Ye Smudge Pot. By Arthur Perry.

There was considerable impromptu and informal racing between drivers of new, swift autos on the highways during the Independence Day holiday.

Cafe cashiers report Californians and Washingtonians who willamette valley points have started ejaculating when they pay their checks.

The Older Girls now figure the younger set will shoot off firecrackers in honor of July 4th, until school starts in September.

Rep. Tinkham of Massachusetts, is re-elected to congress term after term, though he campaigns by hunting in Africa.

"Not all the old capacity for self-help has disappeared from the people. A great bakery chain reports 12 per cent of its sales are of unbleached bread."

One of these days, a forest fire is going to be started by a fisherman knocking out the embers of his pipe on a rotten log.

THE COST OF HEROICS (Paisley News). Paisley boasts a cat population of only about 600.

The Danish count and husband of the 5 & 10c heiress, as the price for a divorce, only wants \$5,000,000 and the custody of the child.

PROOF (Klamath Falls News). "Writer of a communication on this page claims that his investigation of Charles Sprague, candidate for governor, shows that Sprague's election would mean poverty, depression and chaos."

To the Editor (poor fellow): You surely have a dandy job reading all that stuff written for the Public Letter Box by people who should be cutting out paper dolls.

Fire Control in Jackson Co.

ONLY one lone blaze in the forests of Jackson county over the recent two-day holiday! Here is a record that reflects splendid public cooperation with national and state forest officials who urged caution in woods; it is evidence of increasing public knowledge of HOW to avoid the starting of forest fires.

Fire, that devastates over fifty million dollars of the timber wealth of this nation annually, is facing formidable opponents in this public awakening; this spreading knowledge on the part of those who ENJOY the forests, as well as new, improved CONTROL methods employed by those who CARE FOR the forests.

Forestry officials have established the fact that a large percentage of all forest fires are man-caused! There will always be forest fires caused by lightning; they cannot be avoided. MAN-CAUSED FIRES, HOWEVER, CAN BE PREVENTED! It is with this type of forest fire that forestry officials are most concerned in their prevention program.

THAT progress is being made in this campaign in southern Oregon is indicated by these interesting and encouraging figures:

Man-caused fires decreased from 50 in 1934 to 14 in 1937 within the Rogue River National Forest; in 1934, 24 fires caused by careless smokers devastated 2645 acres in this area while last year there were but six smoker-fires with 45 acres burned!

Even more gratifying are the records for 1938! Only five man-caused fires are on the Rogue River National Forest's reports, four started from the carelessly tossed cigarette; one from a fire-cracker set off ten days ago by an over-exuberant and premature celebrant.

Against these steadily diminishing figures should be taken into consideration the continually increasing number of those who seek pleasure in the forests; avail themselves of the improved recreational facilities provided in recent years.

TIMBER, worth millions of dollars, is not the only trust of those who guard our forests against fire; there are essential watersheds controlling floods and assuring all-important water for irrigation and city use. Vast resources in wild life and the increasingly important recreational industry are dependent upon forests.

A glimpse into the operation of the Rogue River National Forest Service shows convincing proof that Jackson county's vast national forests are in able hands.

This service extends its fire control activities over an area nearly one and one-quarter million acres in extent, 892,000 acres of actual national forests! The State Forestry department, the Klamath Indian Agency and National Park service work in close cooperation, inter-changing fire detection and control services for maximum efficiency.

Twenty-three weather "rating" stations, known in forestry parlance as "danger stations", provide weather readings which are coordinated at ranger stations; if it's "fire weather," added precautions are taken; lookouts increase their vigilance; fire fighters are made ready for instant call!

OTHER factors further safeguard the forests of Jackson county. Through the establishment of numerous Civilian Conservation Corps camps in this district, small armies of fire-fighters are ready for instant call; efficiently trained, disciplined, well organized and properly equipped. While not on fire duty, CCC crews have accomplished much in the cleaning-up of the forests and the removing of fire hazards. Blister rust crews, contributing their valuable work in Jackson county forests, are likewise subject to call and are efficient on the line of fire.

To augment the task of fire lookouts, United Air Lines pilots report fires while making their routine flights. Forest fire prevention and control have been reduced to a science; efficiency and organization mark the activities of the Rogue River National Forest Service. The public is proving a willing helper in this worth while work.

AND so, if you are going into the forests for a Sunday outing or an extended camping and fishing trip, take these simple precautions:

- Be careful of pipe, cigarette and cigar; don't toss them out of the car or at the side of the trail until you are SURE they are OUT!
Be sure your match is OUT; break it in two before you throw it away!
Be careful WHERE and HOW you build a fire; clear away all inflammable material; build a safe fire trail around your camp; be sure to get your camp-fire permit UNLESS you camp in a designated and posted improved forest camp.
Be sure that you have a regulation axe, shovel and water container, if you are a camper.
Never break camp until you are SURE that your fire is safely extinguished; wet the ground around the fire; be sure ALL SPARKS are out.

THE forests are our priceless heritage . . . we are holding them in trust for future generations . . . Let us USE them, ENJOY them, but NOT DESTROY them through carelessness! H. G.

RINGLING PERFORMERS TO JOIN BARNES SHOW

SARASOTA, Fla., July 6.—(AP)—A 21-car train carrying performers and equipment of the Ringling circus, forced by labor trouble to cut short its summer tour, was en route today to Redfield, S. D. to join the Al G. Barnes show.

General Manager George Smith, who accompanied the train, indicated the enlarged Barnes circus would be headed eastward. One of several shows controlled by the Ringling organization, it customarily travels western states.

Weather. Northern California: Fair tonight and Thursday, but fog on the coast.

Oregon: Fair tonight and Thursday, but fog on the coast, slightly warmer in east portion tonight; moderate northwest wind off the coast.

WILLAMETTE GRADUATE WINS HARVARD STUDY

SALEM, July 6.—(AP)—Melvin Viken, Willamette university graduate, was awarded the Jerome Jones scholarship to study at the Harvard university school of business administration yesterday. Only two such scholarships are given in the United States.

Viken is a member of Alpha Kappa Nu, scholastic honorary, and Pi Gamma Mu, national social science honorary fraternity.

Cracker. ENTERPRISE, July 6.—(AP)—A milk bottle shattered by a firecracker endangered the sight in one of Melvin Lay's eyes, a La Grande physician said yesterday. The 6-year-old boy was struck by flying glass.

Among the wonders displayed in temples on Omei Shan, one of the sacred Buddhist mountains in China are lacquered mummies of three holy men and a tooth of Buddha 12 inches long.

Personal Health Service

By William Brady, M.D.

Signed letters pertaining to personal health and hygiene, not to disease diagnosis or treatment, will be answered by Dr. Brady if a stamped self-addressed envelope is enclosed. Letters should be brief and written in ink. Owing to the large number of letters received only a few can be answered. No reply can be made to queries not conforming to instructions. Address: Dr. William Brady, 265 El Camino, Beverly Hills, Calif.

PAINFUL SPURS ON HEEL BONE

A reader tells how he suffered with a formation of bonv spurs under the heel bone—limping, aching, swollen feet. He consulted Dr. Brady, who removed the spurs surgically. This may be done under local anesthesia or under general anesthesia. It brings immediate and permanent relief.

Our reader, however, conducted his own researches and finally devised what he calls "leather corners in the heels of my shoes." and wearing these shoes he found such relief that he was able to resume work, and in the course of a year the spurs ceased to give any trouble, even with ordinary shoes.

This man is, perhaps purposely vague about the "leather corners" to which he ascribes his recovery, so I can give no more definite information about them—the man evidently regards his device as an invention.

Usually a horseshoe-shaped saddle or pad of thick felt or soft leather is fixed in the heel of the shoe so as to support the heel all around except across the front, is most comfortable.

QUESTIONS AND ANSWERS Soap is Soap.

On the advice of my barber I purchased some So and So soap, containing a presumably powerful antiseptic, for my dandruff. But a friend says it is no better than ordinary toilet soap—(R. G.)

Answer—How good it may be, as soap, I do not know. Good soap is as efficient an antiseptic as disinfectant as you can use on the skin, in my judgment. Just plain soap. Hernalia.

Is the injection treatment for herpetic skin safe and successful, or is operation better?—(G. W.)

Answer—I'd prefer injection treatment if I had herpetic. (Copyright, 1938, John F. Dille Co.)

Ed Note: Persons wishing to communicate with Dr. Brady should send letter direct to Dr. William Brady, M. D., 265 El Camino, Beverly Hills, Calif.

Man About Manhattan

By GEORGE TUCKER

NEW YORK.—This is the day we get some correspondence off our chest. The doctor says, "Sure, go ahead. I'll be good for you."

So we thumb through the mail basket and pick up a letter from a man in Oakland, California. He sends in a clipping of a column I wrote about a Swedish restaurant in New York. And he says: "That sounded good. Tell me the name of that restaurant, will you? I'm coming to New York soon and I want to go there."

Well, that's the second query today about that restaurant. A lady in Jersey City wants to know where it is and how much it costs. I must have neglected to give the name when I wrote about it. It's the Stockholm restaurant, on 51st street between 8th and 6th avenues. And you get a big dinner for \$1.50. The correspondent from Jersey City says she and her husband are thinking of celebrating their anniversary there, "because it sounds so mouth-watering the way you describe it." It's more than that, me'am; it breaks your heart.

And there is another letter from Oakland, California, from a mom whose initials are J. N. Not long ago I asked if anyone knew whether Al Kojan's name stood for Albert, Alfred, Allen, or what? My friend from the coast is giving me the rib on that one.

"Didn't it ever occur to you" he queries "that it doesn't have to stand for anything; that it might stand for itself? My rib goes on to explain the metamorphosis of proper names and adds: "I have always been puzzled how some columnists confess their hopelessness to readers instead of looking up a fact. For a name, the best authority is its wearer. And speaking of names, why not try to live up to yours and Tuck in all facts neatly?" However, I don't think he's really mad, because he concludes with this little P. S.: "I'm as bad as you—here I'm wasting precious minutes and a stamp on a matter that's of importance zero" (Miss Jones takes a letter to Mr. N. of Oakland and be sure to include an extra stamp to reimburse him for his trouble.)

Mr. Leo S. Rosenmans of Detroit, sends in a note. He has read this column in the Findlay, Ohio, Republican-Courier, and he asks to know: "If 8:30 is the exact time Abraham Lincoln was shot—how do you explain the fact that Mr. Lincoln did not arrive at Ford's theater until 8:30?"

This comment refers to a statement of some time ago that hands on jeweler's clocks were usually set at 8:30 because that was the hour Lincoln was supposed to have been shot. You are not the first who has questioned me on that one. Mr. Rosenmans. Not long ago an Alabama editor asked me about it and then gave an explanation that, to me, seems entirely plausible. He says the hands on jeweler's clocks are set at 8:30 because that leaves sufficient space on the clock's face for the jeweler's name, and other advertising.

Crown Prince To Enjoy Night Out

NEW YORK, July 6.—(AP)—Hospital physicians are going to give Crown Prince Gustaf Adolf of Sweden a night out.

Doctors at the Harkness pavilion decided he had recovered sufficiently from a kidney ailment to attend a hotel dinner tomorrow night honoring him, his wife, the Crown Princess Louise, and his third son, Bertil. After the dinner the crown prince will return to the hospital. He was stricken shortly before his scheduled appearance at the Swedish tercentenary celebration in Delaware.

The Capital Parade

(Continued from Page One)

"course of bigness" are now the central doctrinal text of the new deal. The enforcement of free competition is qualified, however, in four directions. First, by such measures as the wage-hour bill, the new dealers would establish a competitive level. Second, by such agencies as the securities and exchange commission, they would regulate business practices. Third, by labor and social legislation, they would ease the lot of the workers and the poor. And, fourth, in industries where monopoly is natural and unavoidable, or so well-established to be destroyed, some of the new dealers would substitute public for private ownership.

To this last, even in the utilities industry, the president probably does not subscribe, and each of the men around him would give you a different opinion on the problem. Although the belief in public ownership is widespread, it has always been concealed, for political reasons. Yet it has importantly affected the new deal course. The utility policy, for example, has been conceived by public ownership men, and that is why, even when the utility companies have shown some sense, compromise has always proved so difficult.

The new program, richly guided as it is with governmental spending, possesses immense and obvious attractions for the mass of voters. It has everything, including the most useful of political scapegoats, big business.

With its emphasis on trust-busting, it is also squarely in the American, Jacksonian-Rooseveltian tradition. At the same time, it is quite as radical as the economy planning of such banished favorites as Rex Tugwell. Big business is here, and the process of breaking it up is sure to be more painful, than the NRA process of dominating and planning it.

But the most important things about the program are that it provides a workable basis for political realignment. That, if it produces realignment it will require a marked and startling change in American governmental method.

Clearly, the program calls for a vast exercise of federal powers—to which, of course, the president and his advisers are far from averse. But if the president can form a new liberal party and install it in office to exercise these vast powers, the party will fall if it is led by old-fashioned American politicians.

Such a government would be the president and his circle envision can only be managed by experts, intellectual technicians. In these last years, the president has used his private advisers as his technicians and experts. While they have marked defects, of partisanship, political irresponsibility and inexperience, they have served him pretty well. But, in the future, it will be necessary to find permanent places at the council table for men of this type, without their failings. The problem of the president, in perpetuating his new deal, is to find political successors who will associate with new dealers.

Heroic Dog Saves Three In Family

SALEM, July 6.—(AP)—Three members of the Joseph Brennan family escaped from a fire which destroyed their home near the state fairground last night because a heroic collie dog, "Tige," whined and scratched until he attracted attention.

Brennan, his two children and the dog made their way to safety. Neighbors aided in saving family belongings.

A fairground shed, set afire by the blaze, was saved by firemen.

Governor Delegate To Legion Conclave

PORTLAND, July 6.—(AP)—Gov. Charles H. Martin became today a delegate of an American Legion post to the annual state convention, marking the first time that a governor ever has been selected by the Legion for a delegate post.

The state's chief executive was honored by the Willamette Heights Post No. 102 at a meeting last night and he will be accredited for the convention at Pendleton, Sept. 1-3.

Flight o' Time

Medford and Jackson County history from the files of the Mail Tribune 10 and 20 years ago.

TEN YEARS AGO TODAY July 6, 1928 (It was Friday) Fourth of July deaths total 205.

Man goes over Niagara Falls in a rubber ball and lives to tell the tale. Capt. Alfred Loewenstein, Belgian Croesus, drops from airplane mysteriously, while on a flight over English Channel.

Democratic leaders hoot Republican claim Hoover will carry Texas and Virginia next November. City will retain Jacksonville railroad right-of-way.

A number of local firms to install Neon signs. Shortage of labor in orchards, and other work hits valley and state.

TWENTY YEARS AGO TODAY July 6, 1918 (It was Friday) War time ban on sale of flour in Oregon lifted. Allies gain strategic points of Western Front, in series of battles. President outlines "new American aims in war."

Motorist fined \$7.35 for driving faster than 16 miles per hour on Main street. J. B. (Jap) Andrews back from four months trip to middle west. Council raises salaries, and passes clean-up ordinance.

OLD SCHOOL DIPLOMAT SUCCEUMS IN HUNGARY

BUDAPEST, July 6.—(AP)—Count Laszlo Secehnyi, 59, "old school" diplomat described here as a "graceful" man who interpreted Hungary to the United States, died of a heart attack in a Budapest sanatorium last night.

From 1922 to 1933, the count was Hungarian minister to Washington. Colleagues in the government service attributed to him, more than to any other contemporary individual, an increase in sympathy for Hungary in the United States.

Man About Manhattan

By GEORGE TUCKER

NEW YORK.—This is the day we get some correspondence off our chest. The doctor says, "Sure, go ahead. I'll be good for you."

So we thumb through the mail basket and pick up a letter from a man in Oakland, California. He sends in a clipping of a column I wrote about a Swedish restaurant in New York.
