Wall St. Report

NEW YORK, June 16.—(AP)—Led by steels, industrial stocks moved up fractions to a point or more in the closing hour of today's market. The list made feeble motions today, a rally after a ragged start. Buyers apparently were tempted to take another chance on so-called commodity shares as inflationary talk persisted in the boardrooms. Most, however, were disinclined to trade up their hunches with extensive commitments, and dealings were about as sluggish as in yesterday's session. Transfers were around 350,000 shares.

"Hawaiian Follies" Coming

Jack Holt is starred in "Flight Into Nowhere," coming to the Elito theatre tomorrow and Saturday, as an airline chief who adventures into the jungles to rescue a pilot. Bob Baker, singing western star, stars in "Courage of the West," the companion action hit.

Long before swing music was introduced to the radio and stages of America, there had always been a demand for the soft, soothing music of the steel guitar, which found its way into world popularity by way of the Mid-Pacific Islands.

It remained for Robert Bell to take advantage of the popularity of the Hawaiian tunes, which resulted in his engagement of a cast of expert musicians and hula dancers for a tour of the world, and which now finds him on his eighth professional visit to America. They come to the stage of Medford's Holly theatre for a one day engagement tomorrow, Friday, appearing in person for both matinee and evening shows.

One of the most popular stage shows appearing here in recent years, Bell's "Hawaiian Follies," made such a hit with local theatre-goers last year that they were booked for a return showing of their new edition of the follies.

"Numbered Woman," featuring Sally Blane, will be the screen feature.

Saturday afternoon visiting delegates will be taken on a sightseeing tour around the valley. HAPPY RELIEF FROM PAINFUL BACKACHE Caused by Tired Kidneys. Many of those gnawing, nagging, painful backache people blame on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way. The kidneys are the chief way of taking poisons and poisonous waste out of the blood. Most people pass about 3 pints a day of about 3 pounds of waste. If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. This poison may start nagging backaches, rheumatic pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Don't wait! Ask your druggist for Doan's Pills, used successfully by tens of thousands of years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.
