

GREENBACK MINE TO BE PLACED IN OPERATION SOON

P. B. Wickham Announces
Plans for Famous Josephine County Mine—Over
3 Millions Taken in Past

GRANTS PASS, Sept. 2.—(Sp.)—Confirmation by P. B. Wickham, leading southern Oregon "hardrock" gold miner, that he will open Greenback mine was made by Mr. Wickham late Wednesday.

The Greenback, now partly dismantled, will at first resume as a smaller operation, Mr. Wickham said, with not less than 10 stamps and probably more.

Jewel Morrison, field geologist for the state department of geology and mineral industries, said Thursday he approved the following release:

The Greenback mine is recognized as the largest lode gold mine of Josephine county, with a past production record estimated in excess of three and a half million dollars. The mine has nearly two miles of underground workings, exploring the vein system for a length of some 1500 feet and to a depth of more than 1000 feet. The milling plant of 40 stamps formerly treated as much as 150 tons per day and the mine and mill when in full operation provided employment to as many as 100 men.

Wickham states that the first several months will be devoted to re-opening, repairing and exploration of the mine to be followed by re-1000 feet. The milling plant of 40 stamps formerly treated as much as 150 tons per day and the mine and mill when in full operation provided employment to as many as 100 men.

Wickham states that the first several months will be devoted to re-opening, repairing and exploration of the mine to be followed by re-1000 feet. The milling plant of 40 stamps formerly treated as much as 150 tons per day and the mine and mill when in full operation provided employment to as many as 100 men.

The milling plant of 40 stamps formerly treated as much as 150 tons per day and the mine and mill when in full operation provided employment to as many as 100 men.

ed as the leading mine owner and operator of this section and his holdings besides the "Greenback" include the "Standard Metal Mine" and the "Standard Placers" on Rogue river as Alameda in Josephine county, the "Shorty Hope Mine" and the "Ashland Mine" near the city of Ashland in Jackson county, the latter being at present the largest lode gold producer in southwestern Oregon with continuous operation under present ownership since 1931.

Wickham declined to make any forecast concerning the result of his undertaking at the Greenback mine but his record as a mining operator offers good reason to feel that the mine will be successfully operated.

HOLIDAY PROGRAM AT LAKE O' WOODS

LAKE O' THE WOODS, Sept. 2.—(Sp.)—A big entertainment program will be given over the Labor day week-end for the throng which comes here annually for the summer's last holiday.

There will be exhibition motorboat and aquaplane races Saturday with a big dance in the evening. Sunday, there will be hydroplane, service runabout, aquaplane and rowboat races and canoe tilting. At 8 p. m. a special boxing card with six fast amateur bouts will be run off in the outdoor arena on the edge of the lake.

At nine o'clock a dance will get underway in the lodge hall.

Monday afternoon will see final heats in the water events, starting at 1 p. m. and concluding at 3 p. m. with awarding of prizes at the lodge at 4 p. m.
