

WHEAT LOAN RATE IS ANNOUNCED FOR THIS YEAR'S CROP

Producers May Obtain Between 59 and 60 Cents Per Bushel On Grain Held for Price Improvement

WASHINGTON, July 14.—(AP)—Secretary Wallace announced today the government will make loans on 1938 grown wheat at rates averaging between 58 and 60 cents a bushel to producers who want to hold their grain for better prices.

The loan was made mandatory under provisions of the new farm law on the basis of an official forecast of a huge wheat crop. The crop is estimated far in excess of a normal year's domestic consumption and export needs of about 760,000,000 bushels.

The crop was forecast at 957,412,000 bushels and in addition there is a surplus of 200,000,000 bushels from last year.

Minimum Under Law
Wallace said the loan rates will average the minimum allowed by the law, which is 52 per cent of the "parity" price of \$1.14 a bushel.

Loans will be extended only to wheat producers who did not exceed their 1938 soil-depleting acreage allotments by more than 5 per cent. Wheat must be stored either in commercial warehouses or elevators or in approved farm bins or granaries.

The loan program set up a scale of base loan rates for principal terminal grain markets. Better grades will be eligible for higher loans than lower grades. Likewise, rates on grain stored distances from these terminals will decrease as the distance increases. In a few minor wheat areas flat loan rates were established.

Basic Rates Listed
The basic rates for the terminal markets were announced as follows:
Kansas City, Mo., and Kansas City, Kas.—No. 2 hard winter, 72 cents; No. 2 red winter, 70 cents.
Omaha, Neb., and Council Bluffs, Iowa.—No. 2 hard winter, 71 cents; Chicago—No. 2 hard winter, 77 cents; No. 2 red winter, 75 cents.
St. Louis, Mo., and East St. Louis, Ill.—No. 2 hard winter, 75 cents; No. 2 red winter, 73 cents.
Minneapolis, St. Paul and Duluth, Minn.—No. 1 dark northern spring, 81 cents; No. 1 northern spring, 79 cents; No. 2 amber durum, 72 cents.
Portland, Ore., and Seattle, Wash.—No. 1 soft white, white club, western white, hard winter or western red, 67 cents.
San Francisco and Los Angeles—No. 1 soft white, white club, western white, hard winter or western red, 71 cents.
Galveston and Houston, Tex., and New Orleans—No. 2 hard winter, 77 cents; No. 2 red winter, 75 cents.

The loan rate on wheat stored distances from these terminals will be the terminal rates less all-freight charges plus 4 cents.

Hint Export Goal
Secretary Wallace has hinted that the United States would attempt to regain lost foreign wheat markets even at the cost of government subsidies on exports.

Deferring until today announcement of the wheat loan rate, he proposed that all wheat producing nations cooperate to assure each its normal share in the world markets. He pointed out that this country was ready to act if its hand were forced.

World cooperation, Wallace indicated, would require other nations to recognize that normal American exports were considerably larger than the 100,000,000 bushels he said this country shipped abroad during the last 12 months.

Wallace said that during the 1934-36 drought period, when this country exported very little wheat because of short supplies, many other wheat producing countries expanded production.

He suggested that other wheat nations should not expect the United States to be content with a smaller than normal foreign market, now that good crops have piled up a 250,000,000 bushel exportable surplus.

Former Export Heavy
Before the depression and drought, American wheat exports normally exceeded 150,000,000 bushels annually.

Wallace said he hoped other nations would agree at an international wheat conference opening in London today on a program of sharing export markets and preventing further expansion in wheat acreage.

Asked if this government would subsidize exports in an attempt to regain old American markets, Wallace said:

"I hope other countries will not engage in practices that would make it necessary for us to do so. We can go further along that line than any other nation."

Funds are available for subsidies, he said, recalling that in 1934 this country spent \$6,500,000 to subsidize export of 28,000,000 bushels of surplus Pacific northwest wheat.

The Reconstruction Finance corporation meanwhile, made \$100,000,000 available for the wheat loan program. The money will go to growers desiring to hold grain until prices improve.
