

**HOME IN APPLIGATE RANSACKED DURING ABSENCE OF FAMILY**

**BIG APPLIGATE** July 8.—(Sp.)—Thieves were looter a package of soda which they dropped in the barnyard in making their escape with \$20 worth of groceries and other articles from the Jack O'Brien home on the afternoon of July 4.

Mr. O'Brien left for Ashland about 2:15 p.m., leaving his home unlocked, and during his absence the house was ransacked, and well cleared of a fresh supply of groceries, including lard, soap, canned foods, etc. A quilt, a pair of silk hose, and a supply of women's handkerchiefs also were taken. Bedding was left on the floor, and dresser drawers and a cedar chest ransacked.

The pilferers narrowly escaped being caught, for Mr. O'Brien's son, Donald, picnicking on the river with friends, came in the house for a few minutes during the afternoon, and noted bedding in disarray. Further disorder was seen upon the return of the family in the evening, showing that the house had been entered at least twice.

It is believed that the work might have been that of strangers parked nearby repairing a tire as Mr. O'Brien left for Ashland.

**STUDENT FLIER GETS UNSCHEDULED TESTS**

**ALBANY, Ore., July 8.—(AP)—**Ralph Romaine, student flier, passed a couple of severe examinations this week.

While he was flying near the Albany airport last night, the motor of Romaine's plane suddenly roared wildly and the propeller spun off into space.

Romaine banked back for the field, husbanded his altitude carefully and managed to reach the airport and land safely. He later found the propeller.

It was Romaine's second dead-stick landing in a week. An engine stalled on him recently, but he got back to the airport and landed without damage.

Mate, a South American species of holly, is smoked by the Indians as a substitute for tobacco.

**Diary Found Beside Body Bares Domestic Tragedy**

**SAN FRANCISCO, July 8.—(UP)—**A little black diary last night revealed the tragic course that in 15 months led Thomas McBarron, San Francisco typewriter salesman, from a happy marriage to suicide in a Pittsburg, Cal., hotel.

The diary was found beside his body. He had apparently read through it again before he knelt beside the bed and shot himself through the head, a golden crucifix clutched in his hand.

McBarron made his first entry in the diary March 1, 1937, as he prepared to leave for Portland, Ore., to claim his young bride, "Mickey."

"I am leaving for what will be the happiest time of my life," he wrote. "I pray God I may be good enough to deserve the happiness He has brought me."

The entries for the next three months were on a note of happiness. Then June 21, 1937, he wrote: "Mickey struck me today during an argument. We had been shouting at each other when she suddenly flared up and hit me in the face. A few minutes later as I stood in front of an open window, she pushed me."

That was the turning point in the real-life novel that lay on the

**TOURISTS TO TELL WHERE COIN GOES**

**SALEM, Ore., July 8.—(UP)—**The travel department of the Oregon highway commission has started to make a survey in an attempt to learn how tourists spend money when visiting the state.

Three thousand tourists from all over United States and Canada will be asked to keep a record of their expenditures while in the state this summer. A conveniently arranged form has been printed to permit a breakdown in the amounts spent for: car expenses, meals and groceries, hotel accommodations, auto camps and cabins, retail stores, amusements, and for permanent investments. A pre-stamped and addressed envelope is supplied for mailing in the report after the visitor leaves the state.

The survey also is developing material on the visitor's reaction toward Oregon and its people; the things that please him and those that do otherwise.

**F. D. R. WILL DEDICATE HETCH HETCHY JULY 15**

**SAN FRANCISCO, July 8.—(AP)—**President Roosevelt will dedicate O'Shaughnessy dam of the San Francisco (municipal) Hetch Hetchy water and power project July 15, the U. S. commissioner's office of the Golden Gate International Exposition announced today.

The ceremony will be broadcast by remote control, picked up from the Moosasin creek power house and relayed from there.

**GOLD AND SILVER OUTPUT NEAR TOP**

**WASHINGTON, July 8.—(AP)—**Production of gold and silver in the United States last year approached record totals.

Figures on 1937 output, announced today by the mint, showed 4,804,840 ounces of gold were produced, which was within 83,000 ounces of the record set in 1915. Because the price of gold was raised, in 1934 from \$20.67 per ounce to \$35, the value of the 1937 output, \$168,158,900, was \$57,000,000 higher than in 1915.

Silver production totaled 71,941,794 ounces worth \$55,846,978, compared with the record in 1915 of 74,961,075 ounces worth \$37,397,300. Silver was valued in 1937 at 77.35 cents per ounce, which was the special price paid by the treasury for newly mined domestic silver. This year the treasury is paying only 64.64 cents.

California led in gold production with 1,169,491 ounces and Idaho topped the silver producers with 19,556,118 ounces.

Oregon produced 53,757 ounces of gold, valued at \$1,811,500 and 75,154 ounces of silver valued at \$56,192.

**Here's Zest for Summer Meals!**

**Porter's FRIL-LETS** **Porter's FRIL-LET SAUCE**

Everyone will enjoy a meal planned around frilly fresh egg noodles! 100% A-1 Durum Semolina! Ready in 6 1/2 minutes.

**Genuine WESIX**  
**AUTOMATIC ELECTRIC WATER HEATER**

With standard automatic electric waterheater installations selling as high as \$100 and more the special price of \$69.50 on a genuine WESIX automatic electric water heater completely installed in your home offers an exceptional opportunity to obtain perfect hot water service. No longer is it necessary to put up with an obsolete, expensive, unsatisfactory method of heating water.

These new automatic electric water heaters are like giant thermos bottles. They use less electricity because practically none of the heat is lost through radiation. It provides an abundance of hot water at exactly the right temperature as constantly as the cold water supply. The new, off peak, metered, water heating rate is only 8 mills, 4/5 of one cent per kilowatt hour! With this new metered rate you pay only for what you use. The average for the entire company is only \$2.20 monthly. Ask for complete details about the new water heaters and the special, off peak, metered rate.
