BRITISH IMPORTER SEES FINE SEASON FOR COAST FRUIT

Prospects for the northwest fruit crop this year are bright and prices generally should be better than a year ago, it was stated this afternoon by Charles W. Dibbens, a director of J. O. Sims company, Ltd., of London, England, importers.

Mr. Dibbens arrived from San Francisco this afternoon by United Mailliner and planned to leave by plane tomorrow for the Wenatchee district. He stopped here to confer with the Spatz Brothers, growers and shippers, Fletcher Fish, government inspector, and others regarding this year's crop, shipping problems and other matters pertaining to the fruit industry.

Mr. Dibbens foresees a better year in general for American fruit. The depressing factor of Argentine pears will not be so evident this year as a year ago, he asserted.

This is Mr. Dibbens' second visit to the United States and to the Rogue valley in the interest of his company. He said he was even more favorably impressed with the scenic charm of the Rogue valley on his second visit than on his first.

From the Wenatchee district Mr. Dibbens said he would continue to Ontario, across Canada to Nova Scotia, southward to New York and then through some of the southern Atlantic states before returning to London. He registered at the Hotel Medford.

ESPIONAGE PROBERS INDICT 18; LEADERS RESIDE IN GERMANY

NEW YORK, June 20.—(AP)—Three indictments naming 18 persons were returned today by the federal grand jury which has been engaged in the government's first intensive espionage investigation since the World war.

The indictments were based on four weeks of closed hearings, during which scores of men and women were questioned, and several months of inquiry.

Two surprise witnesses—Johanna Hofmann, 25, red-haired hair-dresser on the North German Lloyd liner Europa, and Private Erich Glaser, attached to the army air corps at Mitchell field—were called before the grand jury shortly before the indictments were returned. Each is now held in \$25,000 bail on complaints alleging espionage activities.

Lamar Hardy, federal district attorney, said the directing heads of the alleged espionage ring live in Germany and are connected with the government of that country. He said they operated through agents living here and also through crew members of ships plying between Germany and the United States.

SAFEWAY

One mile across town at 5 a.m. s-t-r-e-t-c-h-e-s to

two miles at 5 p.m. by stop and go

In stop-and-go driving, you're always shifting gears.

When in "low," your engine makes about 12 turns for each turn of your wheels . . . in "second," about 8 . . . in "high," only about 4.

In "rush-hour" stop and go, your mile drive across town may be two miles to your engine—it depends on how much of the driving is in low and second gears.

Shell engineers found that getting away from a traffic stop can waste enough "undigested" gasoline to carry you ½ of a mile.

To cut this waste and cost, they found a way to rearrange the chemical structure of gasoline, making every drop of fuel usable to your motor under all driving conditions.

You can save on your stop-and-go driving costs by the regular use of Super-Shell. There's a Shell dealer near you.
