TWO WPA BOSSES ADMONISHED FOR POLITICAL STEPS

Kentucky Straw-Bosses Are Quickly Dealt With Says Administrator Hopkins—Warns Other Employes

WASHINGTON, June 30.—(AP)—Harry Hopkins announced today that two WPA straw-bosses in Kentucky have been punished for playing politics.

The work-relief administrator, replying to recent charges of political coercion in the Kentucky WPA, said in a statement:

"We will deal swiftly and summarily with any proven charge of political coercion, but we will be equally prompt in exposing any accusations trumped up to serve the political ends of those who are opposed to this administration."

Answers Newspaper
Hopkins responded specifically to charges contained in a recent series of newspaper articles. These allegations mentioned partisans of both Senator Albert W. Barkley, the administration floor leader, and Gov. A. B. Chandler, who are waging a hot campaign for the Democratic senatorial nomination in Kentucky.

"Every charge in which a WPA worker or official was named," Hopkins said, "has been thoroughly investigated, and documentary evidence conclusively established that out of more than a score of cases in which political activity was alleged, only two instances of improper conduct could be found."

He said the two WPA workers involved were Lee Carden, chief supervisor for the Edmonson county district, and Cleve Keeney, foreman in the Newport district.

Evidence showed, Hopkins said, that Carden had distributed cards designed to procure political information.

Offender Warned
"We have taken steps to see that this man mends his own business," the WPA administrator said. "He was told that any such activity on his part in the future would result in his being fired."

Keeney, the statement said, discussed with one of his subordinates a meeting addressed by Chandler and remarked that "The fellows on the job are going to have to support Barkley if they are going to stay on the WPA."

Hopkins said that "We regard this remark by Mr. Keeney as reprehensible." He added that State Administrator Goodman had been instructed "to take the necessary punitive action."

Hopkins said he was convinced that "people will not tolerate the prostitution of public funds appropriated to aid the unemployed."

"By the same token, they will not tolerate attempts to smear public officials who are trying honestly to do their duty."

Shall Medford Food Stores Open or Close on Sundays? IT'S UP TO YOU

FOR the past two weeks we have been open for business on Sunday. . . . We did this for the sole purpose of arousing public sentiment against a growing evil which has resulted in many Oregon cities becoming wide open Sunday towns.

Several groups including the Ministerial Association have expressed themselves. We appreciate their cooperation but that isn't enough. To keep Medford Food Stores closed on Sunday, buying on Sunday must be discouraged. Only by the continued activity of the various groups can we continue our policy of Sunday closing.

Sunday opening is something we don't believe in and do not want and the wishes of the public will govern our future action.

Until further notice our stores will be closed on Sunday—only by your continued support can we maintain this policy.

Confine your food buying to the six regular business days.
