Mrs. White Honors Lucie McCormick At Bridge Shower

Mrs. Wilton A. White was hostess last evening for a very delightful dessert bridge and shower party honoring Miss Lucie McCormick, popular bride-elect whose marriage to Mr. Guy Hill Stoddard will be solemnized Saturday.

A large clothes basket with bows of pink cellophane on either side was presented to the honoree, upon opening the packages she found them to be an assortment of useful kitchen gifts. Following the shower, dessert was served at small tables prettily appointed with vases of mixed flowers. Large bouquets of flowers were about the rooms.

Mrs. Charles Brittain Drake, Jr. of Norfolk, Va., cousin of Mrs. White, was also an honored guest and received a handsome guest prize. Mrs. Drake and her husband recently arrived in Medford to make their home.

Guests enjoying the affair were Mesdames Robert B. Maentz, Charles Barnes, Ivan Harrington, William Cunningham, Jack Walker, John Day, Arthur Small, Robert Miksche, Ben Day, Willard Eberhart, Kenneth Parrett, LeRoy Armstrong, D. Ford McCormick, E. W. Ely and R. D. Davis. The Misses Clarita McCormick, Dorothy Roberts, Frances McCormick, Justine Miller, Leah Inch, Mary Jarvie, Thompson, Estay Thompson, Frederica Brommer, Nelle Green, Carvel Reames, and Peggy Powers. Miss Powers is Mrs. McCormick's sister and is visiting here from Glendale, Calif.

Recipients of bridge prizes were first, Miss Dorothy Roberts; second, Mrs. Charles Barnes and consolation, Miss Frederica Brommer.

Mrs. White was assisted throughout the evening by her mother, Mrs. Burdette Dodge, Mrs. Ben Stafford and Mrs. Charles Reames.

Relief Corps Meets Tomorrow

Women's Relief Corps will observe its 46th anniversary tomorrow with a celebration in the armory starting at 2 o'clock.

A business meeting followed by a program and refreshments will be in order. All members are expected to be present.

Noah, did you oil those Troubled Waters?

SOMETHING told Noah there was going to be a complete rain which would bother a man even if he had an umbrella—and a big umbrella at that. So Noah built an ark—and the animals went in two by two—and they rode out the Flood. That's why it's truth to say men and elephants, kangaroos and women, wouldn't be on earth now—except for oil.

Noah couldn't have built his floating zoo without pitch to put in the seams of the ark, within and without, to keep the water on the outside where it belonged. His pitch, scientists tell us, was a form of bitumen—that is, petroleum.

Today, as in Noah's time, petroleum keeps the ship going. People can work in factories, ride on trains, sweep through the skies on airplanes, do anything which depends upon a wheel turning, because lubricating oil lets the wheels spin.

It's part of our job to keep the wheels of the nation—the millions and millions and millions of them—free from friction. Without lubricating oil made from petroleum, the world would be back in the time of Noah—back to wind-jammers and horsecars and oxtams.
