## Marital Mixups Explained by Dr. Berry As Due to Hard Life of Doctors' Wives; First Wife Friendly

OLYMPIA, Aug. 25.—(AP)—Dr. Kent W. Berry, whose alleged kidnap-beating of Irving Baker here last Friday night set Olympia tongues wagging at a fast pace, said today he "never before had been in any kind of trouble."

He and four others are charged with first degree kidnaping and assault in connection with the affair, allegedly the climax of a Fourth of July party during which Baker is accused by Berry of ill-treatment with the physician's wife.

The former Montezano, Wash., and Roundup and Lewistown, Mont., doctor said even now he has not been served with a warrant for his arrest. Although he is in the county jail in lieu of \$25,000 bail, "They just picked me up," Dr. Berry said. "I never have been arrested before this."

### It's Hard Life

Some marital troubles he admitted he has had, but added, "my first wife and I lived together for 16 years. Any doctor's wife has a hard life," he added. "A physician is gone from his home at all hours of the day and night, and for long intervals."

"But she will tell you I never was unkind to her. She still likes me." The well-known capital city physician said he had heard reports to the effect he had been in difficulties during his residence in Montezano a few years ago. "Why, I never had any trouble down there. This is all there is to that."

"I was attending a woman patient, when the front door of the house opened and someone entered. The husband went into the front room and discovered a Negro had entered. He told him to leave, and after they had a few words I went out there and told him to get out."

"He ran out the front door. Deputized Against Will. "I later returned downtown and met the night marshal, who had been told of the incident, and he deputized me—against my will—to go out and pick up the Negro and bring him to jail."

"Another man volunteered to accompany me, an offer I was very happy to accept. After we had cruised about for some time, searching for the man, we came upon a crowd of persons—their arms and legs in rapid motion."

"We rescued the badly-beaten Negro from the crowd and returned him to the town marshal. Now, if there is anything wrong in that, I don't know what it is. We saved that man from those people. Of course, he later died, but I had nothing to do with that. I was never charged with having participated in that affair."

The interview started when the doctor was asked about his health. He said he was having lots of good sleep and felt fine. "There is nothing to worry about. When a man is right, nothing disturbs him," he said.

"When this all comes out, the whole story, you will understand," he continued.

# FORESTS FREE FROM FIRE IN THIS AREA

Both the Rogue national forest and the state fire patrols reported no fires on either state or forest service land, and conditions excellent, in general, in the timber. Cool nights in the higher elevations, and observance by campers of fire regulations have aided the situation.

The haze hanging over the foothills is attributed to smoke drifting in from upstate areas.

# TRIO WILL AWAIT GRAND JURY'S EYE

Helen Port and Lester Port, charged with obtaining money under false pretenses, waived preliminary hearing in justice court Wednesday, and were ordered held to await grand jury action.

Louis Pool, charged with contributing to the delinquency of a minor, 13-year-old girl of this city, also waived preliminary hearing, and was ordered held to await action of the grand jury.

The district attorney said both the Ports and Pool had indicated their willingness to appear in circuit court at an early date.

The Ports allegedly attempted to pass a spurious check for \$10.12 upon the Montgomery Ward company store here, made out to a Klamath Falls bank for a short time, and came there from a southern California town.

Pool was arrested in Roseburg last Saturday, after he and the girl in the case, had hitch-hiked there from this city.

# BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature's chief way of taking your excess and poisonous waste out of the blood. Most people pass about 2 pints a day of about 3 pounds of waste.

Frequent or acute passages with smearing and burning shows there may be something wrong with your kidneys or bladder.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Don't wait. Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.
