

F. R. PLEDGES AID TOWARD KEEPING LIBERAL OUTLOOK

Maryland Foe of Tydings Given High Praise in Labor Day Address — Tydings' 'Pretensions' Hit

DENTON, Md., Sept. 6.—(AP)—President Roosevelt pledged his personal effort "to try to keep" the Democratic party "liberal" in an address Monday, praising the legislative record of the new deal's senatorial candidate in Maryland, Representative David J. Lewis.

By name, Mr. Roosevelt mentioned in his prepared address neither Lewis nor Senator Millard Tydings whom the White House has marked for defeat in the Democratic primary.

But the president's praise of Lewis was unmistakable, while many hearers, recalling that Mr. Roosevelt once said that Tydings "wants to run with the Roosevelt prestige and the money of his conservative Republican friends both on his side," interpreted these words as directed at the senator.

Any man—any political party—has a right to be honestly one or the other (conservative or liberal). But the nation cannot stand for the confusion of having him pretend to be one and act like the other.

The president spoke to eastern shore farmers, gathered with their families in country-houses at Chesapeake Bay, on a tour of the Chesapeake Bay peninsula.

Mr. Roosevelt's Labor day speech was delivered after an automobile drive under a bright sun from Crisfield, where he landed from an overnight cruise on his yacht Potomac. He drove through towns whose predominant occupations were fishing and farming and paused at Salisbury to say the eastern shore "had given him a wonderful reception."

Visit Defended
The president indirectly noted the contention in some campaign advertisements by Tydings supporters his visit constituted an "invasion" of the state. In this connection he remarked "for two reasons" he had accepted the invitation of Rep. T. Alan Goldsborough, eastern shore congressman, to make the visit.

"The first reason," he said, "is to give you and me a chance to reestablish a fact which we thought long ago was thoroughly established by the constitution—that in the free state of Maryland—happily a part of the union—the flag, the constitution and the president are still as welcome as in all the other forty-seven states of the union."

"The second, and the original, reason for my coming here is also related to the unity of this nation. Unthinking people may believe that the first Monday in September—Labor day—is set aside in special honor of those who work at a trade in mills and factories and railroads and mines. That is a narrow interpretation, for this day belongs just as much to those who work with head and hands on farms."

Some See Shortage
"America has always had—and America still has—a small minority who assume that there are not enough good things to go around to give that minority all it wants and at the same time to give the rest of America—the overwhelming majority of America—a humane and modern standard of living. . . . Today above all else that minority is trying to drive a wedge between the farmers on the one hand and their relatives and their logical partners in the cities on the other."

That is why I have wanted to come here on Labor Day and preach a sermon, if you will, on the ancient text, 'We are all members one of another.' . . .

Economic lesson number one of the past 20 years is that men and women on farms, men and women in cities, are partners. America cannot prosper unless both groups prosper. . . . That is the keystone in the arch of the economic and social policy of your administration in Washington."

The state's Democratic primary is September 12.
With obvious reference to Lewis, Mr. Roosevelt said Marylanders were "fortunate in having a man who not only sees vision but has lived to make them come true."

TWO ELIMINATED AS SUSPECTS IN WOMAN'S KIDNAP

Officers Face Cold Trail in Effort to Apprehend Abductors — Victim Near Complete Recovery.

MERCED, Calif., Sept. 6.—(AP)—Police Officer James Turner said he was convinced two men arrested here today for investigation had no connection with the kidnaping of Mrs. William R. Meeks.

Turner said the men were questioned about the abduction of the ranch woman, but they were eliminated as possible suspects when police learned they did not fit descriptions of the kidnapers given by Mrs. Meeks.

When dawn broke, Mrs. Meeks made her way home.

The police officer said the men would be returned to El Cerrito on a charge of stealing an automobile registered to Joe Vierra, whose name one of the men assumed.

MARYSVILLE, Calif., Sept. 6.—(AP)—The hunt for the kidnapers of Mrs. W. R. Meeks, who held the well-to-do rancher's wife captive for 56 hours but did not collect the \$15,000 ransom, was speeded today but officers said "the kidnapers' trail for the immediate present is cold."

Dist. Atty. Lloyd Hewitt said Mrs. Meeks, 55, would be taken over "the kidnapers' path today in further efforts to discover clues.

The woman, nearly recovered from her experience, told how one captor, whose description she furnished, said "the boss" had ordered her slain.

"He said the boss complained of too much publicity and decided they had to get rid of me," she related. "He said he had been ordered to shoot me and throw me in the river."

"I pleaded with him, urging him not to do anything foolish. I suggested when the boss left, he take me with him to the highway, let me go, and that he go his way. He hesitated and then went away. That was Saturday night."

When dawn broke, Mrs. Meeks made her way home.

Under direction of Mr. Overturf, who has had considerable training in science, this department of the high school will be enlarged, new courses added and much new laboratory equipment purchased. Mr. Meyers will have charge of music, both vocal and instrumental and many new activities are planned for this department.

Mrs. Goldin taught for several years at Phoenix and is well known in the educational circles of the county.

Library facilities for both high school and elementary school will be greatly increased this year. Plans have been made for a more extensive use of the county library in connection with the school work.

Textbooks are furnished free in the elementary school and a complete rental library in the high school makes it possible for all to obtain books at a very small cost. Books will be on hand for the beginning of work the first day.

A substantial increase in enrollment is expected. High school pupils from non-high school territory will again receive transportation allowance of three cents per mile and a large enrollment from surrounding districts is expected.

BIKE RIDER HURT IN MIX WITH CAR

Fred M. Lyles, 54, of 324 Plum street, sustained a severe scalp wound and several fractured ribs on the left side of his chest yesterday afternoon when he rode his bicycle into an automobile driven by Herbert R. Tilley of 1115 West Ninth street, at the intersection of Front and Main streets.

Lyles was confined in Sacred Heart hospital today, not critically injured, according to the attending physician.

City police reported that Lyles, riding his bicycle east on Main street, struck broadside the car traveling south on Front street. Lyles' head crashed against the glass on the right rear door of the car, breaking the window, after which he tumbled over backwards to the pavement, police said. The Per ambulance was summoned to rush the injured man to the hospital.

Witnesses told police Lyles was pedaling with his head down at a fairly fast rate of speed, and apparently didn't see the machine. The crash occurred after the car had passed the center of the intersection.

61 Dead Counted as Chile Crushes Socialist Uprising

SANTIAGO, Chile, Sept. 6.—(AP)—At least 61 persons were known today to have died and 58 to have been arrested in a rebellion by a small group of Chilean national socialists which was crushed after three and one-half hours of fighting.

There was no official report of casualties, but it was known 61 bodies were taken to the morgue after the rebels were driven yesterday from a building of the national university and the 10-story workers' insurance building.

It was feared additional deaths might eventually increase the list of fatalities to between 80 and 100.

Gen. Carlos Ibanez, former dictator and a candidate in the Chilean presidential election to be held next month, was held as leader of the uprising with 37 others accused of conspiring with him. He was expected to face a court-martial today.

Although the revolt was believed to have been aided by extremists among Ibanez' adherents, it did not have the moral support of the major opposition parties.

The city had returned to normal, but congress was scheduled to meet to debate a presidential request—as a result of the abortive putsch—for suspension for six months of a constitutional article which guarantees freedom of speech, public assembly and the press.

The Nazi organ Trabajo and the extreme left newspaper Opinion were suspended.
