It's a pleasure to say "Thank You"

WE'RE often asked why we go to all the expense of putting the Standard Symphony Hour on the air—year after year—without tying in a "plug" for our products. Actually, thousands of people are surprised that we never make an advertising use of this extremely popular radio feature—a perennial headliner among headliners.

Well, it's not that we don't consider our products worthy of the finest things we can say about them. It's not that we're highbrow. It's simply that we believe it our function to perform certain services of a civic nature which have no direct connection with our commercial activities.

When you come right down to it, almost everybody buys our products at one time or another—so the public is our customer. We do our best for our stockholders—and for our employees. And we don't see why we shouldn't do something for our collective customer—who makes the whole thing possible. In fact, we feel that here, once more, we should do our level best.

So, the truth is, the Standard Symphony Hour—heard every Thursday evening over the Pacific Coast—is not intended as a means of selling goods, but as a way of saying "Thank you" for purchases already made by millions of listeners. Yet if the Symphony Hour leads you to buy our products, it's all right with us.

AUTOMATIC SPRINKLER QUENCHES MILL BLAZE

An automatic sprinkler quickly extinguished a fire at the Timber Products company plant on North Central avenue at 10:10 this morning before the arrival of firemen who dashed to the scene under general alarm orders.

Damage was negligible though plant operations ceased for a brief period. The fire was caused by a motor belt friction which ignited grease and sawdust around a pulley beneath the floor in the basement. Chief Roy Elliott reported. The blaze set off the company automatic sprinkler system.

FATHER BLACK IS HONORED BY 500 ON ANNIVERSARY

About 500 persons attended the Sacred Heart parish reception last night in honor of the Rev. Father F. W. Black's 25th anniversary as a priest. The reception was held on the lawn of St. Mary's Academy. Father Black was ordained August 9, 1913, in Portland, his birthplace.

Father Black was presented with a handsome purse by the parishioners in an impressive ceremony. After a eulge call had been sounded by Alfred E. Dodson, Jr., little Mary Miksche was escorted up an aisle to the speakers' stand by Boy Scouts Leo Miksche and George Demman. The little girl handed an envelope to the Rev. Father Augustus Meyer, Father Black's assistant, and he in turn presented the gift to Father Black, pastor of Sacred Heart church here for 15 years.

Visibly touched by his parishioners' manifestation of friendship and goodwill, Father Black expressed his gratitude in a brief talk that feelingly conveyed his appreciation.

Another feature of the reception was the presentation of a huge silver jubilee cake by the Catholic Young Ladies' society. With the assistance of the young women, Father Black sliced the cake, baked by Joseph Doblmeier, all receiving a piece of it. Short talks were given by the heads of various societies of the church, including Mrs. J. P. Naumes, St. Anne's Altar society, Mrs. Alice Huff, Young Ladies Catholic society, Rudolph Singer, Knights of Columbus, and Grant Monaco, Catholic Young Men's club.

Brief talks also were given by the Rev. Father B. V. Kelly of Portland, the Rev. Father Joseph Sherbergh of Sublimity, the Rev. Father F. J. Feinler of Grants Pass and the Rev. Father William J. Meagher of the Sacred Heart hospital.

Guests introduced were William Black of Portland, Father Black's brother, and John N. Meyer, Father Meyer's father.

St. Anne's Altar society served refreshments. Music was provided during the evening by Whipple's orchestra.

DOG FOUND HERE NOT ONE SOUGHT BY BAKER OWNER

BAKER, Aug. 8.—(AP)—A. G. Porteous of Baker stated today that the Australian shepherd found at a transient camp in Medford Saturday is not his dog. The dog, missing since May, was used by Mrs. Porteous, who is nearly blind, in helping her about the streets here.

Captain Lee M. Bown of the state police said today, the Australian shepherd dog, supposed to be the "eyes" and pet of Mrs. A. G. Porteous, a near blind woman of Baker, Oregon, had been shipped by express to that city, upon instructions from the express agent there to the local agent. The husband, A. G. Porteous guaranteed expenses, the message further stated.

Porteous said today the dog was not the missing pet for whom Governor Charles H. Martin last May directed the state police to keep a lookout for. A description of the dog was sent over the state-wide police teletype at that time.

Porteous, according to state police teletype, identified the dog positively as his, from a state police photograph taken after the dog was located at a transient camp south of Medford. The dog was kept in the humane society kennels pending identification.

MAIMED COYOTES CONFINE PREYING TO RANCH YARDS

Since the control of predatory animals was taken over by the government in February, 18 three-legged coyotes have been caught in farm areas of Jackson county. It was stated today by Arthur K. Crews, junior district agent of the U. S. biological survey.

"It is not the number of coyotes trapped but the kind that is important," Mr. Crews said. "Coyotes with three legs have previously escaped from traps and are therefore trapworthy. Handicapped by the loss of a leg, they are unable to prey on wild animals and so they confine their raids to domestic farm stock, killing off chickens and turkeys in large numbers."

"Our men have been concentrating their control operations in the farm areas because our primary object is to protect domestic stock and wipe out the farm predator. Unsubstantiated they could make a better numerical record if they spread out to include the wild country in their operations. But first we want to clean up the agricultural centers."

More than 18 coyotes have been killed, only the three-legged animals being cited to show the kind of control work being done, Mr. Crews said. Most of the three-legged coyotes were caught in the Sams Valley and Eagle Point farm districts, he added.

The three-legged coyotes were undoubtedly trapped by bounty hunters under the old control system, the animals escaping to become solely farm predators, Mr. Crews said.

TAMING OF SHREW IS FESTIVAL PLAY FOR 8:30 TONIGHT

With attendance setting new records, the fourth annual Oregon Shakespearean Festival continues at 8:30 tonight with the presentation of the Taming of the Shrew at the Elizabethan theater in Ashland.

The rain that sprinkled Medford this morning did not touch Ashland and the Elizabethan open-air theater was left dry and in perfect condition for tonight's performance. Since the opening play last Friday improvements have been made in the theater to provide better acoustics so that the actors may be heard distinctly in all parts of the amphitheater.

Salle Geary of Yakima, former student at the Cornish school of drama in Seattle, makes her debut with the festival in tonight's play, taking the leading part of Katharina, the shrew. The male lead is played by Robert Stedman of Phoenix as Petruchio

GROWER JOHN DURHAM, JR. (above) is enjoying real smoking pleasure. Yes, it's a Camel. As Mr. Durham states, "I see the tobacco that cigarette companies buy. Camel buyers pay more to get the best of my own crops and of my friends. It's Camels for us!"

S. J. BONE CONFIRMS growers' preference for Camels with: "Camels stand ace high with tobacco planters. Camel buys better tobacco — my own and that of my grower friends!"

"THIS LAST CROP," says grower Robert Lee Oakley, "Camel bought my best grade tobacco as they have many times before. Naturally I smoke Camels. So do most other planters in these parts."

C. L. LANLEY — NORTH CAROLINA TOBACCO PLANTER

LEE MASON knows tobacco — he grows it. He says: "For a finer smoke, smoke finer tobacco. That means Camels to me and most planters. Camel pays to get the best."

RAYMOND CRAFT — RAISING FINE TOBACCO IS HIS LIFE WORK

They know who buys their best grades. "Camel," say the typical planters on this page. — Camel buys our choicest lots! So, for their own smoking, planters choose the cigarette that gets their *coastier* tobaccos — Camel! Yes, there is extra enjoyment in Camel's finer, more expensive tobaccos. Try Camels today! Compare them for their enjoyable taste, for their special mildness which permits steady smoking.
