

LIBRARY SERVICE FOR WHOLE STATE IS OREGON PLAN

State Librarian Harriet Long Working for Establishment of Traveling Libraries to Serve Oregonians

By PAUL W. HARVEY, Jr.
SALEM, June 24.—(AP)—Oregon's 86-year-old dream of a library service that would provide the state's entire population with books may be realized in the near future if State Librarian Harriet Long is able to establish her traveling libraries.

Governor Martin is betting on her to get her traveling libraries, asserting "she is the kind of a woman who gets what she goes after." He credited her with getting the \$1,000,000 library-office building to replace the cramped library quarters in the supreme court building. The new structure, the cornerstone of which was laid Tuesday, will be completed next January.

About 250,000 of Oregon's 1,000,000 population have no library service except through the state library's mail order department. Miss Long, admitting this to be inadequate, wants to establish traveling libraries which will carry books on trucks into every hamlet. This service is now carried on in nine of the 36 counties (Multnomah, Umatilla, Hood River, Wasco, Malheur, Deschutes, Klamath, Jackson and Josephine).

Plan Long Formed

The movement for statewide library service began on July 8, 1843, when citizens of Oregon territory voted at a public meeting to buy law books "to be the property of this community." Five years later congress appropriated \$5000 for a library to be maintained at Salem.

In December, 1856, the territorial capitol burned, destroying all the books except those in circulation. The next year the territorial legislature asked congress for \$20,000 for a new library, but only \$500 was granted.

Until 1905 the library was mainly a law library, but that year the Oregon library commission was created. In 1913 the law library division was separated to become the supreme court library, and the state library was established to maintain general service.

Today the state library owns 385,408 volumes, which are circulated by mail and to smaller libraries.

Governor Martin resumed his fight this week to open the markets of the British empire to Oregon lumber, pointing out that the state's rapid unemployment increase has been caused mostly by closing down of sawmills.

In a letter to WPA administrator Harry Hopkins, the governor said there were 82,000 jobless in the state, 11,199 being lumber and sawmill workers.

He appealed to Hopkins to use his influence toward obtaining removal of "British discriminatory tariffs against Oregon lumber." Reciprocal trade agreements between the United States and Great Britain now are being negotiated in Washington.

The governor has made several appeals to Secretary of State Cordell Hull to draw up an agreement with Great Britain whereby the British Empire markets would be reopened to Oregon lumber.

The Civilian Conservation Corps was given credit this week by J. W. Ferguson, state forester, for advancing forestry and forest protection by 20 years.

The 2400 CCC members, in 12 camps in the state, earn \$398,000 a year. Last year they spent 136,000 man days fighting fires, besides building roads and trails which aid in reducing fire loss.

State Treasurer Rufus C. Holman was distressed when he couldn't find the old territorial motto, "she files with her own wings." In the new capitol.

"I think that motto is appropriate during these days," he said. "If I can't locate the motto in the building, I'm going to have it placed on my office door."

Holman is Republican nominee for U. S. senator.

The State Federation of Labor will ask the legislature next January to amend the state unemployment compensation law to provide universal coverage of workers.

The law does not protect agricultural employes, nor workers in establishments hiring less than four people. The federation voted at its Tillamook convention this week to ask for the amendment.

Oregon farmers stand to gain by efforts of Pacific coast agricultural officials to break down the barriers which prevent flow of farm products between states.

The Association of Western Agricultural Officials, which was formed recently, will attempt to simplify state regulations governing shipment of farm products between states.

Most states have strict rules governing importation of fruits, these states desiring to keep out pests.

"Current misunderstandings, suspicion and retaliation regarding quarantine, grades and standards, and weights and measures laws have hurt the agriculture of Oregon and other states," Solon T. White, state director of agriculture, said.

It is estimated that China supplies 75 per cent of the world's commercial supply of hog bristles, for which the largest demand is from the United States where they are used in the manufacture of brushes.

A reduction of 20 per cent in highway fatality figures was accomplished in New Jersey in four months of compulsory vehicle inspection.

The only place in China's vast area where trout can be found are in the streams of the imperial hunting grounds in the extreme northeast.

This country was among the last to grant woman suffrage after 70 years' agitation.

Anthrax Follows Rains

SACRAMENTO, Calif. (AP)—A wet winter which has left much standing water in the lowlands has been followed by an increase in anthrax among cattle, the state division of animal husbandry reports. Stockmen have been advised to vaccinate their animals.

The Taoist religion has sanctified five "sacred mountains" in China: Tai Shan in Shantung province; Heng Shan in Hunan province; Hua Shan in Shenai province; Heng Shan in Hopeh province, and Chang Shan in Honan province.

BRIGHTEST, DENSEST OBJECT EVER KNOWN IS NEW FOUND STAR

SAN DIEGO, Calif., June 24.—(AP)—

What may prove to be discovery of the hottest, densest and at its maximum the brightest object ever known to mankind was pictured today to scientists in convention here.

It is a star, weighing about 6,000,000 tons to the cubic inch, only 50 miles in diameter but 400,000,000 times as bright as the sun.

Prof. Fritz Zwicky, noted huntsman of "suicide stars," the super nova, suggests it may prove to be one of the most far-reaching proofs of Einstein's theory of general relativity. He described it to a session of the annual convention of the Pacific division of the American Association for the Advancement of Science.

The finding of the brightest one last August is heralded as one of the rare pieces of fortune in astronomy, for such stars occur only once in 30 years.

At its maximum on August 25 it was the brightest object ever observed, 400,000,000 times as bright as the sun. Now it is a million times as bright as the sun, but has shrunk from the size of the sun to a collapsed neutron star, only 60 miles in diameter.

Its surface temperature, Zwicky believes, may be at least several hundred thousand degrees.

Gold Hill Vocalist Makes Grange Hit

BIG APPLEGATE, June 24.—(Sp.)—Preparation for state Grange convention begins a year in advance, and Mrs. G. W. Thlesen of Milwaukie, state lecturer, was looking ahead to next year's convention when she attended dedication ceremonies at Upper Applegate Grange hall Saturday night.

She requested that Harold Fish of Gold Hill appear on the 1939 convention program at Corvallis with vocal numbers. Mr. Fish, an accomplished young singer gave two solos during the program here Saturday. Mrs. Thlesen also was impressed with a humorous reading, "I'm Proud to Be a Granger," given by Harry Wiegant of Talent, and requested the poem for publication in the Grange Bulletin.

CRISPNESS QUIZ FOR JUNE BRIDES

Q: How do you do, Mrs. June Newlywed! We're Snap, Crackle and Pop, the Kellogg's Rice Krispies Reporters.

A: How nice!

Q: Tell us, Mrs. Newlywed, what do people throw at June brides after the wedding?

A: Why, rice, of course!

Q: That's right! Now, there's another kind of rice that's very important to newlyweds, and to all other people who like crispness —

A: I know! You mean Kellogg's Rice Krispies!

Q: Precisely! Tell us what you know about Kellogg's Rice Krispies, Mrs. N!

A: Well, I know that Rice Krispies is a cereal so crisp it crackles in milk or cream!

Q: And what kind of people like Kellogg's Rice Krispies, Mrs. N?

A: Why, everybody! Children! Grown-ups! Nobody can resist the crackling crispness and tasty flavor of those toasted rice bubbles! Everybody loves to hear that cheery "Snap, Crackle, Pop" that tells the true meaning of crispness!

Q: So far, Mrs. N, you've scored 100%! Now here's an easy one. Where are Rice Krispies sold, and who makes them?

A: Oh, Mr. Crackle, that's too easy! All grocers sell Rice Krispies, kept crisp and ready to serve in WAXTITE inner bags. Ideal for breakfast, lunch, or the children's evening meal. And Rice Krispies are made by Kellogg in Battle Creek!

Kellogg's RICE KRISPIES

So Crisp THEY CRACKLE IN CREAM

THERE'S PRIDE AND PROTECTION IN A Snowy-White CLOROX WASH!

When it's CLOROX-CLEAN... it's disinfected!

EVERY housewife takes pride in a snowy-white, fresh-smelling wash! But when that wash is sanitary, too, it affords an even greater satisfaction... PROTECTION! The easy, safe way to obtain this added safeguard to health is to make your wash Clorox-Clean!

Simply use Clorox in the regular laundering process. Clorox is unsurpassed for bleaching white cottons and linens snowy-white... Clorox also deodorizes, disinfects and removes numerous stains from white and color-fast cottons and linens... and Clorox is gentle on fabrics, it contains no lime or acids.

For greater Home Health Control use Clorox to deodorize, disinfect and remove numerous stains from tile, enamel, linoleum and wood surfaces. Clorox has many important personal and other uses. Clorox is uniform in quality, concentrated for economy... a little goes a long way. Simply follow directions on label. Always order by name... there is only one Clorox!
