

### CAROLE INSISTS HER INCOME TAX FIGURE CORRECT

Actress Answers Criticism  
With Revelation She Paid  
85 1-2 Per Cent of 1937  
Income Out in Taxes

HOLLYWOOD, Aug. 26.—(UP)—Miss Carole Lombard, who started the U. S. treasury and most of her Hollywood conferees by revealing she paid 85 1/2 per cent of her \$465,000 income last year in taxes, insisted today she had made no mistake in her calculations, as charged in Washington dispatches.

"I gave the federal government 85 per cent of my wages last year, and I was glad to do it, too," she said. "I gave the state income tax collector 12 per cent and I handed the personal property man eight and one half per cent. That makes 85 1/2 per cent and frankly I don't see what all the shooting is about."

Given Willingly  
"I'm giving it willingly. I think it's a good investment. Income tax money all goes into improvement and protection of the country and I can think of no better way to spend it."

Miss Lombard said she paid \$397,875 in taxes. That left her \$67,425, from which she had to pay her agent, business manager, and other incidental expenses.

"So my net income was \$20,000," she said. "It was plenty for me. I don't need any more."

Figures and Figures  
Washington dispatches quoted tax officials as saying Miss Lombard had a lovely figure but that she was not so good at such figures as are written in red ink. They estimated she paid only \$280,024 to the federal government and not more than \$50,000 to the state.

Miss Lombard said she didn't want to get into any arguments with the tax collectors but she had her check stubs and could produce them if anybody were sufficiently interested.

### TAX ON TRANSACTIONS FOR OLD AGE PENSIONS HIT BY BUSINESS MEN

SALEM, Aug. 26.—(UP)—Claiming the measure will result in a pyramided sales tax, the Oregon Business and Investors corporation of Portland filed objections late yesterday to the citizens' retirement annuity bill which will appear on the general election ballot in November.

The bill, initiated by petition, was designed to raise money for old age pensions through a two per cent tax on the gross dollar value of all transactions in the state.

"It is a monstrous sales tax, a sales tax on a sales tax, a pyramiding super-sales tax," said the objections which will be published in the voters' pamphlet.

"It is not a simple retail sales tax such as Washington and California have. It is a two per cent tax on every conceivable kind of sale or transaction, from the two per cent tax on the doctor's fee for bringing your child into the world, to the two per cent tax on the undertaker's charges for service and material."

The objectors said the plan might cost Oregon \$80,786,400 a year, more than all the cities, counties and the state itself now raise through taxes.

Dissolve Company  
SALEM, Aug. 26.—(UP)—Paper dissolving the incorporation of the Southern Oregon Investment company, Klamath Falls, were filed with the corporation commissioner here today by W. W. Southwell.
