

OREGON FARMERS ENJOY EXCELLENT PROFIT PROSPECT

Corn, Oats, Pastures and Apples Only Items Showing Poor Condition—First Two Worst in Decade.

PORTLAND, Ore., Aug. 16.—(AP) Most of Oregon's agricultural areas will harvest crops this year which should bring many a welcome dollar—if no major weather change occurs in the next few weeks.

A review of the August 1 crop report of the U. S. department of agriculture, released this week, shows that only four units of the state's agriculture can be classified as "poor" in condition. They are corn, oats, pastures and apples.

For the remainder, most are in excellent condition and several approach record-breaking proportions.

Pear Crop Hugs

The barley crop looks like the best since 1907 with one exception, while the rye crop indicates the second largest harvest of record. The largest pear crop in Oregon orchard history is bearing down trees limbs. Among the crops not in favorable condition, only oats and corn are making a really poor showing—the worst in more than a decade. Potatoes, hops and prunes look about average or slightly under.

Crop by crop, the department of agriculture says this:

Wheat—Estimated crop 20,000,000 bushels, or half a million under last year. Winter crop generally good. Spring crop good east of the Cascades, but poor in the western portions of the state. Spring harvest estimated at 6,926,999 bushels, or five million under last year.

Corn—One of smallest crops since 1915 because of dry weather. Estimated harvest 1,624,000 bushels against 2,178,000 in 1937.

Oats—Estimated harvest of 6,720,000 bushels, smallest since 1922 and 35 per cent under last year. Dry weather injured it.

Barley—Second largest crop since 1907 estimated at 3,500,000 bushels against last year's record-breaker of 4,000,000. Acreage largest increased.

Rye—Estimated crop of 800,000 bushels is second largest of record. Largest acreage, 53,000, ever harvested in Oregon.

Potatoes—Dry weather caused serious damage west of the Cascades but Klamath basin crop in good condition. Estimated harvest 6,000,000 bushels, or two million under last year.

Hay—Production expected to reach 1,722,000 tons, slightly larger than last year.

Pastures—Dry weather made conditions below average and much under last year. High ranges in good condition.

Hops—Crop forecast at 19,350,000 pounds, or 5,000,000 under last year with conditions rather spotted.

Apples—Outlook below average.

Peaches—Best crop in two seasons forecast at 280,000 bushels.

Pears—Largest crop of record in prospect and of good quality.

Grapes—Better than average crop.

Prunes—Drop of 18 per cent in prospective crop forecast.

Walnuts—Crop estimated at 3,000 tons, or 950 more than last year.

Fibers—August 1 condition much below average but crop still of near-record size.

Meteorological Report

August 17, 1938

Forecasts

Medford and vicinity: Fair tonight and Wednesday, cooler Wednesday.

Oregon: Fair tonight and Wednesday but fog on the coast, slightly warmer in extreme northeast portion tonight, cooler in interior of west portion Wednesday, moderate north-west wind off the coast.

Local Data

Temperature a year ago today: Highest 92; lowest 50.

Total monthly precipitation, trace; deficiency for the month .08 inches.

Total precipitation since September 1, 1937, 23.00 inches; excess for the season 7.08 inches.

Relative humidity at 5 p. m. yesterday 16 per cent; 5 a. m. today 67 per cent.

Tomorrow: Sunrise 5:21 a. m., sunset 7:09 p. m.

Observations Taken at 5 a. m.—130 Meridian Time.

Teeth Deflect Bullet

BOMBERWORTH, N. H. (UP)—Leo Vachon, high school football team captain, is thankful he has strong teeth. A friend accidentally discharged a .22 caliber rifle. Though the bullet struck Vachon's teeth, knocking out three of them, it was deflected with no other injury to the youth.

SOLDIERS, SAILORS 4-H BOYS, GIRLS TO EXHIBIT WORK AT TWO-DAY FAIR

The Southern Oregon Soldiers' and Sailors' reunion association will hold the 46th annual reunion in Riverside park at Grants Pass, Thursday, August 18.

Registration and issuing of badges will take place from 9 a. m. to 12 with a cover charge of 25 cents. Business meeting will be at 11 a. m. A picnic dinner at noon will be followed by an afternoon program at 2 p. m.

All friends are welcome to register and join in the picnic dinner and a special invitation is extended to Spanish war veterans, American Legion and their auxiliaries.

4-H BOYS, GIRLS TO EXHIBIT WORK AT TWO-DAY FAIR

Displays Will Be Open to Public in County Courthouse Auditorium Friday and Saturday This Week.

Cooking, clothing, canning, forestry and woodworking projects, representing the work of some 450 Jackson county boys and girls, will be on exhibit in the auditorium of the county courthouse at the 4-H club home economics fair, August 18 and 19.

Judging of the home economics exhibits will be done by Miss Schneider of Oregon State college and will start at 10 a. m. Thursday. Forestry projects, which are new in the county this year, will be judged by H. C. Obye of the United States forest service. Keen competition is foreseen in the woodworking projects with exhibits from Griffin Creek, Howard, Rich, Talent, Elk Creek and Mt. Pitt. Chester Ricks of Howard, who placed first with his first-year work at the 1937 state fair, will be back this year in second-year competition.

In addition to the demonstration and judging contests for the girls, a special bread baking contest will be held Friday in which the girls will each mix, knead and bake a loaf of light bread.

The dollar dinner contest for division III cookery girls which caused much interest last year will be held again at this fair. One girl from each club that enters is given three hours to prepare, serve and clear away a dinner for four people, at a cost of not to exceed one dollar.

The girls in the upper division of clothing will model their garments in the style review Friday, during which they will be judged on posture and personal appearance as well as style, fit and workmanship of the dresses.

The auditorium will be open until 8 o'clock Thursday evening. No admission will be charged and everyone is invited to visit the fair and see the work that is being done by our 4-H boys and girls in these projects.

ANDERSON GOING TO ALASKA FOR WEATHER BUREAU

O. Kenneth Anderson, former Medford resident, has been promoted by the U. S. weather bureau from junior meteorologist to assistant meteorologist in charge of the station at Fairbanks, Alaska, and will leave here for his new post tomorrow. He is the son of Mr. and Mrs. Paul F. Anderson of Central Point, formerly of Medford, with whom he has been spending a vacation.

JULY 20 HOTTEST DAY IN J'VILLE'S SUMMER

JACKSONVILLE, Aug. 16.—(Sp.)—July 20 was the hottest day in Jacksonville during that month, with a maximum temperature of 104 degrees, according to figures released by Emil Britt, voluntary observer. Coldest day was the sixth, with a minimum temperature of 45 degrees.

Mean maximum temperature for the month was 91 and mean minimum was 57. Mean temperature was 74. Greatest daily range was 47 degrees.

Total precipitation amounted to 14 inches, the rain falling on the 27th during a thunderstorm. Twenty-five days were clear and six were partly cloudy.

Closing time for Too Late to Classify Ads is 1:30 p. m.

ANDERSON GOING TO ALASKA FOR WEATHER BUREAU

O. Kenneth Anderson, former Medford resident, has been promoted by the U. S. weather bureau from junior meteorologist to assistant meteorologist in charge of the station at Fairbanks, Alaska, and will leave here for his new post tomorrow. He is the son of Mr. and Mrs. Paul F. Anderson of Central Point, formerly of Medford, with whom he has been spending a vacation.

Mr. Anderson will sail from Seattle on the steamer Columbia, August 26, and will begin his new duties at Fairbanks on September 1, exactly ten years after entering the weather bureau service here.

Mr. Anderson was employed by the Medford weather bureau from September 1, 1928, until last October when he was transferred to the bureau's forecast unit at Oakland, Cal., having received several promotions in the meantime.

The Fairbanks station is considered the most important weather bureau unit in Alaska for airways service. The importance of the station has grown of late as new airlines to Alaska have been chartered and the value of the territory for aerial defense has become more and more evident.

Mr. Anderson is extremely well known here. As a member of the Active club he participated in numerous civic events during his years of residence in Medford.

Be SURE of the BEST—Say 'Snider's'

YES SIR! Snider's ICE CREAM FOR ME!

- In Your Favorite Flavor!
- Almond Toffee
 - Hawaiian Delight
 - Strawberry
 - Chocolate
 - Maple Nut
 - Vanilla

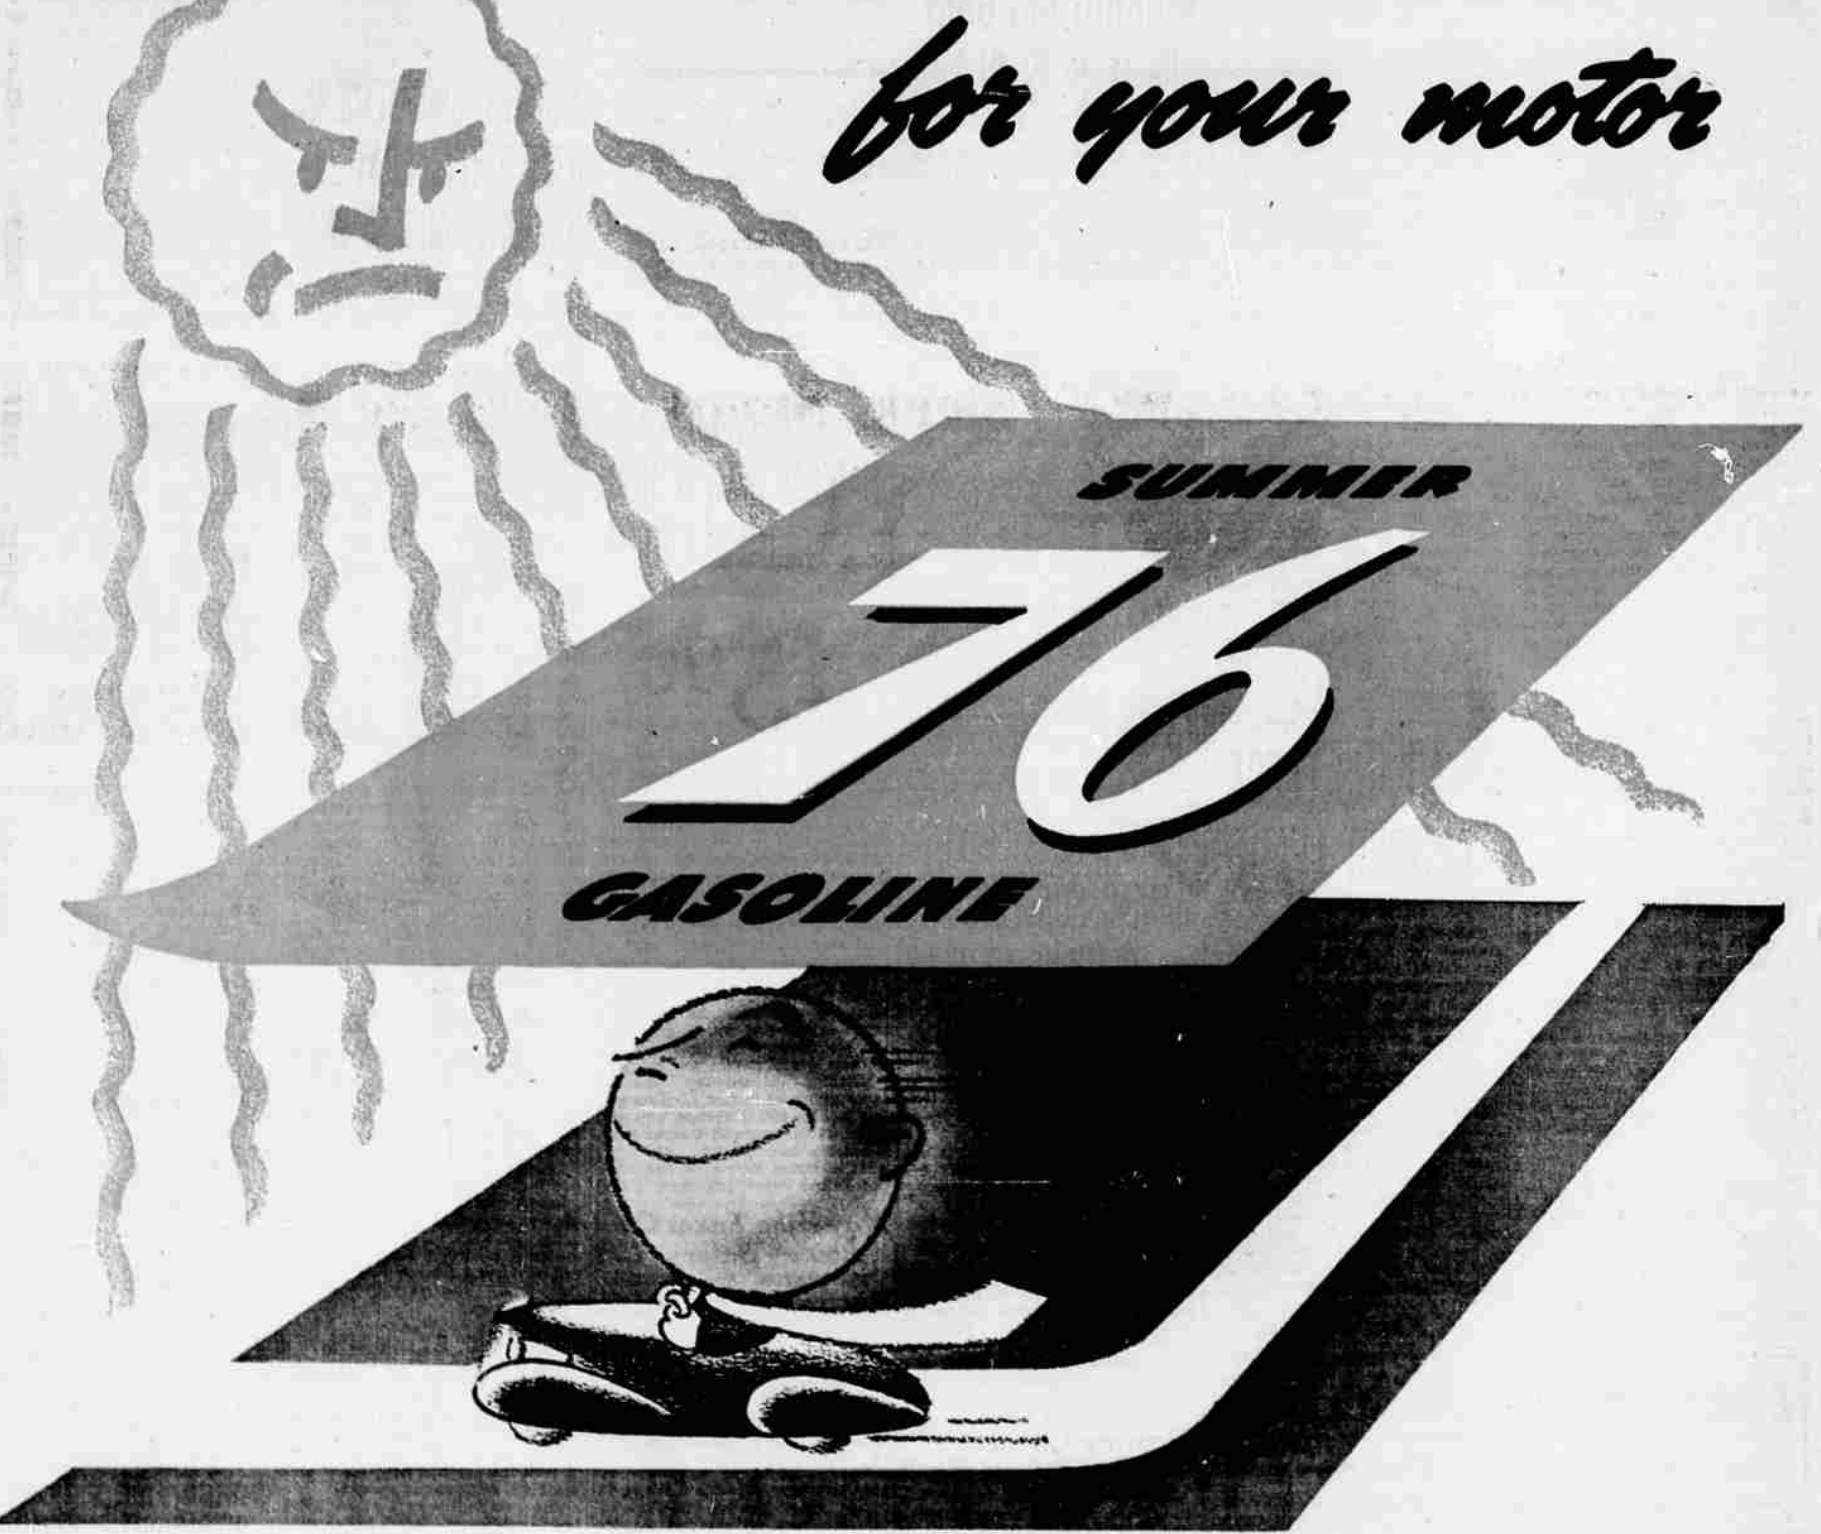

REGARDLESS of the weather, ICE CREAM is MY favorite dish—for dessert or between meals! And I ALWAYS prefer "SNIDER'S" because of its smooth, velvety texture and delicious flavor. It's a GRAND DISH in any man's language!
