the doctor of philosophy degree in the school of science, the highest academic achievement at the institution. Eight had earned master of arts degrees, 56 master of science, four professional degrees, 35 bachelor of arts and 482 bachelor of science.

In this year's graduating class were students from every county in the state except Curry. Multnomah led as usual with 137, followed by Benton with 100, Marion 29, Clackamas and Douglas 19 each, and Lane and Polk with 16 each. Twenty-one other states were represented and four foreign countries.

Age Range 19 to 43.

Age of graduates varied from 19 to 43 and averaged 22.94 years for women and 24.41 for men. The class included 154 students who transferred

from 58 institutions in 17 states to finish their work at Oregon State.

Employment conditions for the graduates, while not quite so favorable as last year, were such that nearly all of the graduates who want them will have either temporary or permanent positions this summer, officials said.

HOMES ACQUIRED BY HOLC OFFERED ON EASY TERMS

"The home seeker in this community has never before had the opportunity to acquire a home on such liberal terms and at such low interest rate as are now being offered," Harold H. Brown of the Harold H. Brown agency said today.

"We have never lived in a period when our vacancy ratio of homes was so low," said Mr. Brown. "Money for home financing is plentiful. In addition to the homes being offered through ordinary channels, we have a newer important factor in the field. The Home Owners' Loan corporation is now disposing of properties it has acquired."

"These HOLC homes are good investments and there is no speculation in their sale. The corporation, with a sales policy free of any profit motive, has established competitive prices in keeping with the present market. It has placed its homes in the hands of approved brokers, who operate on a standard commission basis."

"These homes can be purchased for down payments as low as 10 per cent, provided the prospect is a good credit risk. The loan is carried for as long as 15 years at a 3 per cent interest rate, the lowest ever offered."

"The corporation has sold 34 properties in this state in the past two months, as compared to 16 in the previous two months, and has deposited on 41 additional properties. This definitely points to greater real estate activity, which is generally followed by higher prices, higher interest

est rates and more restrictive terms. Those who have money to invest now should forget the calamity howlers and get busy. They should take advantage of today's favorable conditions—procrastination may prove expensive.

"In this connection, it is interesting to note that the Metropolitan Life Insurance company has announced it will spend \$100,000,000 on rental housing in the next five years, and the Prudential and other insurance companies are contemplating similar projects. The federal housing administration has insured

loans amounting to more than \$20,000,000 on large scale renting developments. All this is evidence of improving conditions in the residential real estate market.

"A new home is a fine investment, it is true, but, at the same time, there are thousands of good homes

on the market today, many of them held by the HOLC, that are real buys for the money."

WINDOW GLASS—We sell window glass and will replace your broken windows reasonably. Trowbridge Cabinet Works.

Sale! Hot Weather Cottons

Dimity! Flaxon! Organdy! Pique!

Live in cottons and enjoy the savings of this sale. Prints and plain colors. Sports or dress. Tubfast. New! 36 in.

Is Good Living just for rich folks?

KNOWING what's really worthwhile—not wealth—is the key to many of life's greatest pleasures. Good beer, for example need not be an extravagance for any family.

Brown Derby, brewed in America, has the goodness of Old World Pilsner. Experts agree on this.

Brown Derby gives you the unmistakable Pilsner flavor—not sweet, not bitter, just marvelously "in-between." Liveliness that lasts while you enjoy your beer. It's a thrill to realize that Brown Derby saves you the import cost on European Pilsner!
